Members of the SFPD Police Commission

Please do your job and enforce the laws! The reason why we have the spread of crime in San Francisco is because of the lack of respect for the laws and the police who work to enforce the laws.

This is a bad precedent. What's next?

Many groups are promoting a change to SFPD's rules that will prevent officers from citing drivers for driving without vehicle registration tabs, littering, etc. The new rule will even allow bicyclists to ride on the sidewalk.

This is NOT a racial issue as people are led to believe.

Proposed SFPD General Order 9.01.01 specifically concludes: "These (pretext) stops—are disproportionately carried out against people of color" without citing a study. This codified General Order philosophy was echoed in the Chronicle's recent article Data on racial profiling in California shows the problem is only getting worse. But where are the statistics that support the Chronicle's and the Police Commission's conclusions?

Have you seen the exodus from San Francisco? Have you seen how the druggies have ruined the neighborhoods in San Francisco? This will make it worse!

Please do your job and protect and defend the citizens of San Francisco, which

is your mission.

All the best,

Herb Meiberger
