Introduction

As the spending of the 2015 Affordable Housing bond winds down, this report has been condensed for ease of use and clarity. This report will continue to report on projects where 2015 Affordable Housing bond spending is ongoing, however, for previous details and project information prior to June 2023 please refer to previous reports at https://sf.gov/information/2015-affordable-housing-general-obligation-bond.

Overview of Allocations and Target Beneficiaries

The Bond is relieving housing market pressure by:

- Investing in neighborhoods to promote and preserve economic diversity;
- Developing and acquiring housing for a broad population, including families, seniors, transitional-aged youth, single working adults, veterans, disabled households, and income levels ranging from extremely low to moderate; and,
- Meeting the need through a range of activities, including new multi-family construction, acquisition of existing apartment buildings, and other efforts that will effectively increase the affordable housing supply.

The Bond targets several priority populations in order to serve the City's vulnerable residents and households at risk of displacement:

- Low-income working families
- Veterans
- Seniors
- Disabled individuals

Overview of how this bond is different from most other City GO bonds

With most General Obligation bonds, the City hires contractors to complete infrastructure improvements. For affordable housing, the City does not engage contractors directly or own the improvements directly. Rather, the City will make loans to developers who then hire contractors and own the improvements through Limited Liability Companies (LLCs). This approach allows projects to leverage outside investment, including Federal Low-Income Housing Tax Credits. City loans help jump start development, as it is usually the least costly funding the project will receive. Loans to developers include affordability covenants to ensure that projects are affordable for the long-term.

The Bond also funded down payment assistance loans to individual first-time homebuyers to purchase their homes. Individual loans are directly paid into escrow and a lien is recorded in the title. Down payment assistance loans are repaid in full at time of sale with a proportional share of appreciation coming to the City in lieu of interest payments.

The Bond spending occurred in three major categories: Public Housing, Low-Income Housing (with a portion set aside specifically for the Mission neighborhood), and Middle-Income Housing.

Key Highlights - June 2024

First Issuance

- Over 99.9% of first issuance spent
- First bond issuance is projected to be fully expended by the end of 2024
- Less than \$60K remaining balance

Second Issuance

- Over 99.3% of second issuance spent
- Second bond issuance is projected to be fully expended by the end of 2024
- Less than \$500K remaining balance in both low-income and middle-income housing categories

Third Issuance

- Third and final issuance sold in October 2019
- More than 97.3% of the third issuance is spent and 99.4% is spent or encumbered
- Third bond issuance is projected to be fully expended by mid-2025. Remaining unencumbered balance is mainly related to the downpayment assistance loan program.

Issuance Breakdown

	Issuance 1		Issuance 2		Issuance 3		TOTAL	
Public Housing	\$	41.0	\$	0.4	\$	38.6	\$	80.0
Low-Income Housing	\$	24.2	\$	68.4	\$	7.4	\$	100.0
Low-Income Housing (Mission)	\$	6.1	\$	43.1	\$	0.8	\$	50.0
Middle-Income Housing	\$	3.8	\$	30.2	\$	46.0	\$	80.0
TOTAL	\$	75.1	\$	142.1	\$	92.8	\$	310.0

Investment in Public Housing

Public Housing in San Francisco – Overview of the Problems We are Trying to Solve

The majority of San Francisco's public housing was built over 60 years ago and was not designed to be occupied into the 21st Century. The City is now working on two programs to transform public housing – Rental Assistance Demonstration (RAD) and HOPE SF. Bond funds will be used for HOPE SF to accelerate new construction of tax credit affordable and public housing replacement units at two distressed public housing sites, including infrastructure replacement. Bond funds will be spent on the most urgent capital needs and strive for creation of net new units where possible.

RAD and HOPE SF

RAD – RAD is a HUD program which allows public housing authorities to permanently convert public housing to private ownership while maintaining affordability through rental subsidies. In San Francisco, the Housing Authority has transferred ownership and operations of over 3,500 units to private partners. These private partners have access to Low Income Housing Tax Credits and commercial debt which can be used to rehabilitate distressed units. As of December 2019, rehabilitation was complete on all 29 projects. The RAD program has also been used to increase operating subsidies for over 1,000 households in 23 multifamily sites, most of whom are formerly homeless; and to support major recapitalizations of HOPE VI multifamily properties built in the 1990s to replace public housing properties.

