South Russian Hill

Community Location

See Attached Map

Why Keep Together

Our community has strong ties with the Western Nob Hill, Chinatown, and North Beach. We have a substantial percentage of multi-generational multiethnic with a large percentage of Chinese families, long term rent-controlled tenants and property owners. We wish to remain connected with Western Nob Hill, Chinatown and North Beach rather than neighbors to the West that do not share our mutual connection with these neighborhoods. Our community also has a history of activism and organizing around important land use and development issues such as preserve the diverse multi ethnic diversity of our community as well as socioeconomic diversity.

Here's the latest version of this record from the "COI Table" table:

Name

Sunset-Parkside Education and Action Committee (SPEAK)

Date Submitted

2/23/2022 9:46am

Mutual Interest

The Community of Interest (COI) for Sunset-Parkside Education and Action Committee (SPEAK) is the Outside Lands from south of Golden Gate Park to the southern tip of Lake Merced.

The Outside Lands was the original name for this area and it even appears on an official Board of Supervisors map dated 1868.

The populated areas in SPEAK's COI are Outer Sunset, Mid Sunset, Inner Sunset, Parkside, Pine Lake, Crestlake and Merced Manor. SPEAK's COI excludes Lakeshore.

SPEAK's COI also includes the unpopulated areas of Stern Grove, Sunset Reservoir, Merced Manor Reservoir, the Oceanside Treatment Facility, Stonestown, Fort Funston (shared resource with D7 - north area only) and Lake Merced (shared resource with D7 - water area only). The Farallones off the coast are also part of SPEAK's COI.

Community Location

Lincoln Way, 7th Avenue, Kirkham, 19th Avenue, Buckingham Way, sight line from western side of Stonestown and Rolph Nicol Playground, Eucalyptus, 23rd Avenue, Sloat Boulevard, Lake Merced Boulevard, John Muir Drive, off the coast to the Farallones and back to Lincoln Way.

Why Keep Together

The Outside Lands south of Golden Gate Park is sand dunes bordered by the ocean with its wind and fog.

The Outside Lands south of Golden Gate Park is mainly working class neighborhoods of starter homes.

Here's the latest version of this record from the "COI Table" table:

Name

the Hayes Valley LGBTQ community of interest

Date Submitted

2/21/2022 3:41pm

Mutual Interest

"Although the Castro emerged as a gay neighborhood in the 1960s, the support it provided to LGBTQ people often was qualified by such limitations as socioeconomic status, race, age, and gender identity. Because Hayes Valley largely escaped the forces of gentrification into the 2000s, it offered less expensive housing and commercial spaces and retained a vibrant culture accessible to an LGBTQ population of lesser means and greater diversity."(2019 BOS legislation for Castro LGBTQ Cultural District)

This community was actively discriminated against by those living in the Castro

because the group lived in a low-rent, high-crime area, that also included a unique commercial district. Conversely, in Hayes Valley, all residents were embraced regardless of racial/economic circumstances. Many endured the destruction of Hayes Valley and building of the Central Freeway, and years later many in this LGBTQ community became core organizers to remove the Central Freeway. This acceptance of all later became a part of the Hayes Valley Neighborhood Association (HVNA) bylaws and a core value in recognizing the need for affordable housing. This group worked tirelessly to assure that 50% of the former freeway parcels were dedicated to marginalized groups (TAY, developmentally disabled, formerly homeless) as well as general BMR housing.

Community Location

Our Community of Interest is mostly within the current Hayes Valley Neighborhood Assn boundaries (N on Webster from Haight, E on McAllister, S on Van Ness, W on Market, N on Buchanan, W on Waller, N on Fillmore, E on Haight to Webster, N on Webster) and includes the UC Regents site of 340 units at Alchemy Apts, Haight Street Art Center, a community garden and openhouse's LGBTQ Senior Housing at 55 Laguna.

Why Keep Together

Notably, the former Oak Hill Neighborhood Association, and the larger and ongoing Hayes Valley Neighborhood Association ("HVNA ") included significant LGBTQ leadership since their formation. The HVNA took a groundbreaking position by stating a commitment to maintaining neighborhood diversity in its bylaws. LGBTQ people also had prominent roles in the campaign to demolish the Central Freeway after the 1989 earthquake and in the subsequent creation of Octavia Boulevard and Patricia's Green, as well as in advocating development of at least 50% affordable housing on parcels cleared by the freeway removal." (2019 BOS legislation for Castro LGBTQ Cultural District)

The need for LGBTQ-friendly elder housing was also important to this Hayes Valley LGBTQ community, particularly with many facing aging on a small fixed income. This community worked hard to see the new LGBTQ-friendly elder housing development at the 55 Laguna complex become a reality, as well as

ensuring it was a part of the larger neighborhood, not closed off as the developer had originally planned. Members of Hayes Valley Neighborhood Association fought hard for the inclusion of a significant number of BMR units in the large apartment complex, as well as for the low-income LGBTQ openhouse complex. Along with supporting the addition of the openhouse LGBTQ community, neighbors and members of HVNA also advocated for a neighborhood-serving community garden and neighborhood-serving community space which became the Haight Street Art Center, which has many connections in the neighborhood, especially with John Muir Elementary School and the students there. It is very important to recognize the role the HVNA community played in the establishment of the first in the nation LGBTQ-friendly senior supportive housing, and ensuring its inclusion into the larger neighborhood rather than treating it as a stand-alone (and thus isolated) institution.

Here's the latest version of this record from the "COI Table" table:

Name

Tamar

Date Submitted

2/19/2022 10:22pm

Mutual Interest

Our neighborhood, McLaren Park especially McNab lake and the pickle ball courts, the businesses on San Bruno, stopping anti-AAPI hate and anti-Black and anti-Samoan racism, raising the next generation of the families who live in this neighborhood at our various schools especially MLK Middle School.

Community Location

I'd say south of 280 and west of the 101 is Portola, and after about Mansell it starts to become vis valley. Probably the top of the hill on Felton at Peru it starts to become Excelsior.

Why Keep Together

We represent a lost culture of our city, an SF mostly untouched by the hipster popularity competition, a walking neighborhood with one of the most diverse collections of commercial entities, food and otherwise. When I'm in the Portola I feel like I'm in the San Francisco I remember from my childhood. I feel an immense positivity coming from our residents. I want our community to stay strong.

Here's the latest version of this record from the "COI Table" table:

Name

Valerie Luu

Date Submitted

2/18/2022 3:15pm

Mutual Interest

I am employed by the Portola Neighborhood Association as the Corridor Manager for San Bruno Avenue. My job is to provide technical assistance to merchants to apply for loans, grants and other City resources.

Our mutual interest is to have a thriving commercial corridor and to work together to sustain businesses through the pandemic.

Community Location

We'd like to keep Portola's boundaries as they're currently represented in D9

Why Keep Together

San Bruno Avenue merchants should be kept in the Portola so that the Corridor Manager can continue to provide technical support and create more equitable access to loans, grants and other resources that might otherwise be challenging due to language and cultural barriers and the digital divide.

Keeping the Portola merchants together allows the businesses and residents to continue to advocate for more resources to the neighborhood and creating marketing campaigns to drum up business. Splitting up this dense commercial corridor will add more injury to this neighborhood that's still trying to survive the pandemic.

Board member

Date Submitted

2/18/2022 11:26am

Mutual Interest

Over the past weeks, the attached map was developed with major activists in District 5, around the strong core of the African American community, the Japanese American community, and the Haight Ashbury. Additional input came from Hayes Valley Neighborhood Association, Inner Sunset neighbors, North of Panhandle Neighborhood Association, and Alamo Square Neighborhood Association. Contributors are listed alphabetically by organization.

We have numerous communities of interest, and will be sending these in soon. You have already received COIs from Hayes Valley Neighborhood Association and the Buchanan Mall.

D5 is one of the most progressive voting districts in San Francisco. D5 is mixed ethnically, although European Americans predominate. About 75% of our residents are renters. We have the full diversity of San Francisco, including LGBTQ and persons currently unhoused. Our neighborhoods range in income from zero to millionaires, often within a couple of blocks of each other. Our diversity is a major part of our creativity, and of our compassion, as we have many services for people facing many challenges, including being unhoused.

Name

Laura Kemp

Date Submitted

2/18/2022 10:54am

Mutual Interest

Thanks to community activism and engagement and a supportive District Supervisor, the Portola has been able to enact many important community projects, for example the naming of the district as the Garden District, the Burrows Pocket Park, the Alemany Island beautification, murals along the Avenue, the extension of Burrows Pocket Park along the Western side of 101 freeway and running parallel with San Bruno Avenue, facade improvement to the Avenue Theater on San Bruno Avenue, safety improvements for pedestrians along the Avenue, Mansell pedestrian access through McLaren

Park, to name but a few of the many capital improvements for our previously long neglected neighborhood.

There are many public and private schools in the neighborhood, Phillip and Sala Burton High School, ER Taylor, Hillcrest School, MLK Middle School, Alta Vista, The San Francisco School, to name a few, as well as several neighborhood churches.

Community Location

101 freeway to the East, Alemany Boulevard to the North, Mansell Avenue to the South, and the Eastern side of McLaren Park to the East, including streets such as Cambridge Street, etc.

Why Keep Together

As neighborhood residents and activists, we would like to both continue the work that is ongoing and engage in new improvement projects. The most optimum and effective way to do this successfully is if the Portola District boundaries remain as they are now and the district remains as it is currently, within Supervisor District 9, with Supervisor Hillary Ronen. Supervisor Ronen has been an effective and supportive advocate for our district.

The Portola Neighborhood

Community Location

Please see this link, which shows the boundaries: <https://url.avanan.click/v2/> https://data.sfgov.org/Geographic-Locations-and-Boundaries/Realtor-Neighborhoods/5gzj-g9ns_YXAzOnNmZHqyOmE6bzo2MGOwMDAsNWFjNmVhYVY4NWVvYjdlNGVhNGNhbYzRjMDQlQjA1NDY6ZGMlNmE4NDI1NmZlZGE5M2E1Y2MmNz8lYjZmMmMyN2VlYmQ1MAYTI3NDExMDYwMjU1ZGI3ZWNkM2NmNTMwNTp0Qk4

Why Keep Together

Portola is a special place that combines some commerce with a large number of apartments and smaller single family homes. It is an ethnically diverse, lower to middle-income area where residents are invested in supporting the local area's success. People tend to come here so that they can still be in the City, but at a slower, almost more suburban, pace of life. We have unified interests in parking, crime, urban renewal, balancing commercial and residential needs, and especially the lack of easy public transportation access. The residents here have a long, proud, unified history. Please keep us a single unit.

Thank you

S Jason Salfen

Mutual Interest

My community of interest is the public schools in the Richmond District and the families who attend them.

Community Location

Our community is Arguello to ocean beach to include Roosevelt Middle School, and including Presidio Middle School on the north side, through

Golden Gate Park where so many of our families spend time in.

Why Keep Together

Perhaps it could be considered to increase east near Roosevelt middle school to keep our public schools together.

Mutual Interest

The Potrero Hill/Dogpatch neighborhood shares a heritage in SF's maritime and industrial history, being composed of a combination of residential areas that served these works, and post-industrial areas that are being turned into new residential areas leading to growth in this neighborhood.

Community Location

This area is defined as Potrero Hill and its adjacent slopes. The Eastern border is the water front. The Southern border is Islas creek/Cesar Chavez. The Western border is Potrero Avenue. And the Northern Border is Division/Townsend/the new UCSF campus

Why Keep Together

Given the ongoing conversion of post-industrial areas to residential and office space, this area continues to face common issues related to growth.

Mutual Interest

Equity, transportation, facilities, open space

Community Location

Potrero Hill (north, south, east, west - the whole thing), Dogpatch, Design District

Why Keep Together

For at least the last 14 years, the Rebuild Potrero project has been working to reintegrate -- physically and culturally -- the Potrero Annex and Terrace with the north and west sides of Potrero Hill. We are in the midst of a multi-decade effort to forge an community that integrates residents across the socio-economic ladder. In parallel, the residents of Potrero Hill have been working tirelessly to improve the green spaces and community facilities for the entire hill, including revitalization of the rec center, improved east-west pedestrian paths, and advocacy for public transit for all of Potrero Hill. Anything that splits the various parts of Potrero Hill, either north-south or east west, will undermine those efforts, and possibly bring back de facto segregation.

Further, Potrero Hill and Dogpatch -- areas that have seen tremendous population growth in the last decade -- have been working together to ensure adequate resources (schools, parks, community centers) are sufficiently for the region. Splitting us will upend the balances that we've struck with the city and developers.

Mutual Interest

Potrero Hill, and specifically its Green Benefit District are an area of mutual interest to myself and my community.

Community Location

Simply look at the boundaries of the Potrero Hill GBD (attached). This covers not just Potrero hill, but also sections on the other side of 101 by hospital curve

as well as parts of Dogpatch

Why Keep Together

It's important to me that the GBD not be divided into separate districts as part of the redistricting process as this will mean we'll have to spread our efforts among different supervisors or potentially break up the GBD into multiple districts.

Mutual Interest

My community of interest is Potrero Hill; this includes the Design district, Dogpatch, HOPE SF housing community, and the 3rd Street Corridor extending to the Central waterfront.

My community is comprised of schools public and charter, ISA High School, Enola Maxwell Middle School, Starr King Elementary, Daniel Webster, and Live Oaks charter schools among other early child daycare centers; I probably missed a few. We also have historical, monumental, and community utilized centers such as the Park and Rec centers at at 801 Arkansas, Jackson Park, and

the Potrero Hill Neighborhood House affectionately known by residents as the "NABE". In these spaces we have been able to form alliances and build relationships that surpass differences, but rather embrace the cultures, ethnicities, and demographics that support our continued growth.

We have a myriad of small businesses that help to create a thriving neighborhood economy. Yes there is always room for growth, but together, maintaining our current community as we are.

Lastly, we need to consider the access to food/ grocery stores. Currently we have Whole Foods located on Kansas at 17th Street, a neighborhood grocer at 18th and Connecticut which signifies the hardship that would further cause on what the city already knows about District 10, we are in a food desert.

Community Location

Potrero Hill, Dogpatch is bounded by Caesar Chavez Street on the south, Potrero Avenue on the west, Division Street, 7th Street, 16th Street on the north, and the Bay on the east.

Why Keep Together

For many years we have thrived as a community, for the betterment of all residents and we need to remain together. Understanding that growth and development will happen, but preserving the livelihood and choice of the people who live here should take precedence.

I have lived in this community for 42 years, have the privilege to work in this community for the biggest labor organization in the city which represents 35,000 essential workers who many are of color, I see my healthcare provider in this neighborhood, I utilize resources from organizations that are in this community such as Transformational Miracles, Stand In Peace Inc, Rafiki Wellness, CARE program, Omega Boys Club and I am ONLY afforded this ability/privilege because the boundary lines as they are encompass all these important pieces of my life. Right here in Potrero Hill. I fear that redrawing lines

would change that.

I also fear changes to any boundary lines in this neighborhood would negatively affect our political voice and subject us to "cracking"; racially polarized voting is not a challenge we currently face.

Mutual Interest

I live at 498 Utah Street - "west" Potrero Hill. We are actively engaged in community events with the rest of Potrero Hill. This includes somewhat formal relationships such as entering into a GBD agreement for greening the community and adding hardscape as well. Given the very close ongoing relationship between folks who live in my area of town and the rest of Potrero Hill. It would be bizarre & disruptive to put us in a different district from the rest of Potrero Hill.

Community Location

Current boundaries of Potrero hill, namely using Potrero Avenue as the western cut off of Potrero Hill. We (People who live east of Potrero Hill and west of the 101) want to remain part of Potrero Hill.

Why Keep Together

Please see comments above. The Potrero Hill community which extends to West Potrero Hill, i.e., west of the 101 and east of Potrero Street, is deeply connected. We share a lot of activities together and have formal connections such as through our GBD district. It would be a shame to separate us.

Mutual Interest

The NW PotreroHill Community, which includes homes and businesses on both sides of Fwy101, has been working together on mini-parks and open space on Caltrans right-of-way. These areas, left by the construction of the freeway which split up the neighborhood have been a source of community, allowing us to hold block parties, egg hunts, MUNA neighborhood trash pickups and more. We are connected through mailing lists set up by working with SFSAFE. This neighborhood joined the Dogpatch and NWPotreroHill GBD and has been working for 6 years on the Potrero Gateway project which Public

Works has put up to bid. We are part of Potrero Hill and Dogpatch and share the same Supervisor.

