

Rewriting Traffic Stop Rules

COMMUNITY LISTENING SESSIONS

SFPD is rewriting its rules around 'pretextual traffic stops,' or traffic stops that quickly escalate from a check of a minor violation to an investigation that impacts the rights of those involved. SFHRC is leading a series of opportunities for community to weigh in.

Join in this process and share your experience with traffic stops in San Francisco. Meetings are in person and virtual; feedback can also be shared via email, phone, or community survey.