HOPE SF – HOPE SF is the transformation of four of San Francisco's largest and most severely distressed public housing sites into vibrant mixed income communities without displacement of residents. The scope of the work encompasses creating new affordable housing, including public housing replacement units, additional affordable units, new market rate units, a new street grid with new infrastructure, new parks and open spaces, retail spaces and community facilities. The four HOPE SF public housing sites are Alice Griffith, Hunters View, Potrero Terrace and Annex, and Sunnydale-Velasco.

Note: Bond funds will only be used for two of the HOPE SF Sites – Sunnydale & Potrero. Bonds will not be used for RAD.

Public Housing Project Status Summaries

Project Update

- **Potrero Phase II Infrastructure** This is the 1st onsite infrastructure phase. Abatement and demo have been completed. The Sponsor started horizontal improvements in February 2021 and final payment is projected for early 2025.
- Sunnydale Parcel Q construction completed in late 2019. The building is 100% occupied and the \$33K remaining balance below has been unencumbered since June 2023. That balance will be reallocated to other eligible projects or GO Bond debt service.

Investment in Low-Income Housing – New Development

Bond funds allowed the development of seven additional projects in San Francisco which are 100% affordable to individuals and families earning less than 60% of the Area Median Income. Bond funds accelerated new affordable housing production through quick release of funds. Construction is complete or underway for all sites funded in this category.

Mission Neighborhood Set-Aside

The Mission Neighborhood has been particularly impacted by increased rents and displacement. Neighborhood residents advocated for a set-aside for the Mission in the Bond proposal which went before the voters in order to help preserve the neighborhood as an affordable community. Through a Notice of Funding Availability ("NOFA") process concluded in December 2016, MOHCD selected 1990 Folsom for the Mission neighborhood development set-aside, a 143-unit family development with a childcare center and an artist workspace component that is greatly desired by community members. This initial identification of Low-Income bond funds for a predevelopment loan to 1990 Folsom adds to significant additional MOHCD investments in the Mission in recent years.

Due to project savings a portion of the funds budgeted for the 1990 Folsom project has been reallocated to 681 Florida. The 681 Florida development team was procured via an RFP that was published October 13, 2016. Two development teams responded, and the selection panel recommended MEDA/TNDC to be selected on February 15, 2017. Construction was completed in the fall of 2022.

Low Income Housing Project Status Summaries

Project Update

All currently allocated funds have been spent. The remaining \$70K balance in the low-income
category and the \$25K remaining in the Mission set-aside category will each be reallocated to
ongoing eligible projects or GO Bond debt service.

Investment in Low-Income Housing – Rehabilitation of Small Sites

Description of Small Sites program

The Small Sites Program (SSP) is an acquisition and rehabilitation loan program created to protect older, typically rent-controlled, buildings of up to 25 units throughout San Francisco. In the face of increasing pressure on tenants who are particularly vulnerable to property sales, increased evictions and rising rents, the City developed the Small Sites Program in order to support non-profit and for-profit entities to successfully remove these sites from the market and restrict them as long-term affordable housing.

Project Status Summary

All projects were substantially completed by fall 2021

520 Shrader Street	7		1,636,887	1,636,887	-	-	Mar 2020	Mar 2020	Mar 2020
Small Sites Program Subtotal	80	25,871,887	25,871,887	25,861,040	10,847	-			

^{**} We note that projects with the same encumbrance, disbursement, and completion dates are permanent loan funding only. Unlike regular rehab loans where MOHCD does periodic disbursements, for some small sites projects the initial rehab funding is first done through the San Francisco Housing Accelerator Fund (SFHAF) which allows for quicker loan approval as it is only bridge funding. Once the rehab is complete the SFHAF loan is replaced with permanent financing using bond funds.