Community Location

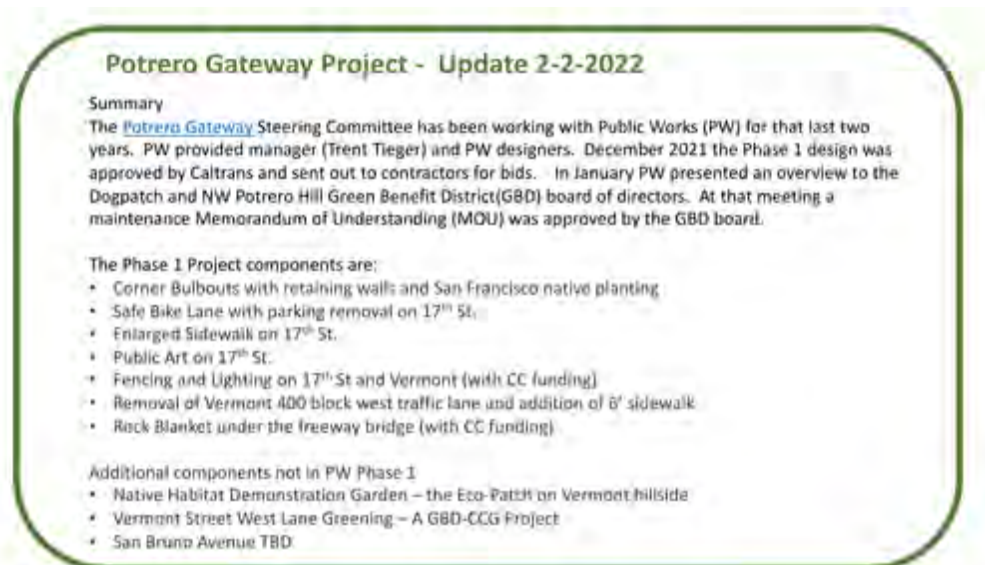

Northwest Potrero - This area is between Potrero Avenue and Vermont Street

Why Keep Together

We work together on neighborhood projects and need the same Supervisor to help us. We have the same interests about clean streets, community oriented parks and in general taking on projects as a community. If we did not have the same supervisor our community work would be fragmented.

An example of our community work is the Eco-Patch on Vermont Street and the Potrero Gateway project on 17th street. I'll attach information about the Potrero Gateway project our community is working on. Thaty will give you an idea of our community work.

Attachments

Potrero Gateway Project - Update 2-2-2022

Summary
The [Potrero Gateway](#) Steering Committee has been working with Public Works (PW) for that last two years. PW provided manager (Trent Tieger) and PW designers. December 2021 the Phase 1 design was approved by Caltrans and sent out to contractors for bids. In January PW presented an overview to the Dogpatch and NW Potrero Hill Green Benefit District (GBD) board of directors. At that meeting a maintenance Memorandum of Understanding (MOU) was approved by the GBD board.

The Phase 1 Project components are:

- Corner Bulbouts with retaining walls and San Francisco native planting
- Safe Bike Lane with parking removal on 17th St.
- Enlarged Sidewalk on 17th St.
- Public Art on 17th St.
- Fencing and Lighting on 17th St and Vermont (with CC funding)
- Removal of Vermont 400 block west traffic lane and addition of 8' sidewalk
- Rock Blanket under the freeway bridge (with CC funding)

Additional components not in PW Phase 1

- Native Habitat Demonstration Garden – the Eco-Patch on Vermont hillside
- Vermont Street West Lane Greening – A GBD-CCG Project
- San Bruno Avenue TBD

Mutual Interest

Shared culture, shared industrial heritage, shared community resources and historic under-investment from the city

Community Location

Potrero Hill. We are bounded by Cesar Chavez, 101, the bay, and 15th/16th st. Dogpatch is part of this community. Before 280 carved a scar through our

community, the two part were one, with a strong working class community with thematic street names, community resources and cultural institutions.

Why Keep Together

We share a common working-class industrial heritage, with similar needs and general neglect from the city in terms of investment, city resources, and attention. We have banded together to build our own community resources, parks, and programs. Our children attend the same schools. We have been historically hit by poor planning decisions, designed to affect economically disadvantaged people in our neighborhood: through destructive highway construction, poor choice of housing development, lack of crime prevention, inconsistent public transit, eroding sidewalks/roads/retaining walls/hillsides, neglected investor-owned lots and abandoned properties--the list goes on. Despite all this, we strive to overcome this unnatural hurdles and support our diverse, growing community. Our neighborhood also supports many resources and developments enjoyed by the entire city, something that has come at a cost to our neighborhood but something that we feel is nonetheless worth it. Dividing the neighborhood puts at risk our representation even further in city decisions.

Date Submitted

2/3/2022 8:39am

Mutual Interest

Parks, open and green spaces

Community Location

The Bayview, Potrero Hill, Dogpatch, Showplace Square...Potrero Avenue to the Bay, Division to Paul.

Why Keep Together

Our growing population needs more green and open space. Our communities are working together to renovate Jackson and Esprit Parks and support the creation of the India Basin park. Potrero Rec Center provides basketball/tennis/baseball which is currently well used and usage will only increase during the construction phases at Jackson & Esprit. Dogpatch Port Parks cannot do active recreation, so there is mutual dependence on Potrero Hill parks.

Our community of interest has historically advocated together for more green/open space in our neighborhoods. We want to stay together as we've formed alliances and great working relationships.

Mutual Interest

Shared culture, shared industrial heritage, shared community resources and historic under-investment from the city

Community Location

Potrero Hill. We are bounded by Cesar Chavez, 101, the bay, and 15th/16th st. Dogpatch is part of this community. Before 280 carved a scar through our

community, the two part were one, with a strong working class community with thematic street names, community resources and cultural institutions.

Why Keep Together

We share a common working-class industrial heritage, with similar needs and general neglect from the city in terms of investment, city resources, and attention. We have banded together to build our own community resources, parks, and programs. Our children attend the same schools. We have been historically hit by poor planning decisions, designed to affect economically disadvantaged people in our neighborhood: through destructive highway construction, poor choice of housing development, lack of crime prevention, inconsistent public transit, eroding sidewalks/roads/retaining walls/hillsides, neglected investor-owned lots and abandoned properties--the list goes on. Despite all this, we strive to overcome this unnatural hurdles and support our diverse, growing community. Our neighborhood also supports many resources and developments enjoyed by the entire city, something that has come at a cost to our neighborhood but something that we feel is nonetheless worth it. Dividing the neighborhood puts at risk our representation even further in city decisions.

Here's the latest version of this record from the "COI Table" table:

Name

Potrero Hill – Dogpatch

Date Submitted

2/3/2022 11:47am

Mutual Interest

Historically, Potrero Hill and Dogpatch have been linked as working class residential and industrial neighborhoods. Although the original character of the two neighborhoods has changed, they remain linked in many ways.

Our schools, parks, restaurants, and our single public library are utilized by residents of both Potrero Hill and Dogpatch.

Our public transit lines serve both communities. We have felt the importance of this link during the Covid-19 pandemic, when an important bus line was

discontinued, the #10-Townsend, linking Dogpatch with Potrero Hill and continuing to South of Market and the Financial District.

Health issues are a common thread for both Potrero Hill and Dogpatch, as we are surrounded by freeways and the rate of respiratory diseases, including asthma, is among the highest in California. We have just one public health clinic that serves both communities.

Community Location

East: San Francisco Bay;

North: Terry François Blvd to 16th St; 16th St to I-280; I-280 to 6th St Exit Ramp; Townsend St to Division St; Division St to Potrero Ave;

West: Potrero Ave to Bayshore Blvd Ramp Complex;

South: Bayshore Blvd Ramp Complex to Jerrold Ave; Jerrold Ave to Napoleon St; Napoleon St to (unnamed connecting line) to Islais Creek Channel; Islais Creek Channel to San Francisco Bay

Why Keep Together

Our community organizations have been linked for many years, with organizations like the Potrero Boosters, the Dogpatch Neighborhood Association, and the Potrero-Dogpatch Merchant Association. These organizations have always advocated – and continue to fight – together on behalf of our combined communities. We need to continue this cooperation not only on a non-governmental organizational level, but also with common representation in the California State Senate and Assembly, and in a common supervisorial district in the City & County of San Francisco.

Subject: Correction: Potrero Hill COI

This message is from outside the City email system. Do not open links or attachments from untrusted

Please accept this corrected COI statement in advance of the February 4 RDTF meeting. I had sent an earlier version and caught a spelling error.

Thank you.

What is your community of interest?

My community of interest is known as The Potrero. It includes Potrero Hill, the Design District, Dogpatch, and the Third Street Corridor, extending to the Central Waterfront.

If you take a tour of our community, you will note the many turn-of-the-century homes, historical nightlife venues, and light industrial warehouses dating back to the 1906 earthquake. But, you'll also be struck by the sheer number of new multi family apartment complexes, office spaces, and creative businesses— development largely driven by UCSF and a biotech hub to our North East.

Because of the rapid pace of change, residents have a unified voice in preserving the essential character of The Potrero, expressed through groups such as the Dogpatch Neighborhood Association and the Potrero Hill Boosters. In 2015 the community even established the city's first community benefit district devoted to carving out healthy green spaces in the public realm—the Dogpatch NW Potrero Hill Green Benefit District.

Our neighborhoods also have another huge challenge—that is, highways 101 and 280. The 101 has exits at Cesar Chavez, Vermont Street, and Seventh Street. The 280 has exits at Mariposa, 6th Streets, and King Street. Heavy traffic from large commercial vehicles as well as commuter cars must use this infrastructure to enter San Francisco. The easy entry and “getaway” provides the perfect opportunity to commit crimes in the City and flee at high speeds on our streets. Additionally, freeway overpasses promote illegal dumping and encampments, as well as the attendant sanitation and fire hazards.

Where is it located?

The Potrero Hill / Dogpatch COI is roughly bounded by Cesar Chavez Street, Potrero Avenue, Division Street, 7th Street, 16th Street, and the Bay.

Why should it be kept together?

The Potrero should be kept together in a single district so that it can continue to advocate, with the help of one supervisor, for responsible development. In regard to the blight caused by freeway infrastructure, we need one supervisor who can navigate the complexities of working with San Francisco social services as well as Caltrans and CA Highway Patrol to mitigate the impacts on residents.

Libby Dodd
Torben Torp-Smith
Residents of The Potrero

Describe your San Francisco Community of Interest (COI):

Please be sure to include **what** makes it a Community of Interest (e.g. shared culture, common neighborhood projects, etc.) **where** it is located (i.e. streets, parks, freeways, or other places that make up the exterior boundaries of your COI) and **why** it should be kept together (e.g. easier to work with 1 Supervisor). A COI can be any size – large or small – and does not need to be the same size as a district. Often multiple COIs are included in one district.

What is your community's mutual interest?

Where is your community located? Please be as specific as possible – what streets, highways, rivers, etc., make up the boundaries of your COI?

Why should your community be kept together?

Date: _____ Name (optional): _____

Please **email** this completed form (or the information from this form) as soon as possible to: rdtf@sfgov.org or **mail it** to: Office of the Clerk of the Board, 1 Dr. Carlton B. Goodlett Place, Room 244, San Francisco, CA 94102, or **drop it off** at any Redistricting Task Force meeting. Thank you for participating. This process would not be possible without your knowledge of your community!

Here's the latest version of this record from the "COI Table" table:

Name

Diamond Heights Community Association

Mutual Interest

Diamond Heights was developed by the former San Francisco Redevelopment Agency to be a model community. By design, the neighborhood was developed with market rate single family homes, condominiums, rental units and 641 units of HUD subsidized affordable rental housing. In 1981, Casa De Vida was built with 21 affordable HUD subsidized rental units for mobility challenged persons. Diamond Heights is unique to the City with its broad range of economic diversity. It is a neighborhood of single-family homes and condominium complexes distinguished by its distinctive, mid-century architecture. The community is served by the Diamond Heights Community Association, a neighborhood organization organized in the 1960's when the San Francisco Redevelopment Agency created Diamond Heights. The Agency mandated that planning in the neighborhood be coordinated with the neighborhood organization.

The DHCA has 800 people on its email list. Announcements inform residents of resources, candidates forums, community issues, events and safety concerns pertaining to Diamond Heights. The DHCA is a member of the Coalition for San Francisco Neighborhoods. We are a neighborhood with high voter turnout and civic engagement.

Community Location

The Diamond Heights community of interest is as follows: Clipper Street west from Douglass Street to Portola Drive; Portola west to O'Shaughnessy Boulevard; O'Shaughnessy southwest to Bosworth Street; Bosworth east to Elk Street; Elk north to Sussex Street; Sussex east to Bemis Street; Bemis northeast to Miguel Street; Miguel northeast to Beacon Street; Beacon northwest to Harry Walk; Harry Walk northeast to Laidley Street; Laidley northwest to 30th Street; 30th west to Castro Street; Castro north to Valley Street, Valley west to Diamond Street; Diamond north to Duncan Street; Duncan west to Douglass Street; and Douglass north to Clipper Street.

Why Keep Together

Over time, the DHCA has developed a strong, working relationship with the D8 supervisor on important issues facing the district, be that crime prevention, traffic safety, recreation, parks, and more. The synergies the DHCA has developed would be lost or significantly reduced if all or a portion of Diamond Heights were removed from D8 to D7 and the voice of Diamond Heights at City Hall would be diminished. Diamond Heights has many issues in common with its D8 neighbors, Noe Valley and Glen Park. It is cut off from D7 by Glen Canyon Park, which forms a physical barrier to the west.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Here's the latest version of this record from the "COI Table" table:

Name

John B Fernandez de Castro

Mutual Interest

In 1926, 94 years ago, the Potrero and Dogpatch communities saw the need to have a community association that represented the interests of residents and businesses.

The Potrero Boosters are the third oldest neighborhood association in the City.

For almost 100 years we have worked together to form a cohesive community. In spite of our communities being bisected by two freeways (101 & 280) in the 1960's and our steep geography.

Organizations helped by Potrero Boosters in their formation as our neighborhood grew were:

- The Dogpatch Neighborhood Association (DNA)
- Dogpatch North West Potrero Hill Green Benefit District (GBD)
- Potrero Dogpatch Merchants Association (PDMA)

We all work together for the benefit of our Potrero and Dogpatch community with the neighbors, businesses, City Agencies and State Agencies.

The Sustainable Streets Committee that I co-chair with DNA Vice President Donovan Lacy works on Traffic Safety and Traffic Calming for the entire Potrero & Dogpatch area.

Recently, our team worked with the SFMTA, Bridge Housing and CARE San Francisco to get support from SFMTA to implement a solution to an unknown Vision Zero high injury corridor in Potrero Public Housing on 25th St. It had 2 fatalities and 6 injury accidents in under three years.

Projects of the Dogpatch / Potrero Sustainable Streets team benefit the Dogpatch / Potrero community.

- Safer intersections program to improve pedestrian safety & visibility
- Permanent Minnesota Slow Street in Dogpatch
- 18th St. Neighborhood Commercial District Traffic Calming
- Safer 17th Street bike route
- Traffic Calming installations in Potrero Hill, Potrero Public Housing and Dogpatch where we coordinate & track annual application process by impacted blocks

- North South Bike route (Bayview to SOMA)
- Traffic Calming at Potrero Community Health Center & Starr King School at request of School Principal and community leaders in Potrero Public Housing

Community Location

The 1926 bylaws defined the boundaries of the Potrero Boosters and Merchants Association now known as the Potrero Boosters Neighborhood Association:

- Potrero Avenue on the west
- 16th Street on the north
- San Francisco Bay on the east
- Cesar Chavez St (formerly Army St. in 1926) on the south

These boundaries today describe

- Potrero Hill
- North West Potrero Hill (Potrero Ave., Utah St. & San Bruno St.)
- Potrero Public Housing
- Dogpatch.
- Developments at Pier 70 and Power Station (east of Illinois St)

Showplace Square Support

There is not a community wide association for the residences in Showplace Square (South of Division; west of 7th St to Potrero Ave.)

Potrero Boosters have members and help the residential occupants with Planning Dept. issues and SFMTA traffic / parking issues impacting their homes .(e.g. proposed Amazon Warehouse is just one of many issues)

Why Keep Together

We are a diverse community of all income levels that work together for the benefit of our overall neighborhood and the City.

The organizations I have mentioned and many others work for the benefit of the entire Potrero / Dogpatch community.

