SFPD Commission

I respectfully request traffic enforcement rules remain status quo as is. Auto/truck drivers who do not abide by California driving/vehicle regulations should be cited.

Additionally if vehicles are not maintained safely in accordance with DMV ordinances, the vehicle should be ticketed.

Several years ago, my mother was traveling down a hill and was rear ended by a person whose truck breaks did not work. Additionally, the driver didn't have insurance. My mother was injured.

Each year, 32,000 people are killed and 2 million are injured in car accidents. America has one of the highest fatality rates.

I request current traffic enforcement rules remain in place.

Respectfully,

Lucky Fung