Investment in Middle-Income Housing – Down Payment Assistance & Teacher Next Door

Middle Income DALP – 114 Total units (estimate)

The Down Payment Assistance Loan Program (DALP) provides down payment assistance to qualified moderate income borrowers (120%-175% AMI), in the form of a "silent second loan" up to \$375,000, to first-time homebuyers for the purchase of a market-rate principal residence in San Francisco. The DALP loan requires no interest and no monthly payments. It is a deferred loan due upon sale, transfer of the property, or non-compliance with the contractual program requirements. The principal amount of the DALP loan amount plus an equitable share of appreciation are due at time of resale or repayment.

Teacher Next Door - 66 Total units

The Teacher Next Door (TND) Program helps educators employed by the San Francisco Unified School District (SFUSD) to purchase their first home in San Francisco. Educators can use TND funds to cover closing costs or for a down payment on a below market-rate (BMR) or a market-rate home. The term of the TND is 10 years. There is no interest, nor shared appreciation. After the 5th year, the loan is forgiven at rate of 20% per year, and at the end of the 10th year, the loan is forgiven in its entirety. In addition to TND funds, bond funds for teachers may also be utilized to fund full DALP loans for SFUSD educators.

^{**} Revisions column used to reallocate budget between projects. Budget revisions are primarily driven by unneeded excess budget that was initially allocated to projects.

Change in Unit Counts

MOHCD has made several changes in the allocation of funds and corrections to the methodology in how units are counted. Please see table below comparing current unit count to first CGOBOC report as of 12/31/16.

Datasas David V Vertical Con	of 12/31/16 GOBOC Report	Report	Variance		Comments
Potrero Parcel X Vertical Gap	72 94	72	- (04)	0%

Metric of Success

The primary metric of success for the Affordable Housing Bond is number of units produced, protected, or assisted. We have estimated the projected number of affordable units through all phases of the bond process and will track progress and provide regular updates accordingly.

It's important to note that new housing development in San Francisco can easily take five years from start to finish. Newly constructed public housing units are projected to be completed in 2019-2025, low-income units were projected to be completed in 2021-2023, and middle-income units may be completed in 2022-2024.

Unit Production Summary as of June 30, 2024 (All Issuances)

	Affordable Units in Predevelopment	Affordable Units in Construction	Affordable Units Completed	Projected Total Affordable Units
Public Housing – Potrero Parcel X Vertical	0	0	72	72
Public Housing – Potrero Infra (Affordable)	0	157	0	157
Public Housing – Potrero Infra (Market Rate)*	0	125	0	125

TOTAL	1	417	1,153**	1,571
Percent of Phase	0.1%	27%	73%	100%

^{*} We are including infrastructure supporting Market Rate units at Potrero as they provide cross-subsidy for affordable housing units also supported by the infrastructure investment.

^{**} We note that several units received both DALP and TND Loans. For the purposes of this <u>summary</u> we only counted units receiving both types of loans once as a DALP loan.

^{***} We note that loans not yet issued are tracked under Predevelopment so that the percentages will equal to 100%

Glossary

Acquisition: Costs associated with acquisition of real property

Estimated

Completion: Building completed and units leased

Infrastructure: Costs which are secondarily related to housing development, including large-

scale site grading, streets, sidewalks, utility work, etc. Predominantly needed in

the HOPE SF context where we are creating entire new neighborhoods.

Master Planning: Development of an overall strategy for the complete transformation of a public

housing site. Master Planning work sets forth a comprehensive vision, schedule,

communications plan, financing strategy, services program, and, most

importantly, stakeholder participation process that highlights resident needs.

NOFA: Notice of Funding Availability, a competitive process used to identify projects

and developers.

Predevelopment: Costs prior to actual construction, including architectural, engineering,

> environmental, and permitting costs. May be related directly to housing development or may be infrastructure predevelopment which supports future

housing development.

Vertical Gap and/or

Costs starting with actual construction through and including occupancy and

Vertical Development: conversion to permanent financing