People depending on their interests serve groups mentioned by me and other community groups. Many people are officers of more than one community organization focused on common issues;

- Schools
- Parks and Recreation
- Public Safety and Crime reduction
- Sustainable Streets (my focus)
- Converting old industrial land into usable space for recreation
- Neighborhood Commercial District improvements on 18th, 20th and 22nd St.
- Food Distribution (SF Food Bank, CARE -SF and other community groups)
- Clean up of waterfront and Islas Creek (DNA and GBD lead these efforts)

I got involved in the Potrero Hill community when I moved here in 1979. Many of us worked for years on the multiple plans for Mission Bay. I Co-Chaired the original Potrero Hill Mission Bay committee in the 1980's.

The Potrero Boosters and Dogpatch Neighborhood Assn. were the lead community intervenors at CPUC regarding shutting down the old polluting power plant at Potrero

that was causing significant air pollution for our neighborhood and our neighbors in Bayview / Hunters Point.

We worked with our Bayview neighbors on issues like our assistance to the community CPUC intervenors on shutting down the old polluting Hunters Point power plant. Today we now all enjoy Heron Head Park instead of a polluting power plant.

A City & developer paid Aerial survey in 1998 referred to all of Dogpatch as an 'Industrial Wasteland' that should be torn down.. A few years later the Dogpatch Historic District was created in much of the same area.

The Potrero Boosters, Dogpatch Neighborhood Association and Bayview leaders created a plan document over many months from 1998 to 2001 on our views for Eastern Neighborhood development..

This set of documents described how our City could use what Supervisor Sophie Maxwell said "I'm not for banning, I'm for planning," (SF Business Times 10/22/2001).

The final January 2009 Eastern Neighborhood Plan used the ideas and philosophy from that early community developed document. The goal was to help both Communities and Developers know the guidelines for the Eastern Neighborhoods.

Recently Potrero Boosters and Dogpatch supported our District 10 neighbors for the 15 3rd Muni Rapid Bus to get Bayview residents downtown faster than the slow T Third line.

The 2000 census showed Potrero Hill and Dogpatch with a population of about 11,000. Today the population has more than doubled.

All of Potrero Hill and Dogpatch have worked together to forge a better community for almost 100 years. We need to remain together in District 10.

John B. Fernandez de Castro

Co Chair Dogpatch / Potrero Sustainable Streets Team

General Comment

Here is my secondary input on the district 5 based on consistent geography, character, etc. In my last one it looks like I missed a few internal blocks that should have been selected to make it contiguous. I think this reflect better the consistent values and culture of a ""new"" district 5. I did vet this with a few neighbors via the Cole Valley Facebook page and they agreed. Hopefully this input is considered in drawing more representative lines. The current district 5 proposal breaks up Cole Valley which is a core neighborhood in district 5.

Here's the latest version of this record from the "COI Table" table:

Name

Dr. Emily Murase, Executive Director of the SF Japantown Task Force

Mutual Interest

Before World War II, there were over 80 Japanese and Japanese American communities across the country, at least 40 in California alone. Today, San Francisco Japantown is just one of three remaining communities in the U.S. (the others are San Jose Japantown and Little Tokyo in Los Angeles). Egregiously racist government policies such as the wartime incarceration of 120,000 Americans of Japanese ancestry in remote desert prison camps and the City's damaging use of eminent domain and evictions as part of "redevelopment" and "urban renewal" projects are responsible for the destruction of the Japanese American community. In both cases, Japanese American families and businesses were forcibly removed and largely uncompensated, impoverishing not only families and businesses, but entire communities, for decades. San Francisco Japantown has weathered these impacts and remains home to businesses, churches, community centers, social service agencies, schools, senior facilities reflecting the diversity of Japanese culture and tradition. Japantown was the very first City-designated cultural district.

Furthermore, Japantown collaborates closely with the Western Addition and Fillmore Districts, especially the Black communities, based on a shared history of resilience in the face of institutional racism. For example, the Black and Japanese communities have worked closely together at the Buchanan Street YMCA, the Booker T. Washington Community Service Center, and the Japanese Community Youth Council, just to name a few of the many agencies promoting collaborations. These strong ties remain today and continue to shape the lives of countless youth and individuals. During the pandemic, the Japanese American Religious Federation, a consortium of faith leaders, has partnered with African American/Black faith leaders in the Western Addition to create a new

initiative called "We Are One" which has been recognized by Mayor London Breed.

Community Location

Please see the attached map with highlighted borders. This map has been formally adopted by the City & County of San Francisco as part of the Japantown Cultural Heritage and Economic Sustainability Strategy (JCHES) (approved by the San Francisco Planning Commission and the Board of Supervisors in 2013), and reinforced by the Japantown Special Area Design Guidelines (approved by San Francisco Planning Commission in 2019). The boundaries are as follows.

1. Northern boundary: California Street between Steiner & Gough.
2. Western boundary: (1) Steiner between California & O'Farrell, (2) Fillmore between O'Farrell & Ellis.
3. Eastern boundary: (1) Gough between California & Geary, (2) Octavia between Geary & Ellis.
4. Southern boundary: (1) O'Farrell between Steiner & Fillmore, (2) Ellis between Fillmore & Octavia, (3) Geary between Octavia & Gough.

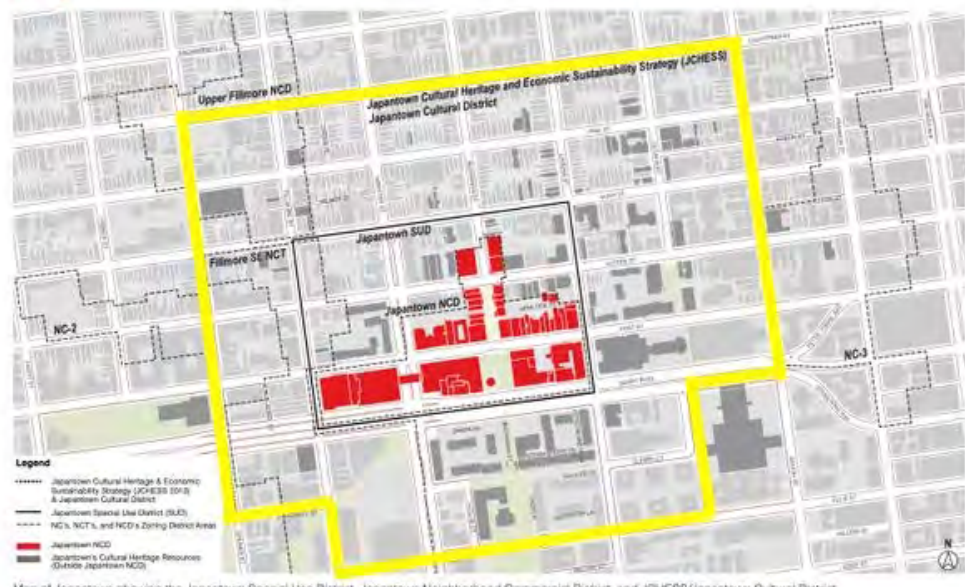

We look to community leaders in the Western Addition and Fillmore District, especially the Black communities, to determine their boundaries which we will strongly support.

Why Keep Together

Despite our resilience, Japantown is a vulnerable community. As a result of the pandemic, many businesses have closed and tourism has plummeted. It is absolutely essential that the existing City-adopted boundaries of Japantown be honored so that Japantown can survive and thrive for many generations into the future. It is also vitally important that Japantown's historic and cultural ties with the Western Addition and the Fillmore District, especially Black communities, be protected and they, too, are vulnerable. In many varied ways, these communities contribute to the cultural life and diversity of San Francisco and sustain its world-class status.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Here's the latest version of this record from the "COI Table" table:

Name

Mutual Interest

For those of us back on Potrero Hill and the south slopes, we recreate at Potrero del Sol, Heron's Head, and Warm Water Cove. It's an under the radar slice of the city that's maybe not intuitive until you look at a bus map (and topography). We need to stay connected to our little micro-neighborhood of "the hill and where it spills". If you want a community school, we have Starr King and Bryant which are the best to bike, walk or bus to. We have a bit more housing density back here than the many single family homes just north of us, and we will continue to increase in density with the Rebuild so we aren't worrying about diminishing parking because we are more into buses, bikes, walking and trains. So we go where the buses go, and where the walker finds the path of least resistance.

Community Location

Its a small slice of the city that follows the (pre-pandemic) path of the 48/19/10 buses as they run along the backside of Potrero Hill on 26th, connecting this highway bound area to itself and to the city. For streets, this COI is from about 22nd St down to Islais channel, bound on the West by Potrero Ave and to the east, by the bay.

Why Keep Together

We are more closed off to the North by topography beyond the Rec Center. To the south, Cesar Chavez is dangerous to cross on foot with the light at Connecticut being one of the few spots. To the east the 25th street foot bridge is unlikely to open back up. That pushes both buses and residents to use 23rd street where it crosses the 101 as a corridor to the city to the west. To the east, the Rebuild Potrero project is tying the area from the bay to the hill even more tightly together.

Plan Name

Bills district 5

Submission ID

MyCityCouncil_SD_012020221020_Bills district 5

General Comment

Here is my input on the district 5 based on consistent geography, character, etc. I think this reflect better the consistent values and culture of a "new" district 5. I did vet this with a few neighbors via the Cole Valley Facebook page and they agreed. Hopefully this input is considered in drawing more representative lines. The current district 5 proposal breaks up Cole Valley which is a core neighborhood in district 5.

Here's the latest version of this record from the "COI Table" table:

Name

Buchanan Mall in the Western Addition Community of Interest

Mutual Interest

Our mutual interest is sustaining the Buchanan Mall in the Western Addition as a whole. It is a community area whose roots are recovering from the harm of the Redevelopment Era that wiped out 2 communities: African American and the Japanese families, their businesses, and their support organizations that were eliminated. Community Green Spaces, accessible by various communities, were part of the overall plan when the Buchanan Mall was designed as part of Redevelopment in the 1960's and 70's. Part of the Mall extends into Japantown, where Ruth Asawa's sculpture is a centerpiece of the cobblestone mall area.

The Buchanan Mall community of interest includes a wide group of interested

partners who want to re-establish neighborhoods and communities, including the Hayes Valley Neighborhood Association, faith-based groups, schools, Ella Hill Hutch Community Center, Western Addition residents (elders, children, and families, some who have been born and raised in the Western Addition) who live nearby, artists and designers from across the city and Bay Area, and activists who have returned to the WA. The Citizen Film organization, led by Sophie Constantinou, has been one of the lead organizations, recruiting locals and finding others, some who were formerly incarcerated that have created new businesses, that support the activation of the Mall, creating new jobs, building lives, and new wealth for the community at large.

Community Location

The Buchanan Mall is the former Buchanan Street between Geary Street and Grove Street in the Western Addition. While the Mall is a single street, its impact radiates to the residents who live east to Van Ness and west to Divisadero.

Why Keep Together

Dividing this Mall and separating the residents who experienced the Redevelopment cultural catastrophe into different Districts is a continuation of the harm done in the 1960's and 70's. The Buchanan Mall must remain as part of the Western Addition community and its common experience of cultural and racial inequity as their homes were demolished and not replaced.

Citizen Film began engaging with the community surrounding the Buchanan Mall south of Geary Street about 5 years ago to redesign the green space and reactivate it for the benefit of all. A combination of recovered memories and future visions, expressed in new visual art, and sustainable green spaces with newly designed permanent lighting is now beginning construction, block by block. Significant community engagement has been done and funding is now in progress for the new Buchanan Mall. Maintained by SF REC and Park Department, the department and the Rec and Park commission has approved

the designs. The construction for 2 blocks of the Mall will commence this spring.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Here's the latest version of this record from the "COI Table" table:

Name

The Hayes Valley Neighborhood Association (HVNA) is the community of interest

Mutual Interest

HVNA community was instrumental in developing the Market/Octavia Better Neighborhood Plan, partnering with many city agencies, especially Planning, to form a cohesive plan for a new community after the Central Freeway was demolished. The foresight of our community was instrumental in creating a new neighborhood. We believe that our community of interest will continue to have great impact on the HUB as it is developed, particularly in creating new neighborhoods.

Participating in new developments built in our community that include thoughtful community-led choices regarding 1) transit serving new developments AND the surrounding existing community 2) human-scale green spaces at street level for all to enjoy 3) significant development of affordable homes for purchase and rental apartments 4) Adding other transit options: biking, walking, ADA/family-friendly accessible sidewalks, all designed within a safe environment separate from car traffic.

Community Location

Our Community of Interest is within the current D5 boundaries and includes the Hayes Valley Neighborhood Assn boundaries (N on Webster from Haight , E on McAllister, S on Van Ness, W on Market, N on Buchanan, W on Waller, N on Fillmore, E on Haight to Webster, N on Webster).

HVNA continues to reach out to surrounding communities as well, especially on transit and new development issues. For example, HVNA worked closely with SFMTA on improve the #5 bus route (technically outside HVNA boundaries at the time) and to add the #5R. Transit First and building community are priorities for this community of interest.

Why Keep Together

By including all of the HUB (which is part of the Market/Octavia Better Neighborhood Plan <https://sfplanning.org/market-street-hub-project>) within D5, HVNA can positively impact the new developments to be sure that the new residents will be a part of the community and not isolated in high-rise towers above the street. **See the attached map, the red area circled.** Here is a link to the HUB general plan https://generalplan.sfplanning.org/Market-and-Octavia-Area-Plan_2020-Update.pdf Our community of interest is well informed on the issues within the HUB and how the new developments may negatively intensify or negatively create anew.

Currently, the HUB is segmented into 4 supervisorial districts: D5, 6, 8, and 9. This community has found it difficult to bring all 4 supervisors together to form a coherent group to achieve common goals of creating a new community within the HUB. We believe 1 supervisor (D5) should be responsible for the HUB. Our community of interest has initiated efforts to comment/influence/support the HUB development (though only part of the HUB lies within D5) to include more green space, community accessible space at street level, include more and safe forms of transit, and avoid car traffic logjams that currently exist in the HUB and have yet to be addressed by developers and SFMTA. The HUB is a part of the Market/Octavia Plan (<https://sfplanning.org/market-octavia-area-plan>) In addition, creating more affordably priced housing is a priority for this community, so there will be equal access for new living spaces. We believe there is new opportunity to create new communities within the HUB, and HVNA can positively influence the final outcome.

Here's the latest version of this record from the "COI Table" table:

Name

Jack Alber

Mutual Interest

The Bayview, Potrero, Showplace Square and Dogpatch form a solid Community of Interest with shared history and present-day issues stemming from neglect and industrial land uses. Although our demographics are diverse, our communities together face serious impacts from contaminated soil and poor air quality, massive growth, and limited investment in public infrastructure. Keeping our neighborhoods together in one district ensures that we maximize efforts to address common issues and achieve common goals.

During the first half of the 20th century, redlining discouraged home ownership by working class immigrants and people of color living in the Bayview and Potrero Hill, and exacerbated inequities with other parts of the City. Areas along the Bay were sparsely settled due to heavy industrial uses. As a result little investment went to the parks, public transportation, schools and public facilities like those provided in more affluent residential areas.

Our neighborhoods provided the real estate for freeways, artificially dividing us and polluting our air. In the last two decades, despite a stated goal of providing affordable housing, the rezoning of contaminated, formerly industrial land has led to speculation, gentrification and displacement among growing concerns for the health and safety of our residents.

It is essential that our community be allowed to navigate these challenges as a whole, rather than being split apart. Please keep District 10 consistent in future redistricting within the city. Thank you!

Community Location

The Bayview, Showplace Square, the Dogpatch and Potrero Hill. District 10, to be short.

Why Keep Together

Within this larger Community of Interest is a smaller one with Dogpatch and Potrero Hill. Together we benefit from the efforts of multiple organizations (Potrero Boosters Neighborhood Association, Dogpatch Neighborhood Association, Potrero/Dogpatch Merchants Association, Potrero Democratic Club) all working closely together advocating for common interests. To divide Dogpatch from Potrero, or the north slope of Potrero from the south, imposes false boundaries that would seriously dilute our advocacy efforts.

This message is from outside the City email system. Do not open links or attachments from untrusted sources.

Name

Potrero Hill

Mutual Interest

Potrero Hill has a shared culture and community of neighborhood businesses. It has a unique character formed by a mix of working class and white collar workers, many of whom have lived in the neighborhood for generations. It is predominantly single-family residential housing with a limited number of large apartment and condominiums, mostly on the edges. Potrero Hill has neighborhood organizations like the Potrero-Dogpatch Merchants association and the green benefit district.

Community Location

Bounded on the South by Caesar Chavez

Bounded on the West by Potrero Avenue

Bounded on the North by Division through the traffic circle to King Street (possibly Townsend)

Bounded on the East by 7th Street and then I-280 south to Caesar Chavez

Why Keep Together

Potrero Hill should be kept together because the benefits and the problems of the community are experienced together. For example the Mission District to the west has historically had more problems with gang violence, and Potrero Hill has experienced rapid development and gentrification. The large scale development in Showplace Square/Design District has most immediately affected Potrero Hill residents, and it's important to have this area included and represented by the same supervisor.

