Artist Biography (Please provide a short biography about yourself and your craft):

Coming out of comma, I was transported by ambulance from Oakland to San Francisco and began my long road back with daily rehab at the neighborhood hospital. I am lucky and super blessed I know that sounds strange for a person who was shot in the neck in 1992, and for the first six months, could only move my eyes Looking over the past 25 years, I have graduated in computer aided drafting at City College. Today, I tutor students at the college and volunteer as peer counselor at the hospital. During summer break I draw beautiful landscapes of my neighborhood park.

1. Describe your work in detail. How do you make it?

Starting with pencil I sketch a picture of what I see while smelling the roses at the park. Later at home, I then ink and scan it to a paint program for cleanup and coloring.

2. Where did you learn your craft?

From lifetime experience and architectural classes taken at City College. I had Computer Aided Drafting and Computer Aided Design (Architectural) diplomas from CCSF. Learning to use the mouse to draw was a cumbersome task.

3. Did you take a class or learn on your own?

Both. I had to learn using a computer mouse after becoming quadriplegic after gunshot wound to my neck.

Today, I tutor students at the college and volunteer as peer counselor at the hospital
