LEVERCLOCKS

...no present like the time

Cleverclocks were first produced in London, England in 1984.
Now, the clocks are also made in Oakland, California.
All Cleverclocks are handmade.
Our designs and artwork are exclusive to the company and are copyrighted and patented.
They are the original work of Eric Letts and Douglas Chubb.
Each clockface and set of hands are individually reproduced on our digital engraved brass derived from our original art.
...made of wood... Each case is hand lacquered.
and sold worldwide as an original piece.
All designs are engineered to our own specifications, some entirely unique, but all are based on the original design used in the Early Cleverclock.
The clocks are powered by either 12 and 24 hour quartz motors.
All displays are engineered to our own specifications, some entirely unique, but all are based on the original design used in the Early Cleverclock.
The clocks are covered by a 5 year guarantee and come with a battery, instruction leaflet and a one and maintenance document.