Here's the latest version of this record from the "COI Table" table:

Name

Chuck Obermeyer

Mutual Interest

The SF Mid-Market neighborhood is a high-density mixed-use community located in the heart of the city. Perhaps San Francisco's most uniquely diverse neighborhood, Mid-Market includes three of San Francisco's eight cultural districts: SOMA Pilipinas, Compton's Transgender, and Leather and LGBT. The resident population of Mid-Market is broadly diverse across race/ethnicity, educational background, and income level. Our community includes a large mix of both families who have lived in the neighborhood for decades and newer arrivals from all over the globe. Affordable housing buildings, SROs, market-rate housing, and condo buildings are nestled together alongside a wide range of commercial activity and government offices. This is partly because Mid-Market is a regional transit gateway, anchored by two BART and three MUNI Metro stations. As a result, the neighborhood sees intense foot traffic and commuter density each day. Mid-Market is also home to a large volume of supportive services, with people on both sides of Market street regularly accessing these services. Mid-Market also holds a unique place among other neighborhoods in SF as the social and cultural heart of the city. The community is home to a high concentration of cultural venues and regularly hosts many

large social events, celebrations, and protests attended by San Franciscans from every corner of the city.

But despite sitting in the heart of SF, Mid-Market is plagued by an enduring humanitarian crisis. Large public squares and corners in the neighborhood are dominated by open-air drug markets and street vending of stolen goods. Sidewalks are covered in loose trash, feces, broken glass, and needles. Random acts of violence, rampant property crime, and overstretched SFPD and community ambassadors mean that residents, commuting workers, and visitors to Mid-Market alike are regularly assaulted, robbed, and killed. It's no surprise then, that most people avoid walking the streets of Mid-Market after dark.

But the homeless residents of Mid-Market have it the worst of all. City services in Mid-Market are overstretched and underfunded, so many living on the street have trouble getting the addiction counseling and mental health care they so desperately need. And unlike the housed residents of Mid-Market, homeless residents have no refuge from the danger on the streets. They are regularly assaulted, exploited, and trafficked by the drug dealers and criminal syndicates operating on the streets of Mid-Market.

All those who live and work in Mid-Market are united in their desire to live in a safe, inclusive, and vibrant neighborhood. The community desperately needs larger investments in SFPD and community ambassador programs to ensure an end to open-air drug markets, fencing of stolen goods on sidewalks, and rampant violent crime. Residents of Mid-Market are uniquely proud that their neighborhood hosts such a large volume of supportive services, but want to see larger investments in city services to ensure that no one goes without care. Without large investments in public safety and supportive city services, Mid-Market's pressing humanitarian crisis will never be resolved.

Community Location

Please see attached links to google map and google doc. Page 3 of the google doc contains details on the finer points of the map.

Why Keep Together

To resolve the pressing humanitarian crisis in Mid-Market, large-scale investments in city services are needed. In order to achieve those investments, Mid-Market needs to be able to speak to a single SF Supervisor who understands the broader situation across the whole neighborhood. If the neighborhood is cut up and placed in several different districts, the Supervisors with smaller parts of Mid-Market in their district will have little reason to devote attention and energy to the issues facing those areas. Why would they? They'll have many different neighborhoods in their district to compete for their time. Ensuring Mid-Market is kept whole in one Supervisorial district is the only way to ensure that the neighborhood gets the attention and help it so desperately needs.

Additionally, the Mid-Market neighborhood should be kept whole because it is unique in SF for its diversity. Our community is home to people who live in every kind of housing type, people of every educational background and income level, both long-time residents and new immigrants from all over the world. All of us are hurt by the current conditions in our community—all of us want change. Our diversity of experience and perspective is our biggest strength, and we want to be kept together.

Here's the latest version of this record from the "COI Table" table:

Name

Alison Heath (D10 resident)

Mutual Interest

The Bayview, Potrero, Showplace Square and Dogpatch form a solid Community of Interest with shared history and present-day issues stemming from neglect and industrial land uses. Although our demographics are diverse, our communities together face serious impacts from contaminated soil and poor air quality, massive growth, and limited investment in public infrastructure. Keeping our neighborhoods together in one district ensures that we maximize efforts to address common issues and achieve common goals.

Community Location

Current District 10, between the Bay to the east and Potrero Ave and 101 to the west. From 16th Street and inclusive of Showplace Square to the north and the SF border to the South. It could include Mission Bay as well, or portions of Vis Valley to get the right population numbers.

Why Keep Together

During the first half of the 20th century, redlining discouraged home ownership by working class immigrants and people of color living in the Bayview and Potrero Hill, and exacerbated inequities with other parts of the City. Areas along the Bay were sparsely settled due to heavy industrial uses. As a result little investment went to the parks, public transportation, schools and public facilities like those provided in more affluent residential areas.

Our neighborhoods provided the real estate for freeways, artificially dividing us and polluting our air. In the last two decades, despite a stated goal of providing affordable housing, the rezoning of contaminated, formerly industrial land has led to speculation, gentrification and displacement among growing concerns for the health and safety of our residents.

Community Location

Western Boundary: Potrero Avenue

Northern Boundaries: (West to East) Division, Townsend, 7th Street, 16th Street

Eastern Boundary: the Bay

Southern Boundary: Cesar Chavez

It is located between Potrero Avenue and the Bay, north of Cesar Chavez and Islais Creek, and South of Division, Townsend and Seventh, 16th or Mariposa (to the east of 280).

Why Keep Together

Historically, the Potrero District consisted of Potrero Hill, Dogpatch and Irish Hill. Development along the shore has caused the future to mirror the past. The neighborhoods face the same transportation issues, the same development issues, the same need for public facilities, the same policing issues, and so on. Residents in these neighborhoods work together, and families are part of the same school communities. They share common neighborhood and merchant groups. A management district for open space assess taxes and managed open space in Dogpatch and Northwest Potrero. The area suffers the impact of Caltrans and works to solve issues related to both the 101 and 280 corridors. Over COVID 19, a virtual holiday scavenger hunt took residents across the whole of the area. They are a single community with different neighborhood flairs.

SUBJECT: Submission of the Coalition for San Francisco Neighborhoods "Incremental/Minimal Change Redistricting Plan."

Reverend Arnold Townsend, Chair and Members
San Francisco Redistricting Task Force
c/o John Carroll, Redistricting Task Force Clerk
City Hall, 1 Dr. Carlton B. Goodlett Place, Rm. 244
San Francisco, CA 94102

Dear Chair Townsend and Members,

The Coalition for San Francisco Neighborhoods, CSFN, is pleased to submit this City-wide map and important relevant information to the Task Force for its consideration. This map has been developed in collaboration with Christopher Bowman, a long-time expert in matters related to elections and redistricting in San Francisco. It is the result of extensive research and the thoughtful application of fairness, equity, and recognition of Community of Interest. The maps were submitted to the RDTF on 18 Feb. 2022 via the RDTF Mapping Tool website.

CSFN is the largest neighborhood coalition in the San Francisco, representing a diverse mix of 24 member neighborhoods spread across the spectrum of San Francisco. CSFN is also the oldest major neighborhood coalition in San Francisco having been active continuously since 1972 (celebrating our 50th anniversary!). We take great pride in our diversity, longevity and commitment to the betterment of all San Franciscans.

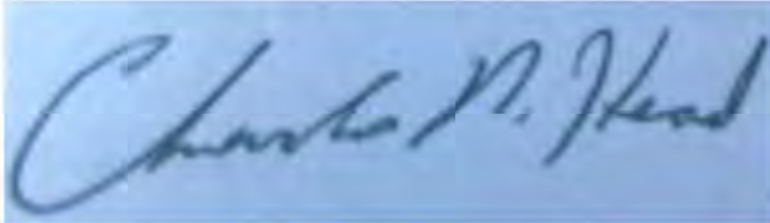

The City-wide map submitted was approved by the CSFN General Assembly on 15 February, 2022 and CSFN believes it represents the best solution to the complex issues affecting fair and equitable redistricting.

It is worth noting that not all our members are in agreement with CSFN's map as it relates to their neighborhood/district and have been encouraged to submit specific alternatives for the RDTF's consideration.

We request that our entire submission be posted on the RDTF website as a viewer can only then fully appreciate the detailed analysis that went into creating the map.

We look forward to your considerations.

Respectfully,

A handwritten signature in black ink on a light blue background. The signature reads "Charles P. Head" in a cursive, flowing script.

Overview of the CSFN's Incremental/Minimal Change Redistricting Plan
Drafted by Christopher L. Bowman, January 22, 2022
Adopted by the Coalition for San Francisco Neighborhoods, February 15, 2022
Submitted to the Redistricting Task Force, February 18, 2022

Dear Chair Townsend and Members of the Redistricting Task Force:

On February 15, 2022, by a super-majority, the Coalition for San Francisco Neighborhoods adopted the third draft of the Incremental/Minimum Change Redistricting Plan drafted at our request by Christopher L. Bowman on January 22, 2022.

Chris, a long-time friend of CSFN, was a member of the nine-member 1995 Elections Task Force which drew the district elections plan approved by the voters in 1996, and was used to elect eleven members of the Board of Supervisors in 2000, and has since submitted redistricting plans in 2011 and 2021 to the California Citizens Redistricting Commission, a plan to the 2012 SFRTF, and two plans to the San Mateo Board of Supervisors in 2013 and 2021.

Today, the Coalition is submitting our adopted redistricting plan to the San Francisco Redistricting Task Force, including our proposed citywide map, this overview with two appendices, population and racial profiles comparing our proposed districts to the current (2012) districts, an inventory of the 25 changes we propose to the current plan including the population and racial CVAP for each change, and the metes and bounds for our plan.

Our plan accommodates the population growth in Districts 6 and 10 in an equitable fashion throughout the City, balancing for population +/- 5% of the mean population for a district, and limiting the size of the transfers from Districts 6 and 10 to Districts 3, 5, and 9 to the absolute minimum allowable under the law, to reduce the ripple effects on the remaining districts.

By so doing, we minimize the number of San Franciscans who will find themselves in a new district after April 15th (when the Task Force adopts its final plan), to just 74,327 residents or 8.49% of the City's population, and through incremental change balancing for population maintain the social-economic, racial, cultural, and political character of all the current districts. To the maximum extent possible, we have kept or made neighborhoods and districts whole and in the case of the Inner Sunset which is already divided into three districts we reduce that division to two districts, with the western portion west of 12th Avenue which is heavily Asian going to District 4 and the eastern portion between 12th and 5th Avenue which has an economic Community of Interest with the residents of Sunset Heights of District 7 who shop, dine, and receive personal services and care in the commercial district centered at 9th and Irving going to District 7

We have also made the UCSF – Parnassus campus whole, restored some of the 1995 boundaries of the original plan, and adjusted districts based on topography or freeways,

Finally, we've incrementally increased Asian CVAP in Districts 2, 3, 5, 10, and 11 and through surgically precise transfers between District 5 and Districts 2 and 8, between District 10 and Districts 6 and 9, and between District 8 and 9, increased the Black CVAP in Districts 5, 6, and 10, and the Hispanic CVAP in District 9.

On the westside of the City, we recognize that the Asian CVAP in Districts 1 and 4 must decline, so the transfers we have proposed to bring those districts over 95% of the mean population were designed to minimize that decline, while other proposals that have been made to the Task Force to put all of NOPA and Anza Vista into District 1 and all of the Inner Sunset into District 4 would cause two to three times the decline in Asian CVAP in those districts than under our plan.

We acknowledge that some of our member organizations disagreed with our proposal as it affected Districts 3 and 4, and we have included their minority report in Appendix 2, but we would suggest that while their plans taken in isolation for their respective districts may make perfect sense, they have not explored the ramifications and adverse ripple effects of their plans on neighboring districts or in the rest of the City, and unless they can submit a city-wide map or maps centered on their home districts that works for all eleven districts, their dissent carries less weight with us, and hopefully also with the Task Force.

In conclusion, it is important that redistricting not become a zero-sum game. That's one reason Supervisor Hallinan in 1994 proposed creating the Elections Task Force which had three members appointed by the Mayor, three by the Board of Supervisors, and three by the Registrar of Voters, whose members represented the diversity of the City. They drafted a plan in which every major stakeholder of the City felt it had a decent chance to elect one of their own to the Board or influence what candidate outside their community was elected who would represent their interest.

In redistricting the key is to give people what they need versus what they want (which normally is at other people's expense). We believe that our plan provides a "win/win" for all major stakeholders of the City including our dozens of diverse and unique neighborhoods and communities.

Historical Background

To put the current (2012) Redistricting plan and CSFN's plan in their proper context, we need to go back 28 years, when Supervisor Terence Hallinan and the majority of his colleagues on the Board of Supervisors placed Proposition L on the November 1994 ballot calling for the creation of the nine-member 1995 Elections Task Force which would present to the Board of Supervisors a plan or plans to provide a different method for electing the Board of Supervisors, taking into account the number of Supervisors San Francisco should have, the pay for Supervisors, the costs

of running for Supervisor, and representation of the diversity of the City's neighborhoods and communities.

The measure won at the polls and Supervisor Hallinan lobbied the three appointing authorities (the Mayor, Board of Supervisors, and Germaine Wong -- the Director of Elections) to appoint members to the Task Force who represented the political, social, economic, and racial diversity that was San Francisco at the time.

In response, the appointing authorities appointed to the Task Force three Asians (Samson Wong, Dale Shimasaki, and Eric Mar), one Hispanic (Ramon Arias), one African American (Gwenn Craig, who Chaired the Task Force), and four Whites (Chris Bowman, Dale Butler, Nancy Lenvin, and Carmen White). Most of its members were registered Democrats, but Chris Bowman was active with the Republican Party and Log Cabin and Carmen White was with the Green Party. There were three women, including a Lesbian -- Gwenn Craig who was the former Co-Chair of the Harvey Milk Democratic Club and a former Police Commissioner, and four attorneys (Ramon Arias who was with Bay Area Legal Aid, Dale Butler who represented the SF Labor Council, Nancy Lenvin -- a real estate attorney, and Eric Mar who was the Assistant Dean of the New College School of Law.

The Task Force convened in January 1995, and on May 1, 1995 submitted a 600 page report to the Board, and recommended four different methods to elect Supervisors -- including a return to District Elections.

The Task Force reconvened at the War Memorial Building (as City Hall was closed for retrofitting) on September 7, 1995 to draft and approve a district elections plan. Task Force members Nancy Lenvin, Carmen White, and Samson Wong served through May 1st, and were replaced by their appointers by Susan Horsfall, Betty Traynor, and Henry Louie.

Supervisor Terence Hallinan stressed to the Task Force members the importance of ensuring that each major stakeholder of the City -- Asians, Blacks, Hispanics, union households, LGBTs, homeowners, renters, and Republicans (who at the time were 17% of the registered voters of the City) had a critical mass of voters in one district (or more) so they could elect at least one of their own to the Board or influence who outside their community would best represent them on the Board.

By so doing, neighborhoods and communities would become invested in the line-drawing process and the final map and would approve the plan at polls. (The previous three progressive district elections plans authored by Calvin Welch, Sue Hestor and their allies, had failed three times at the polls from 1980 to 1987, and Hallinan didn't want to see another defeat at the polls.)

Overview of the CSFN's Incremental/Minimal Change Redistricting Plan

February 18, 2022

Page 4

The Task Force held a number of citywide and neighborhood meetings to get community input and feedback to multiple draft maps prepared by the Task Force's redistricting consultant, Professor Rich DeLeon of San Francisco State and his graduate assistant, Lisel Blash. Neighborhood hearings were held at the Laurel Heights Campus of UCSF, the Chinese Cultural Center, New College on Valencia, the Southeast Community Facility, and the County Fair Building at 9th and Lincoln.

After reviewing public comments to the draft maps the Task Force narrowed down to the selection to two maps. After being deadlocked, the Task Force decided to merge the two maps and adjusted boundaries to balance for population, make or keep neighborhoods and communities whole whenever possible, to combine neighborhoods and communities with common interests and demographics, and propensity to vote into the same district.

The final map was approved in late November, and the plan including the map, statistics, metes and bounds, and language of the proposed Charter Amendment which would be placed on the ballot to usher in the return of District Elections was submitted to the Board at the end of the month.

The Task Force largely followed Supervisor Hallinan's guidance that every major stakeholder had a critical mass to win in one or more districts, and the Task Force believed that they created a plan in which Asians would have a good shot of being elected in Districts 1, 3, and 4, Blacks in Districts 5 and 10, Hispanics in District 9, LGBTs in District 8, Union Households in District 11, and Republicans or moderate Democrats in Districts 2 and 7, and District 6 was what was left over albeit one could argue its Community of Interest was that, at the time the plan was approved, 94% of its residents were renters.

In December of 1995, the Board was deadlocked 5 to 5 on placing the Charter Amendment on the ballot – four of the five opponents didn't want to see a return of District Elections, and the fifth Supervisor, Jose Medina, didn't like how the lines of District 11 were drawn. So it wasn't until the following Summer that enough pressure had mounted on Supervisors who were on the fence the and some backroom deals took place to delay the return of District Elections until 2000 to allow Supervisors elected to a second term in 1994 and 1996 the ability finish their service on the Board without having to run in a district, that seven Supervisors placed the Charter Amendment (Prop G) on the November 6, 1996 Presidential General Election ballot.

The Task Force members thought they had gotten it right and the voters seemed to confirm that opinion when they passed Prop. G with 56.7% of the vote and Prop. G won in 24 of 25 of the City's neighborhoods as defined by the Department of Elections.

Four years later district voters elected 11 District Supervisors to the Board, including two Hispanics, one African American, one Asian, and two Gay men. The new Board included 3 Liberals, 7 Progressives, and Tony Hall who caucused with the Progressives.

The 2002 Redistricting.

The political landscape in 2001 was highly polarized between the Liberal Machine Democrats led by Mayor Willie L. Brown, Jr. and the Progressive majority on the Board led by Aaron Peskin. The progressives and the machine Democrats also split the rest of the elected officials of the City, with a slight edge to the Progressives.

The Progressives believed that if the Redistricting Task Force were seated before the Elections Commission (which would be empowered to make the three appointments to the Redistricting Task Force instead of the Director of Elections) took office in January 2002, the Mayor would have six votes on the Task Force and his majority would use the redistricting process to exact revenge on his political opponents on the Board. (In reality, the Director of Elections was appointed by the City Administrator and was largely insulated from political pressure.) Supervisor Chris Daly placed on the November 2001 ballot Prop. G (which would delay the seating of the Task Force until 2002), and the voters believing that his measure represented reform rather than a naked power grab, approved the measure.

So the Elections Commission met and appointed two progressives and Claudine Cheng to the Task Force. The Board appointed two Progressives to the Task Force and a Tony Hall supporter who ultimately caucused with the Progressives to form a 5-4 majority on the Task Force.

In 95% of the changes made to the districts, the Task Force voted unanimously as they were pro-forma transfers from one district to another to balance for population. The major non-controversial changes in 2002 included:

* The USF campus was made whole in District 1 and District 1 moved east to Masonic between Geary and Fulton to include all of Lone Mountain;

* District 3 picked up five blocks of Russian Hill and expanded south to Post and Geary to include Union Square;

* the northern and southern boundaries of District 5 were compressed and the district moved east from Laguna to parts of Gough;

* District 8 moved east from Guerrero to parts of Valencia and south and west of Bosworth to pick up the eastern part of Sunnyside;

Overview of the CSFN's Incremental/Minimal Change Redistricting Plan

February 18, 2022

Page 6

*the northern border of District 10 was extended from 17th Street to Townsend; and

*Merced Extension Triangle (METNA) was transferred from District 11 to District 7.

The Task Force messed up by dividing Parnassus Heights between Districts 5 and 7, because the consultant was unwilling to split a census block that overlapped the boundary of Parnassus Heights and the UCSF – Parnassus campus.

The major controversy which divided the Task Force by a 5 to 4 vote was what to do with the Portola District, which under the 1995 Plan was divided with 28% in District 11 and 72% in District 10, and secondarily whether Potrero Hill and Dog Patch were good fits for District 10, or better fits for District 6.

District 11 was over-populated so it needed to jettison its portion of the Portola.

The Liberals on the Task Force wanted to unite the Portola and assign it to District 10, and transfer Potrero Hill and Dog Patch to District 6 on the grounds that the Portola was demographically similar to the rest of District 10 south of Cesar Chavez, and that Potrero Hill and Dog Patch were more affluent and far less diverse than the rest of District 10 and had a high propensity to vote, whereas Bayview Hunters Point and Visitacion Valley had two of the four lowest propensities to vote in the City.

The Progressives argued that there was a historic link between the two neighborhoods and Bayview Hunters Point on environmental, health, and other issues, but the key issue not mentioned in the public debate was that Supervisor Sophie Maxwell's base was in Potrero Hill and even though she no longer lived in the neighborhood, where her mom, Enola, was a powerhouse. She was elected in 2000 over Linda Richardson (who was backed by the Mayor and won in the rest of the district south of Cesar Chavez) because of the votes she received from the two neighborhoods.

The "solution" proposed by the Progressives and passed on a 5 to 4 vote was to move the northern half of the Portola across I-280 into District 9, which had few working class Asian homeowners (who constituted a majority of the Portola's population), and the portion of the Portola in District 10 dropped from 72% to 50%. To accommodate such a large transfer of half of the Portola into District 9 required that part of the northern border of the District 9 be moved south to 20th – thus, not only was the Portola split 50/50 but so too was the Inner Mission.

The 2012 Redistricting.

The Director of Elections, John Arntz, reported to the Board that new Redistricting Task Force needed to be impaneled because Districts 6, 10, and 11 were over-populated beyond the 105% limit allowable under "One Person/One Vote".

The 2012 Task Force was more racially diverse than the 1995 ETF and 2002 RTF with two African Americans, two Hispanics, three Asians including an Filipina, a white resident of District 7, and David Pilpel, also White, who had been appointed by the Elections Commission. As Ed Lee was Mayor, he didn't appoint members with a political agenda but rather appointed current and former commissioners or bureaucrats. The Task Force leaned left but there were few 5 to 4 votes during its tenure.

Again, most of the changes revolved around Districts 6, 10, and 11, and the incremental changes between districts to balance for population were largely non-controversial, including:

*District 3 continued to move south to include most of the tourist hotels and the theater district and its southern boundary with District 6 (the northern border of the Tenderloin) was determined by homelesses, tenant, and non-profit affordable housing activists.

*District 4 which was spared adjustments to its boundaries in 2002 was under-populated and crossed 19th Avenue to pick up 4 blocks of the Inner Sunset. District 7 already had 10 blocks of the Inner Sunset, from 19th Avenue to 9th Avenue between Judah and Kirkham.

*By using a service road on the UCSF Parnassus campus, Parnassus Heights was made whole again, and District 5 was again its home.

*The western boundary of District 6 continued to move eastward out of the Western Addition and its new western boundary was Van Ness from just north of Geary to Market.

*District 8's eastern boundary again moved east to the entire length of Valencia.

*District 11 again had to make painful cuts, this time between Ocean and Holloway from Ashton to Harold – thus losing to District 7 the southern side of the Ocean Avenue Commercial Strip which had served residents of the OMI for decades, and the triangle north of Mission Terrace from Tingsley to I-280 and Alemany which was transferred to District 8. Minor changes were made to the border of the Excelsior and Portola Districts east of Madison.

On the controversial side, but ultimately eight Task Force members opposed all aspects of his plan, David Pilpel submitted his redistricting plan before any member of the public did and his colleagues and members of the public spent nearly two months trying to shelve his proposal for

each district, including splitting District 5 along Geary, which divided Japantown and the Asian enclave of District 5. To assuage leaders of the Japanese Community who were alarmed and offended by his proposal, the Task Force listened carefully to the Japanese non-profit leaders to embrace a northern boundary of District 5 which included all major cultural, religious, and social services institutions in Greater Japantown. The resulting northern boundary for District 5 looked like a jagged jigsaw puzzle. Counter intuitively, the expansion actually lowered the Asian CVAP for the district because the northern parts of Greater Japantown had become predominantly White.

The major controversy was what to do with the Portola and the Inner Mission. Both had been split 50/50 in 2002.

The Liberals, neighborhood activists, and a coalition led by San Francisco Association of Realtors called for both the Inner Mission and the Portola to be made whole, with the Inner Mission in District 9 all the way to Duboce and Division and Hwy. 101, and that the Portola be solely in District 10.

The Progressives prevailed by making the Portola intact, but placing it in its entirety into District 9, and the Inner Mission was nearly made whole from Valencia to Bryant, but with District 10 extending west to Bryant between Division and 20th.

In conclusion, even though there was discord on the 2002 and 2011-2012 Task Forces over the Portola, there was broad agreement on the rest of the incremental changes to the 1995 lines. Significantly, the current districts boundaries are over 90% the same as the 1995 districts boundaries, and as such it would appear that the diverse members of the two Redistricting Task Forces largely agreed with how the 1995 district lines were drawn.

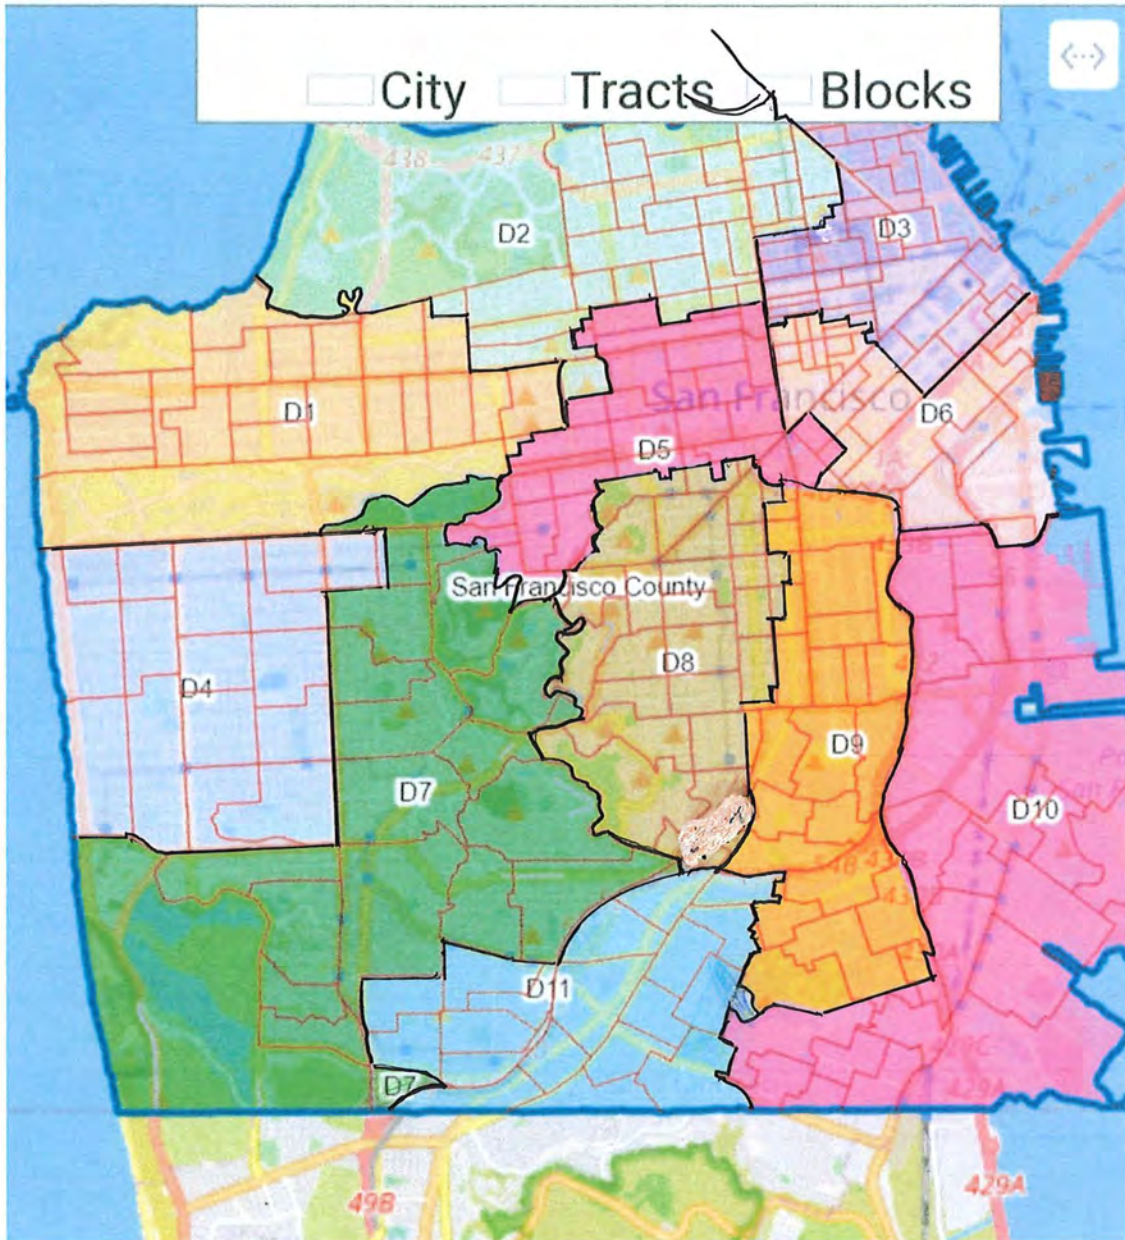

This would suggest that were the 2021-2022 Redistricting Task Force to follow the precedence set by the 2002 and 2012 Redistricting Task Forces to make incremental changes to existing districts, that CSFN's Incremental/Minimum Change Redistricting Plan CSFN is submitting would be in keeping with that approach. We would also argue they should be loathe to make radical changes to existing districts including, but not limited to, moving Potrero Hill and Dog Patch into District 6 as it would create major disruptive ripple effects across the City including Districts 2, 4, 5, 7, 8 and possibly Districts 9 and 11 leading to far more San Franciscans than the 74,327 residents under our plan who would find themselves in a new district after April 15th,

APPENDIX 1

Summary of Benefits of Proposed Plan

Adjusted 2020 Census Population and Demographics

Inventory of 25 Population Transfer

Metes and Bounds

**SUMMARY OF WHAT THE CSFN'S INCREMENTAL/MINIMAL CHANGE
REDISTRICTING PLAN WOULD ACCOMPLISH IF ADOPTED BY THE SFRTF**

Minimize the impact of transferring excess population from Districts 10 and 6 on the neighboring Districts 3, 5, 9 and contain the ripple effects on the rest of the City.

Under the CSFN plan, District 10 would transfer 2,368 residents between 16th and Townsend (to include Showplace Square) to District 6 and another 3,424 residents to District 9 west of Hwy. 101 to Potrero between 20th and Cesar Chavez and from Division to 20th between Hwy. 101/San Bruno and Bryant, making the Inner Mission whole.

The minimal number of residents allowable under "One Person/One Vote" would be transferred from District 6 to Districts 3 and 5, e.g., 16,089 residents neighboring Moscone Center (mostly Chinese and Filipino seniors living in affordable housing) and on Rincon Hill from 5th Street to the Embarcadero, between Market and Harrison; and 6,228 residents from 9th Street and Folsom west to where the Central Freeway meets Market Street to District 5. (After all the transfers into and out of District 6 were made, District 6's population would be 104.95% of the mean population for a district, just 0.05% below the legal limit.)

District 3, in turn, would transfer the rest of Russian Hill (9,136 residents) to District 2 so that Russian Hill would be made basically whole (three blocks on the southwest corner of the official boundaries of Russian Hill with 1,159 residents would remain in District 3, as they are adjacent to Chinatown and together have an Asian CVAP of 65.96%); and District 2 in turn, would transfer Sea Cliff and the Lake Street corridor (4,783 residents) to District 1.

District 5, which was already somewhat over-populated at 101.49% of the mean population for a district before taking in part of the excess population from District 6, would transfer 5,558 residents from the Inner Sunset to District 7 and another 2,387 residents of the Inner Sunset to District 4. Currently 29.62% of the Inner Sunset Neighborhood Commercial District whose boundaries of 19th to 5th Avenues between Lincoln and Kirkham are set by SEC. 730 of the City's Planning Code is in Districts 7 (20.10%) and 4 (9.52%). The dividing line between District 4 and District 7 would be 12th Avenue between Lincoln and Kirkham and if these transfers took place, District 4 would have 47.34% and District 7 would have 53.66% of the Inner Sunset Neighborhood Commercial District.

Districts 8 and 11 would be unaffected by the ripple effects.

Limit to a Minimum the Number of San Franciscans who will find themselves in a new district should the CSFN redistricting plan be adopted by the Redistricting Task Force.

Under the CSFN Plan only 74,327 San Franciscans or 8.49% of all 874,993 San Franciscans would be transferred from their current district to a new district. If you look at the itemizations of the 25 changes this plan proposes for the current districts, 53,647 San Franciscans would be transferred from one district to another to balance for population; 4,661 would be transferred

SUMMARY OF WHAT THE CSFN'S INCREMENTAL/MINIMAL CHANGE
REDISTRICTING PLAN WOULD ACCOMPLISH IF ADOPTED BY THE SFRTF

Page 2

from Districts 7, 8, and 10 to make District 11 whole again, 2,038 would be transferred to conform district lines to topographical or man-made features or commercial district boundaries; and 13,981 would be transferred by adjusting the borders of District 5 with Districts 2 and 8, and between Districts 8 and 9, to increase the Black CVAP in District 5 from 9.14% to 10.34%, and marginally increase the Hispanic CVAP in District 9 from 26.75% to 26.89%.

Restore most of the 1995 boundaries of the OMI and District 11.

After extensive consultation with community leaders from the OMI, Mission Terrace, the Excelsior, and Crocker Amazon, three portions of District 11 which were transferred to Districts 7, 8, and 10 by the 2002 and 2012 Redistricting Task Forces because District 11 was significantly over-populated at the time would be restored to District 11 under the CSFN plan. They would include Ocean Avenue to Holloway between Ashton and Harold and the triangle bordered by Ocean and Geneva, and I-280, from District 7; the triangle bordered by Tingsley, I-280, and Alemany from District 8; and south on Geneva to Carter from District 10. And this is all accomplished by District 11 growing from 94.70% to just 100.31% of the mean population for a district.

Restore additional parts of the 1995 map.

Beyond restoring most of the OMI and District 11, the CSFN Plan calls for the following restorations:

- * Returning the eastern portion of Sunnyside to District 7 by moving the boundary with District 8 from Congo and Joost east to Bosworth and the BART station;
- * Along Hwy. 101 from Mariposa to Cesar Chavez between Districts 9 and 10, transferring to District 9 the rest of the Inner Mission, including General Hospital;
- * Along 16th Street from Hwy. 101 to Pennsylvania defining the northern border of Potrero Hill and District 10.³
- * Along Lake Street from 5th to Arguello between Districts 1 and 2 separating the Inner Richmond from Presidio Terrace;
- * Along California Street from Baker to Steiner between Districts 2 and 5, restoring several blocks of the Western Addition to District 5;

SUMMARY OF WHAT THE CSFN'S INCREMENTAL/MINIMAL CHANGE
REDISTRICTING PLAN WOULD ACCOMPLISH IF ADOPTED BY THE SFRTF

Page 3

* Along St. Joseph's between Geary and Turk between Districts 2 and 5, restoring three blocks of the Western Addition to District 5; and

* Along the eastern border of the UCSF – Parnassus campus between UCSF and Parnassus Heights between Districts 7 and 5 so that the entire campus south of Parnassus is in District 7;

Make the UCSF – Parnassus Campus whole.

One of the few areas that the 1995 ETF failed to research before approving its lines is that it divided USF into three (not just two) districts, with the Koret Health and Recreation Center, soccer fields, and faculty parking garage in District 1, the main campus in District 2, and the USF Law School and Library, and its nursing school and St. Mary's Hospital in District 5. All of USF and St. Mary's Hospital were made whole in District 1 by the 2002 Task Force.

The Parnassus campus of UCSF has continued to be divided at Parnassus with 80% of the campus and 100% of its student housing in District 7, and the rest of the campus which includes its multi-story parking garage, Student Union, bookstore, library, Ambulatory Care Center, and Department of Neurological Surgery in District 5. The CSFN plan would include the entire Parnassus campus in District 7, by moving District 7 north of Parnassus.

Set District boundaries along topographical divides and Commercial District Boundaries.

By and large, the Election Task Force in 1995 set district boundaries along geographic divides and man-made barriers. Thus, portions or all of Van Ness, Market, Hwy. 101, I-280, Bosworth and O'Shaughnessy, Twin Peaks Blvd., Golden Gate Park, 19th Avenue, Sloat, Ocean, and the western border of McLaren Park served as district boundaries in the 1995 plan.

The major geographic divide for San Francisco east/west generally runs from Buena Vista Park, along Twin Peaks Blvd., and along O'Shaughnessy with District 8 largely on the east side of the divide.

There are two exceptions which the CSFN plan addresses.

The first is that Ashbury Heights, Clifford Terrace, and Mt. Olympus are west of the east/west topographic divide and are part of the Community of Interest that includes all of Cole Valey from Frederick to Clarendon, but they have been in District 8 since 1995. The CSFN Plan transfers these neighborhoods to District 5.

SUMMARY OF WHAT THE CSFN'S INCREMENTAL/MINIMAL CHANGE
REDISTRICTING PLAN WOULD ACCOMPLISH IF ADOPTED BY THE SFRTF

Page 4

The second is that south of Twin Peaks, the topographic divide is not Twin Peaks Blvd. to Portola, but from Twin Peaks Blvd to the southern end of Crestline and along Burnett to Portola. The residences to the west of that divide are also in District 8, but they are zoned RH-1, while almost all of the housing to the east are apartment buildings. Google Maps shows the area as part of Midtown Terrace. The CSFN plan transfers this neighborhood to District 7.

CSFN also recognizes that wherever possible the core of commercial zones should be made or kept whole. To wit there are three blocks bordered by Columbus, Leavenworth, Beach, Hyde, and the Bay. They are currently in District 2, but are the western-most block of Fisherman's Wharf along Jefferson which is primarily in District 3. The CSNF plan unites Fisherman's Wharf and assigns the entire commercial district to District 3.

Consistent with using good redistricting principles create an Asian, Hispanic, or Black CVAP majority district where there was previously an Asian, Hispanic, or Black CVAP plurality district, or create an Asian, Hispanic, or Black plurality district where there was previously a White CVAP plurality district. By happenstance, the transfer of 16,089 majority Asian CVAP residents from District 6 to District 3 would turn District 3 under the CSFN plan from a White CVAP plurality district to an Asian CVAP plurality district, e.g., from a 47.51% to 40.23% district to a 43.69% to 44.20% district. Additionally, by restoring most of the 2002 boundaries of District 11, the Asian CVAP would increase from 55.98% to 56.46%.

As a positive side-effect of following good redistricting principles there would be an enhancement of the electoral power of racial groups in several districts. Under the CSFN plan, this would be accomplished by shrinking Districts 6 and 10 so that the Hispanic CVAP and Black CVAP in District 6 would increase, respectively, from 12.42% to 13.91% and from 10.53% to 11.51% in District 6, and the Black CVAP would increase from 18.87% to 19.80% in District 10

Adjusted 2020 Census Populations and Demographics for the Proposed Revised Incremental/Minimum Change Redistricting Plan
 Drafted by Christopher L. Bowman on January 22, 2022 versus the Current (2012) Redistricting Plan

NOTES: *The U.S. Census Bureau between the 2010 and 2020 Decennial Censuses redrew the boundaries of at least four census blocks in San Francisco that were on the border of six of San Francisco's Supervisorial districts. They now overlap districts rather than separate them. Rather than attempt to estimate the population of each portion of a split census block, the redistricting consultant, Q² for Redistricting Task Force arbitrarily assigned the whole census block to one or the other district. We agree with their choices in the cases of the Districts 6 and 9 boundary along Division, the Districts 5 and 7 boundary in the area of Clarendon west of Stanyan, and between Districts 7 and 11 between Ocean and Geneva, but disagree with the allocation of a split census block and a whole census block which it borders being assigned to District 11 instead of District 10 east of 1600 Geneva to Carter. Having said that we have incorporated the consultant's lines for Districts 10 and 11, replicated the two districts using the SF Mapping tool, matched the consultant's estimated population for each district and used the mapping tool's calculation of the racial profiles of both districts based on Total Population, Voting Age Population, and Citizen Voting Age Population. The current districts' populations listed above which match the latest calculation by Q² of the districts' populations vary slightly with the district populations reported by Director Arntz to the Board of Supervisors when the adjusted population data were released in late September.

Districts which are a majority of a particular racial group are highlighted in **bold yellow**. Those where a racial group represents a plurality are highlighted in **yellow**.

FINDINGS: On the basis of total adjusted population, Districts 2, 5, and 8 are White Majority districts and Districts 4 and 11 are Asian Majority districts. Additionally, District 7 is a White Plurality district while Districts 1, 3, 6, and 10 are Asian Plurality districts, and District 9 is a Hispanic Plurality district. Blacks were the 4th largest racial group in each of the 11 districts.

A better gauge of estimating the actual voting strength by race, is to use the district's Citizen Voting Age Population (CVAP), given that a large percentage of first-generation Hispanics and Asians who are of voting age have not yet been naturalized. Using that yardstick, Whites continue to be a majority in Districts 2, 5, and 8 (with significantly larger majorities than reflected in their percentage of the total population) and Districts 1, 3, 6, 7, and 9 are White Plurality districts. Districts 4 and 11 remain Asian Majority districts while District 10 remains an Asian Plurality district. Hispanics are outnumbered by Asians in District 11 by a ratio of 2.5 to 1 for a distant second place and in District 9, they are in third place just behind Asians, and in third place ahead of Blacks in District 6. Blacks are in third place in District 10 with 18.90% compared with 21.66% for Whites and 42.17% for Asians as well as in District 5 where they are outnumbered by Asians by a larger than 2 to 1 ratio. The only district other than District 10 where Blacks constitute more than 10% is in District 6 with 10.53% of the total.

CSFN's proposed Incremental/Minimal Change Redistricting plan beyond ensuring that Districts 10 and 6 which had become significantly over-populated since the 2010 Census would now be in compliance with the "One Person/One Vote" constitutional requirement, with the transfer of over 16,000 residents (the majority of whom were Asian CVAP) from District 6 to District 3, the plan would change District 3 from being a White CVAP Plurality district to a Asian CVAP Plurality district. Additionally, by carefully adjusting the boundaries between Districts 3 and 2, Districts 5 with Districts 2 and 8, and between Districts 8 and 9, the plan marginally increases Black, Asian, and Hispanic CVAPs. By restoring many of its 2002 boundaries Asian CVAP in District 11 would increase from 55.98% to 56.46%. Asian CVAP would also increase in District 2 from 16.56% to 17.37%, in District 10 from 42.17% to 42.82%, and in District 5 from 20.17% to 20.35%. Black CVAP would increase from 9.14% to 10.34% in District 5, from 10.53% to 11.51% in District 6, and in District 10 from 18.90% to 19.80%. Hispanic CVAP would increase from 12.42% to 13.91% in District 6 and from 26.75% to 26.89% in District 9 (with Hispanics becoming the second largest racial group ahead of Asians in that district).

On the westside of the City, Districts 1 and 4 are significantly under-populated, and given that the adjacent neighborhoods from which the districts would pick up population are less and sometimes much less Asian, the plan carefully added only those neighborhoods which would not significantly dilute the voting power of Asians in those districts. In the case of D4, the district would pick up just ten blocks from District 5 which are 32.56% Asian CVAP but also 7 blocks from District 7 which are 47.26% Asian CVAP. For District 1, the options were between adding Sea Cliff and the Lake Street corridor to the district or transferring the equivalent number of residents from NOPA. Sea Cliff is over 28% Asian CVAP and the Lake Street corridor is over 16% Asian CVAP while NOPA is barely 12% Asian CVAP. As a result, Asian CVAP in the districts under CSFN's plan would decline slightly from 54.25% to 53.44% in District 4 and from 42.62% to 41.57% in District 1. Alternative proposals would have made the loss of Asian CVAP far worse. Based on testimony before the Task Force at its Districts 1, 4, and 5 hearings, if the Task Force followed some of the suggestions, all of NOPA and Anza Vista would be added to District 1, resulting in Asian CVAP dropping from 42.62% to 39.11%, and in D4, if all of the Inner Sunset (as defined by the Inner Sunset Merchants, running from Arguello to 19th) were added to District 4, it would result in a drop of Asian CVAP from 54.25% to 51.75%

Inventory of the 25 Transfers District to District in the Proposed Revised Incremental/Minimum Change Redistricting Plan
 Drafted by Christopher L Bowman, January 22, 2022
 Adopted by the Coalition for San Francisco Neighborhoods, February 15, 2002

	<u>Population</u>	<u>Percentage CVAP</u>			<u>Black</u>
		<u>White</u>	<u>Asian</u>	<u>Hispanic</u>	
<u>From District 1:</u>					
Census block immediately south of the USF Law School and north of Grove between Cole and Shrader From D1 to D5	153	55.19%	22.38%	7.14%	9.74%

<u>From District 11:</u>					
No transfer from district.					

74,327 San Francisco residents or 8.49% of San Francisco's total adjusted 2020 Census population of 874,993 would find themselves in a new Supervisorial District were the districts in this plan adopted by the San Francisco Redistricting Task Force on April 15, 2022.

* The census block sandwiched between Howth and I-280 and Ocean and Geneva represented part of the boundary between Districts 7 and 11 in the current 2012 plan. Subsequently, the Census Bureau revised the boundary of that census block so that it now straddles Geneva which is the current boundary between the two districts. Since census blocks are the smallest unit of population in determining the population of current and proposed districts, since this proposal calls for the restoration of the 2002 borders of the OMI and District 11, it is impossible in this one case to know the precise number of residents that would be transferred between Districts 7 and 11 if this plan were adopted.

Metes and Bounds for the Incremental/Minimum Change Redistricting Plan
Drafted by Christopher L. Bowman, January 22, 2022
Adopted by the Coalition for San Francisco Neighborhoods, February 15, 2022

District 1. The Pacific Ocean and the southern border of the Presidio of San Francisco, easterly along the southern border of the Presidio of San Francisco to 15th Avenue, north on 15th Avenue to include the former Public Health Hospital (CBs 1028, 1030, 1032, & 1036, CT 601), south on 14th Avenue to the southern border of the Presidio of San Francisco, easterly on the southern border of the Presidio of San Francisco to 5th Avenue, south on 5th Avenue to Lake, east on Lake to Arguello, south on Arguello to Geary, east on Geary to Masonic, south on Masonic to Fulton, west on Fulton to Cole, south on Cole to Grove (including CB 4000, CT 165, but excluding CB 4005, CT 165 north of Grove), west on Grove to Shrader, south on Shrader to Hayes, west on Hayes to Stanyan, south on Stanyan to Fell, southwest on Fell to John F. Kennedy, westerly on John F. Kennedy to Nancy Pelosi, southwesterly on Nancy Pelosi to Martin Luther King, Jr., northwesterly and southwesterly on Martin Luther King, Jr. to 19th Avenue, south on 19th Avenue to Lincoln, west on Lincoln to the Pacific Ocean, and north and northeasterly along the Pacific Ocean to the southern border of the Presidio of San Francisco.

District 2. The Pacific Ocean and the southern border of the Presidio of San Francisco, northerly along the Pacific Coast through the Golden Gate to the San Francisco Bay waterfront, easterly along the waterfront to Hyde, south on Hyde to Beach, east on Beach to Columbus, southeast on Columbus to Mason, south on Mason to Vallejo, west on Vallejo to Taylor, south on Taylor to Broadway, west on Broadway to Jones, south on Jones to Pacific (including CB 2003, CT 108 east of Jones), west on Pacific to Van Ness, south on Van Ness to Bush, west on Bush to Webster, south on Webster to Sutter, west on Sutter to Steiner, north on Steiner to California, west on California to Baker, south on Baker to Pine, west on Pine to Lyon, south on Lyon to Bush, west on Bush to Presidio, south on Presidio to Post, east on Post to Baker, south on Baker to St. Joseph's, southeast and south on St. Joseph's to Turk, west on Turk to Masonic, north on Masonic to Geary, west on Geary to Arguello, north on Arguello to Lake, west on Lake to 5th Avenue, north on 5th Avenue to the southern border of the Presidio of San Francisco, westerly on the southern border of the Presidio of San Francisco to 14th Avenue, north on 14th Avenue to exclude the former Public Health Hospital (CBs 1028, 1030, 1032, & 1036, CT 601), south on 15th Avenue to the southern border of the Presidio of San Francisco, and westerly along the southern border of the Presidio of San Francisco to the Pacific Ocean.

District 3. Hyde and the waterfront, easterly and southeasterly along the waterfront to Harrison, southwest on Harrison to 5th Street, northwest on 5th Street crossing Market to Eddy, west on Eddy to Mason, north on Mason to Ellis, east on Elis to Cyril Magnin Place, north on Cyril Magnin Place to O'Farrell, west on O'Farrell to Taylor, north on Taylor to Geary, west on Geary to Leavenworth, north on Leavenworth to Post, west on Post to Polk, south on Polk to Cedar, west on Cedar to Van Ness, north on Van Ness to Pacific, east on Pacific to Jones, north on Jones to Broadway (excluding CB 2003, CT 108 east of Jones), east on Broadway to Taylor, north on Taylor to Vallejo, east on Vallejo to Mason, north on Mason to Columbus, northwest on Columbus to Beach, west on Beach to Hyde, north on Hyde to the waterfront.

District 4. The Pacific Ocean and Lincoln, east on Lincoln to 12th Avenue, south on 12th Avenue to Kirkham, west on Kirkham to 19th Avenue, south on 19th to Sloat, west on Sloat to the Pacific Ocean, and north along the Pacific Ocean to Lincoln.

District 5. St. Joseph's and Geary, north on Baker to Post, west on Post to Presidio, north on Presidio to Bush, east on Bush to Lyon, north on Lyon to Pine, east on Pine to Baker, north on Baker to California, east on California to Steiner, south on Steiner to Sutter, east on Sutter to Webster, north on Webster to Bush, east on Bush to Van Ness, south on Van Ness to Market, northeast on Market to 9th, southeast on 9th to Folsom, southwest on Folsom to the Central Freeway, westerly and northwesterly on the Central Freeway crossing Market to Octavia, north on Octavia to Haight, west on Haight to Buchanan, south on Buchanan to Hermann, west on Hermann to Webster, north on Webster to Haight, west on Haight to Pierce, south on Pierce to Waller, west on Waller to Scott, north on Scott to Haight, west on Haight to Buena Vista Avenue West, southerly on Buena Vista Avenue West to Upper Terrace, southwest on Upper Terrace to Loma Vista Terrace, south on Loma Vista Terrace to Roosevelt, southwesterly on Roosevelt to 17th Street, west on 17th Street to the Clayton, south on Clayton to Twin Peaks Blvd., southwesterly on Twin Peaks Blvd. to Clarendon, westerly on Clarendon to the eastern boundary of UCSF – Parnassus Campus, northerly along the eastern boundary of UCSF – Parnassus Campus (to include all of Parnassus Heights) to Parnassus, west on Parnassus to Hillway, north on Hillway to Carl, west on Carl and Irving to 5th Avenue, north on 5th Avenue to Lincoln, east on Lincoln to Kezar Drive, northeasterly on Kezar Drive to Fell, northeast on Fell to Stanyan, north on Stanyan to Hayes, east on Hayes to Shrader, north on Shrader to Grove (including CB 4005, CT 165, north of Grove, but excluding CB 4000, CT 165), east on Grove to Cole, north on Cole to Fulton, east on Fulton to Masonic, north on Masonic to Turk, east on Turk to St. Joseph's, north and northwest on St. Joseph's to Geary.

District 6. Cedar and Van Ness, east on Cedar to Polk, north on Polk to Post, east on Post to Leavenworth, south on Leavenworth to Geary, east on Geary to Taylor, south on Taylor to O'Farrell, east on O'Farrell to Cyril Magnin Place, south on Cyril Magnin Place to Ellis, west on Ellis to Taylor, south on Taylor to Eddy, east on Eddy to 5th Street, southeast on 5th Street to Harrison, northeast on Harrison to the waterfront (to include Yerba Buena Island and Treasure Island), southerly on the waterfront (beyond McCovey Cove) to an imaginary extension of 16th Street running west connecting the waterfront to Terry A. Francois Blvd., southwesterly on Terry A. Francois Blvd. to Mariposa, west on Mariposa to I-280, northwest on I-280 to 16th Street, west on 16th Street to San Bruno, north on San Bruno to Division, west on Division to 11th Street, northwest on 11th Street to Harrison, southwest on Harrison to the Central Freeway, west on the Central Freeway to Folsom, northeast on Folsom to 9th, northwest on 9th to Market, southwest on Market to Van Ness, and north on Van Ness to Cedar.

District 7. 19th Avenue and Lincoln, north on 19th Avenue to Martin Luther King, Jr., northeasterly and southeasterly on Martin Luther King, Jr. to Nancy Pelosi, northeast on Nancy Pelosi to John F. Kennedy, east on John F. Kennedy to Kezar Drive, southwesterly on Kezar Drive to Lincoln, west on Lincoln to 5th Avenue, south on 5th Avenue to Irving, east on Irving and Carl to Hillway, south on Hillway to Parnassus, east on Parnassus to the eastern boundary of UCSF – Parnassus Campus, southerly along the eastern boundary of UCSF – Parnassus Campus to Clarendon (excluding Parnassus Heights) to Clarendon, easterly on Clarendon to Twin Peaks Blvd., southerly on Twin Peaks Blvd. to an imaginary line running east connecting Twin Peaks Blvd. to Crestline, south on Crestline to Burnett, south on Burnett to Portola (including CBs 1001, 1002, and 1003, CT 204.02), west on Portola to O'Shaughnessy, southeasterly on O'Shaughnessy to Bosworth, southeast on Bosworth to Lyell, south on Lyell to I-280, southwesterly on I-280 to Ocean, northwest on Ocean to Ashton, south on Ashton to Holloway, west on Holloway to Junipero Serra, south on Junipero Serra to Brotherhood Way, east on Brotherhood Way to Alemany, east on Alemany to I-280, southwest on I-280 to the San Mateo County line, west on the San

Mateo County line to the Pacific Ocean, north along the Pacific Ocean to Sloat, east on Sloat to 19th, north on 19th to Kirkham, east on Kirkham to 12th, north on 12th to Lincoln. And west on Lincoln to 19th.

District 8. Buena Vista Avenue West and Haight, east on Haight to Scott, south on Scott to Waller, east on Waller to Pierce, north on Pierce to Haight, east on Haight to Webster, south on Webster to Hermann, east on Hermann to Buchanan, north on Buchanan to Haight, east on Haight to Octavia, south on Octavia crossing Market to the Central Freeway, southeasterly on the Central Freeway to Mission, south on Mission to 14th, west on 14th to Valencia, south on Valencia to 17th, east on 17th to Mission, south on Mission to 19th, west on 19th to San Carlos, south on San Carlos to 21st, west on 21st to Valencia, south on Valencia to 25th, west on 25th to Poplar, south on Poplar to 26th, west on 26th to Dolores, south on Dolores to Randall, east on Randall to Mission, southwesterly on Mission to I-280, southwesterly on I-280 to Lyell, north on Lyell and northwesterly on Bosworth to O'Shaughnessy, northwesterly on O'Shaughnessy to Portola, east on Portola to Burnett, north on Burnett to Crestline (excluding CBs 1001, 1002, and 1003, CT 204.02), north on Crestline to an imaginary line running west connecting Crestline with Twin Peaks Blvd., northerly along Twin Peaks Blvd. to Clayton, north on Clayton to 17th, east on 17th Street to Roosevelt, northeasterly on Roosevelt to Loma Vista Terrace, north on Loma Vista Terrace to Upper Terrace, northeast on Upper Terrace to Buena Vista Avenue West, and northerly on Buena Vista Avenue West to Haight.

District 9. Mission and the Central Freeway, east on Central Freeway to Harrison, northeast on Harrison to 11th, southeast on 11th to Division, east on Division to San Bruno, south on San Bruno to Mariposa, east on Mariposa to Hwy. 101, southerly on Hwy. 101 to Cesar Chavez, east on Cesar Chavez to Bayshore Blvd., southerly on Bayshore Blvd. to Silver, west on Silver to Hwy. 101, south on Hwy. 101 to Paul, northwest on Paul to San Bruno, south on San Bruno to Mansell, west on Mansell to Brazil, westerly on Brazil to the western border of McLaren Park, northerly on the western border of McLaren Park to Burrows, east on Burrows to Peru, northwesterly on Peru to Valmar Terrace, northeast on Valmar Terrace to Madison, northwest on Madison to Silver, east on Silver to Sunglow Lane, northerly on Sunglow Lane to Gladstone, west on Gladstone to Stoneyford, north on Stoneyford to Cambridge, east two blocks on Cambridge to an imaginary line running north connecting Cambridge with I-280, west on I-280 to Mission, northeast on Mission to Randall, west on Randall to Dolores, north on Dolores to 26th, east on 26th to Poplar, north on Poplar to 25th, east on 25th to Valencia, north on Valencia to 21st, east on 21st to San Carlos, north on San Carlos to 19th, east on 19th to Mission, north on Mission to 17th, west on 17th to Valencia, north on Valencia to 14th, east on 14th to Mission, north on Mission to the Central Freeway.

District 10. San Bruno and 16th Street, east on 16th Street to I-280, southeast on I-280 to Mariposa, east on Mariposa to Terry A. Francois, northeast on Terry A. Francois to 16th Street, east on an imaginary line (an extension of 16th Street) connecting Terry A. Francois Blvd. with the waterfront. southerly on the waterfront to the San Mateo County line, west on the San Mateo County line to Carter, northeast on Carter to Geneva, northwest on Geneva to the western boundary of McLaren Park, northerly along the western border of McLaren Park (excluding the Crocker Amazon Playgrounds and soccer fields and the City Arts and Tech High School and June Jordan School for Equity) to Persia, easterly on Persia to Mansell, east on Mansell to San Bruno, north on San Bruno to Paul, southeast on Paul to Hwy. 101, north on Hwy. 101 to Silver, east on Silver to Bayshore Blvd., northerly on Bayshore Blvd. to Cesar Chavez, west on Cesar Chavez to Hwy. 101, northerly on Hwy. 101 to Mariposa, west on Mariposa to San Bruno, and north on San Bruno to 16th Street.

District 11. Junipero Serra and Holloway, east on Holloway to Ashton, north on Ashton to Ocean, southeast on Ocean to I-280, northeasterly on I-280 to an imaginary line running south connecting I-280 with Cambridge, west on two blocks Cambridge to Stoneyford, south on Stoneyford to Gladstone, east on Gladstone to Sunglow Lane, southerly on Sunglow Lane to Silver, west on Silver to Madison, southeast on Madison to Valmar Terrace, southwest on Valmar Terrace to Peru, southeasterly on Peru to Burrows, west on Burrows to the western border of McLaren Park, southerly along the western border of McLaren Park to Persia (including the City Arts and Tech High School and June Jordan School for Equity), easterly on Brazil to Persia, westerly on Persia to the western border of McLaren Park, southerly along the western border of McLaren Park to Geneva (including the Crocker Amazon Playgrounds and Soccer Fields), southeast on Geneva to Carter, southwest on Carter to the San Mateo County line, west on the San Mateo County line to I-280, northeasterly on I-280 to Alemany, west on Alemany to Brotherhood Way, west on Brotherhood Way to Junipero Serra, and north on Junipero Serra to Holloway.

APPENDIX 2

Minority Report

Date: February 16, 2022

To: Charles Head, CSFN President; Richard Frisbee, CSFN Board Member, George Wooding, CSFN GR/Elections Committee Chair; Coalition of SF Neighborhoods

From: Diana Taylor, BCNA President; Lee Robbins, CSFN Delegate, Barbary Coast Neighborhood Association
Eileen Boken, CSFN Delegate, Sunset-Parkside Education & Action Committee (SPEAK)

Re: **Minority Report to CSFN Redistricting Map/Report**

As CSFN developed its redistricting proposal, it was unable take into account the views of some members due to time constraints and other factors. Accordingly, several of its members voted "No" on CSFN proposed plan. Members who do not support the CSFN proposal include:

- Barbary Coast Neighborhood Association (BCNA) in District 3
- Telegraph Hill Dwellers (THD) in District 3
- Sunset-Parkside Education and Action Committee (SPEAK) in District 4

While District 3 (D3) is of particular interest, there are concerns with the CSFN map for other districts (e.g., D4 and western SF neighborhoods).

On behalf of D3, the Barbary Coast Neighborhood Association (BCNA) has testified before the Redistricting Task Force and has submitted a letter and map recommending quite different boundaries from the CSFN map. In addition, Russian Hill Neighbors (RHN) has submitted a letter to the Redistricting Task Force conforming to the BCNA position. CSFN member SPEAK on the Westside is in solidarity with BCNA and RHN proposals. Furthermore, other District 3 neighborhood organizations (e.g., North Beach Neighbors) appear in general support of the RHN/BCNA position even though they have not issued a formal position.

The BCNA proposal for D3 includes the following (the full report was submitted to SF Redistricting Task Force, 1/28/22):

The best option for increasing District 3's area is to move the northern portion of D3's western boundary to Van Ness by incorporating the section bounded by Van Ness, Union St, Jones-Columbus- Leavenworth and the Bay into D3. See proposed Map below. This proposal offers several significant benefits:

- Unites the Russian Hill neighborhood, which is currently split between D3 and D2 (as proposed by RHN)
- Connects Ghirardelli Square and the Cannery with other D3 waterfront and tourist attractions (Fisherman's Wharf, North Beach, Coit Tower, Chinatown and Union Square).
- Includes a high concentration of dense housing and is served by police boundaries (SFPD Central Station) with similar tenant and safety concerns.
- Meets the district population requirement set by the Task Force (within 1% of the ideal number).

A map of 2022 proposed district 3 boundaries (Included in BCNA report to Redistricting Task Force):

**Submitted by the Public to San Francisco Redistricting Task Force
Not Produced or Endorsed by the Redistricting Task Force**

Submission ID: MyBoardSupervisors_SD_022020221808_KL

Plan name: KL

District type: Supervisorial District

Starting Map: current_draft

General comments: Please keep the St. Mary's Park neighborhood in Bernal Heights part of District 9 as it recently was.

Submission ID: MyBoardSupervisors_SD_021920221793_VVCU's Visitacion Valley COI

Plan name: VVCU's Visitacion Valley COI

District type: Supervisorial District

Starting Map: blank_map

General comments: Visitacion Valley Community Unity (VVCU) is a coalition to help Visitacion Valley's residents, groups and organizations come together, work together, and stand together in unity to change social policy, increase educational standards, improve financial opportunity and stabilize families - "We're Better Together" Visitacion Valley historically is composed of Sunnydale, Visitacion Valley and Little Hollywood. It is border by Mansell on the North, McLaren Park/Sunnydale/La Grande on the West, Geneva/County Line on the South, HW101 on the East. VVCU's Visitacion Valley COI has similar demographics and social-economic status on low income, People of Color and immigrants. It is one of the most marginalized communities in SF with two of the lowest performing schools in the City as well as the State. Naming this COI can help preserve the low income community for resource allocation and be vigilant on unreasonable gentrification.

Submission ID: MyBoardSupervisors_SD_021920221792_BHP's D10 Plan - Portola, Visitacion Valley, Bayview

Plan name: BHP's D10 Plan - Portola, Visitacion Valley, Bayview

District type: Supervisorial District

Starting Map: blank_map

General comments: BetterHousingPolicies.org (BHP) is a nonprofit 501(c)(4) organization advocating for better housing and quality of lives for the Chinese and general communities. BHP's D10 Plan is the boundary map for District 10. It is composed of Portola, Visitacion Valley, Portola Place, Bayveiw, and Hunters Point. This District 10 map is bound by HW280 on the West, Caesar Chavez/Islais Creek Channel on the North, the Bay on the East, Geneva/County Line on the South. District 10 under this map represents uniformed similarities in social economic status and demographics, and is mostly composed of lower-moderate income residents and People of Color of Asian Americans (45.65%), Latino Americans (24.52%) and African Americans (16.85%). It has a laser focus on equity that could result in dramatically more resource allocation. It avoids the pitfall of the current District 10 map that includes neighborhoods with large income disparity, which results in the disadvantaged neighborhoods being named the "forgotten valley", the "forgotten neighborhoods" and the "forgotten corner". It also fits nicely right below Potrero Boosters's proposed COI map with a shared border on Caesar Chavez.

Submission ID: MyBoardSupervisors_SD_021920221791_BHP's D10 Chinese COI

Plan name: BHP's D10 Chinese COI

District type: Supervisorial District

Starting Map: blank_map

General comments: BetterHousingPolicies.org (BHP) is a nonprofit 501(c)(4) organization advocating for better housing and quality of lives for the Chinese and general communities. BHP's Chinese COI for District 10 has 57.34% Asian, and is composed of Portola, Visitacion Valley and East Bayveiw. This COI is bound by HW280/Industrial/Oakdale on the North, Cambridge/McLaren Park on the West, Geneva on the South, and 3rd St on the East. With a COI built this way, it can request for the Chinese Culture District, as well as working closely with SFMTA to adjust routes to serve this community. Currently we have proposed to SFMTA to make adjustments on bus routes (#8, 8AX, 8BX, 9, 9R, 29, 44, 54, 56, T) to have a shuttle loop in these 3 neighborhoods and connect to routes that go to Chinatown. It'll make a lot of sense if these neighborhoods become a COI.

Submission ID: MyBoardSupervisors_SD_021620221320_D4 to 7th

Plan name: D4 to 7th

District type: Supervisorial District

Starting Map: blank_map

General comments: In order to meet population requirements this plan expands the section of District 4 east of 19th Avenue (Lincoln Way to Judah Street, 19th Ave to 17th Ave) eastward to 7th Avenue and southward to Kirkham St. The Inner Sunset is well known and understood as a key part of the Sunset District. The plan unites most of the Inner Sunset with Central and Outer Sunset (aka "The Avenues"). At 1% this plan adheres closely to the ideal population for the District and keeps the Chinese Cultural District intact.

Submission ID: MyCityCouncil_SD_021220221597_Increasing District Coherence

Plan name: Increasing District Coherence

District type: Board of Supervisors

Starting Map: blank_map

General comments: this district map would do a better job keeping neighborhoods whole. D 1 would retain the Richmond and Lone Mountain. D 2 would absorb polk gulch. D 3 would be focused on Chinatown and North Beach and would absorb Transbay, Rincon Hill, South Beach, and Treasure Island, D4 would remain primarily the Outer Sunset, D5 would lose the Inner Sunset and Cole Valley to D 8 but D 5 would gain lower Pac Heights and areas near Hayes Valley. D 6 would include Tenderloin, Western SoMa, Showplace Square, and Mission Bay, D 7 would lose parts of the Inner Sunset but add Glen Park, D8 would move west with its eastern edge at Dolores and would include Cole Valley and the Inner Sunset, D9 would center on the Mission and Bernal, D 10 would remain made up of Bayview Hunters Point, Potrero, Dog Patch, and Visitacion Valley while D 11 would remain largely the same while adding the Portola.

Plan name: TL in D6

District type: Board of Supervisors

Starting Map: blank_map

General comments: This district plan would ensure various racially diverse districts. It would keep the Tenderloin in D 6 along with Western SoMa and Mission Bay. Eastern SoMa and Treasure Island would Move to D3. Polk Gulch would move to D 2. D8 would absorb Cole Valley and part of the Inner Sunset. D 11 would take over Portola while D9 would expand west to Dolores street.

Submission ID: MyCityCouncil_SD_020920221528_SOMA Pot Patch 94107

Plan name: SOMA Pot Patch 94107

District type: Board of Supervisors

Starting Map: blank_map

General comments: This new district, "SOMA Pot Patch 94107 (Rev)", is contiguous, diverse, comprises parts of current D10 & D6, and includes all of zip 94107. It keeps together historic Potrero Hill & Dogpatch and unites them with the vibrant tech/biotech hub of SOMA, where many Pot Patch residents work. It is bounded on the northwest by Mission St, on the west by Potrero Av, on the south by Napoleon and Islais Creek, and on the east by San Francisco Bay.

BOARD OF DIRECTORS

January 28, 2022

EXECUTIVE COMMITTEE

David Albert
Bill Hannan
Karen Scarr
Diana Taylor

To: SF Redistricting Task Force
From: Barbary Coast Neighborhood Association
Re: District 3 (D3) Redistricting Proposal

MEMBERS AT LARGE

Adam Bergman
Bob Harrer
Michele Hennessey
Lee Robbins
James Seff
Michael Velzo

The current District 3 encompasses many of the sights and activities that people associate with San Francisco. Its identity is strongly linked to tourism. D3's entire eastern and northern perimeter along the waterfront features famous attractions such as the Ferry Building, the Exploratorium, Alcatraz Tours, Pier 39 and Fisherman's Wharf. Inland lie North Beach restaurants, Pioneer Park & Coit Tower views, Chinatown shops and Union Square's hotels & shopping.

If D3 boundaries need to be adjusted outward, its neighborhoods have vastly greater affinity with neighborhoods to the west, not south. The best option for increasing its area is to incorporate the section bounded by Van Ness, Union St, Jones-Columbus-Leavenworth and the Bay into D3. [Proposed Map submitted online to Task Force]. This would make Van Ness Avenue – a natural dividing line – the district's western boundary.

As presented in the SF Redistricting Task Force materials, the ideal redistricting population in one district is 79,545 people. The Task Force directions say proposed new districts should be within 5%, at most, of the ideal number. The population of D3 with the current boundaries is 72,474 or 8.9% below the ideal number. If we extend the northwestern boundary to Van Ness, D3's population would be 78,908 a mere 0.8% below the ideal.

Moving the northern portion of D3's western boundary to Van Ness offers several benefits. This plan would unite the Russian Hill neighborhood, which is currently split between D3 and D2. It would also connect Ghirardelli Square and the Cannery with other similar waterfront attractions. And this expanded D3 community includes a high concentration of dense housing and is served by police boundaries (SFPD Central Station) with similar tenant and safety concerns. Furthermore, this proposal would meet the district population requirement set by the Task Force (within 1% of the ideal number). Such an adjustment to D3's boundaries would bring together related communities that have profound interests in common. It would be a natural and logical re-arrangement; in short, a common-sense solution.

Diana Taylor, BCNA President on behalf of BCNA Board of Directors

Submission ID: MyCityCouncil_SD_012820221239_D3 draft 1

Plan name: D3 draft 1

District type: Board of Supervisors

Starting Map: blank_map

General comments: Please see letter from Barbary Coast Neighborhood Association (BCNA) dated January 28, 2022. This map moves the northern portion of D3's western boundary to Van Ness, thus incorporating a unified Russian Hill neighborhood and tourism activities like the Cannery/Ghirardelli along the northern waterfront.

Submission ID: MyCityCouncil_SD_012720221299_TL in D 3

Plan name: TL in D 3

District type: Board of Supervisors

Starting Map: blank_map

General comments: this map solves the problem of how to deal with the large growth in D 6 by moving the Tenderloin into D 3. This means that D 2 takes more of Russian Hill, Polk Gulch, Nob Hill, and Fisherman's Wharf. D 5 extends to lower Pacific heights while D 8 would lose part of the Mission and Glen Park and gain Cole Valley and the Inner Sunset. Glen Park would become part of D7. D 9 would lose the Portola which would shift mostly to D 10.

Submission ID: MyCityCouncil_SD_012220221116_West Soma in D5

Plan name: West Soma in D5

District type: Board of Supervisors

Starting Map: blank_map

General comments: This plan resolves issues around D6 by D5 absorbing West Soma including Hub and Division corridor, Russian Hill and Portola are unified, Cathedral Hill goes to D2, D1 expands east, minor changes to D7, D8, D9, D11, D10 loses half of Portola. D4 gains Inner Sunset. This plan keeps many communities of interest together in their existing districts.

Submission ID: MyCityCouncil_SD_012120221060_Strengthening Communities of Color

Plan name: Strengthening Communities of Color

District type: Board of Supervisors

Starting Map: blank_map

General comments: This plan would particularly strengthen representation of the Black, Latino, and Asian population. by placing Tenderloin, Western Addition Fillmore, and Japantown together, D5 would have greater Black, Latino, and Asian representation. D10 would similarly have strong Black, Asian and Latino representation while D 11's strength with Asian and Latino voters would be strengthened. The Latino population in D 9 would be Strengthened while D 6, D 3, D7, D 1, and D 4 would all have significant white and asian populations while being majority people of color. only Districts 2 and 8 would be majority white.

Submission ID: MyCityCouncil_SD_012020221053_District 5 WRO

Plan name: District 5 WRO

District type: Board of Supervisors

Starting Map: blank_map

General comments: Here is my secondary input on the district 5 based on consistent geography, character, etc. In my last one it looks like I missed a few internal blocks that should have been selected to make it contiguous. I think this reflect better the consistent values and culture of a ""new"" district 5. I did vet this with a few neighbors via the Cole Valley Facebook page and they agreed. Hopefully this input is considered in drawing more representative lines. The current district 5 proposal breaks up Cole Valley which is a core neighborhood in district 5."

Submission ID: MyCityCouncil_SD_01142022875_TL in D6

Plan name: TL in D6

District type: Board of Supervisors

Starting Map: blank_map

General comments: This plan works to keep the core of each district intact. For example, D3, the historic northeast corner of the City remains intact rather than spilt. D6's large growth is resolved by moving Western Soma to D9 which took on most of the old D6 last redistricting. D10's growth is resolved by removing Lower Potrero Hill to D9 and Dogpatch to D6. Portola moves from D11 from D9 to compensate for these changes. Other flow through changes made to other districts including D7 gaining some of western D11. D4 adds some of the Inner Sunset. D8 and D5 borders move around and D2 takes on Lower Pacific Heights, Japantown and Cathedral Hill. D1 takes all of the Richmond District, Seacliff and Baker Beach in the Presidio.

Submission ID: MyCityCouncil_SD_01092022761_Equity Plan 2022

Plan name: Equity Plan 2022

District type: Board of Supervisors

Starting Map: blank_map

General comments: My goal for this map was to improve racial equity across San Francisco. I approached this in two ways: 1. Maintaining existing majority-minority districts 2. Reducing the non-Hispanic white population in districts where it is currently 50% or higher I measured my work against the San Francisco Planning Department's report titled "San Francisco Neighborhoods Socio-Economic Profiles 2012-2016", which reports data at the level of individual supervisorial districts. In my view, I largely succeeded at this effort. The average non-Hispanic white population among today's 11 districts is 48.64% according to SF Planning. Under this set of maps, the redistricting tool shows a new average of 44.72%. Further, the number of districts with a non-Hispanic white population greater than 50% has been reduced from 4 to 2. The districts proposed in this submission are more equitable than the status quo and more accurately reflect San Francisco's diverse population.

Submission ID: MyCityCouncil_SD_12202021552_TL in D5

Plan name: TL in D5

District type: Board of Supervisors

Starting Map: blank_map

General comments: This plan puts the Tenderloin in D 5. As a result the Haight and Cole valley move out of D 5 into D 8. D 9 would extend west to Dolores. D6 would focus on SoMa, Mission Bay, Dog Patch, and most of Potrero Hill. Portola would shift from D 9 into D 10. The inner Sunset would be split between D7 and D 4. This plan resolves the problem of too much population in the current D 6 by focusing D 6 on the areas with more recent development and more population growth while focusing D 5 on the Western addition and Tenderloin, areas with diverse populations, a lot of affordable housing, and more historic, older neighborhoods.

Submission ID: MyCityCouncil_SD_12122021552_TL in D5

Plan name: TL in D5

District type: Board of Supervisors

Starting Map: blank_map

General comments: The fundamental issue facing redistricting is that D6 has grown in population far faster than all other districts and D6 must change. This plan moves most of the Tenderloin into D5, which would also include Fillmore/ Western Addition, Hayes Valley, Japantown, NOPA, and Anza Vista. the Haight and Cole valley would move into D8. While the Eastern boundary of D8 would be come part of D9, adding blocks between Dolores and Valencia to D9. Glen Park would shift from D8 to D7. Portola would move to D10. Potrero Hill would be split with the northern part in D6 while the southern part would be in D10.

Submission ID: MyCityCouncil_SD_12032021512_ TL in D 3

Plan name: TL in D 3

District type: Board of Supervisors

Starting Map: blank_map

General comments: This plan resolves the challenge of how to shrink D 6, where there has been a lot of population growth, by moving the Tenderloin into D 3. This means that more of Polk Gulch, Russian Hill, and Nob Hill have to move into D 2. Other notable changes are that Cole Valley and UCSF would move into D 8, creating a continuous area around Buena Vista Park and served by the N Judah. D 6 would shrink to focus on SoMA and Mission Bay. Most other districts would see limited changes.

Submission ID: MyCityCouncil_SD_12022021501_TL in D1

Plan name: TL in D1

District type: Board of Supervisors

Starting Map: blank_map

General comments: I made a mistake in Plan Name and and this should say Tenderloin in D 5 which the most significant part of this plan. Given the population growth in District 6, deciding how to shrink the district is the central challenge of redistricting. In this plan the Tenderloin would move into D 5 along with Western Addition/ Fillmore, Hayes Valley, Japantown, Alamo Square, and NOPA. D 5 would lose the Haight and Cole Valley, which would move into D8. D8's eastern edge would be Dolores street rather than Valencia and the portion of the Mission that used to be in D 8 would shift to D 9. Glen Park would shift out of D 8 into D 7 and Portola would shift from D 9 into D 10. Other than these changes, districts would be very similar to how they appear today.

Re: My San Francisco Redistricting Map for 2022 (DP1), First Draft

Dear Chair Rev. Townsend and Members,

I am excited to share my first draft of a San Francisco Redistricting Map for 2022 (DP1). To determine the ideal population for each district (DP Ideal), I considered the census population change from 2010 to 2020, registration, and turnout (using voter data from November 2012, 2014, 2016, 2018, and 2020 elections). Starting with the existing districts, I adjusted boundaries to improve compactness, keep communities and neighborhoods together, include (or split) institutions and parks where appropriate, and use freeways, large streets, and other natural borders as much as possible.

The general boundaries are (clockwise from the county line, northwest corner, or water's edge):

DP1 District 1: 33rd, California, 26th, Lake, 21st, California, Presidio, Bush, Divisadero, Sutter, Presidio, Post, Divisadero, Fulton, Cole, Grove, Shrader, Hayes, Stanyan, JFK, Kezar, MLK, Lincoln

DP1 District 2: Leavenworth, Jefferson, Jones, Broadway, Van Ness, Bush, Presidio, California, 21st, Lake, 26th, California, 33rd

DP1 District 3: Bryant, Beale, Harrison, 3rd, Folsom, 4th, Stockton, Geary, Van Ness, Broadway, Jones, Jefferson, Leavenworth

DP1 District 4: Lincoln, MLK, 9th, Irving, 17th, Kirkham, 19th, Eucalyptus, Middlefield, Lake Merced

DP1 District 5: Bush, Van Ness, S Van Ness, 14th, Valencia, Duboce, Castro, 14th, Roosevelt, 17th, Stanyan, Carl, Arguello, Irving, 9th, MLK, Kezar, JFK, Stanyan, Hayes, Shrader, Grove, Cole, Fulton, Divisadero, Post, Presidio, Sutter, Divisadero

DP1 District 6: TI, YBI, 16th, Terry Francois, Mariposa, Pennsylvania, 17th, Mississippi, 7th, King, Division, 8th, Mission, 9th, Market, Van Ness, Geary, Stockton, 4th, Folsom, 3rd, Harrison, Beale, Bryant

DP1 District 7: Kirkham, 8th, Lawton, 7th, Laguna Honda, Portola, O'Shaughnessy, Malta, Stillings, Martha, Baden, I-280, Alemany, Brotherhood, Lake Merced, Middlefield, Eucalyptus, 19th

DP1 District 8: Irving, Arguello, Carl, Stanyan, 17th, Roosevelt, 14th, Castro, Duboce, Valencia, 15th, Dolores, Day, San Jose, I-280, Baden, Martha, Stillings, Malta, O'Shaughnessy, Portola, Laguna Honda, 7th, Lawton, 8th, Kirkham, 17th

DP1 District 9: Market, 9th, Mission, 8th, Division, Potrero, Mariposa, Hampshire, 25th, Potrero, Cesar Chavez, Bayshore, Industrial, US-101, I-280, Baden, San Jose, Day, Dolores, 15th, Valencia, 14th, S Van Ness

DP1 District 10: Geneva, La Grande, Mansell, Visitacion, Raymond, Delta, Teddy, San Bruno, Paul, Bayshore, Cesar Chavez, Potrero, 25th, Hampshire, Mariposa, Potrero, Division, King, 7th, Mississippi, 17th, Pennsylvania, Mariposa, Terry Francois, 16th

DP1 District 11: Lake Merced, Brotherhood, Alemany, I-280, US-101, Industrial, Bayshore, Paul, San Bruno, Teddy, Delta, Raymond, Visitacion, Mansell, La Grande, Geneva

To summarize (Change is DP1 from 2020 Census and % Deviation is DP1 from Average):

District	2010 Population	2020 Census	DP Ideal	DP1	Change	% Deviation
1	69,703	72,848	81,120	81,121	8,273	1.98%
2	69,544	76,363	77,418	77,466	1,103	-2.61%

Thank you, as always, for considering my thoughts on this matter. I can briefly describe this proposal at a future Task Force meeting if you would like. I am certain that your final plan will be different, but I do hope that the elements here are useful and spark some civic (and civil) debate and interest. I am also pretty sure that no one will like this proposal as it is and I understand that. While maintaining and strengthening each district were primary concerns, I also tried to move each district slightly toward the middle politically, hoping for more competitive election contests and good, strong elected representatives from each district in the next ten years. Thanks again for your consideration.

Sincerely,

/s/

David Pilpel
