FSTF 2023 Recommendations

- Process
- Timeline

DRAFT
Presented at Dec 2022
FSTF Meeting

- Review Outline and overview of changes (November FSTF Mtg)
- Finalize and preliminary graphic design (by end November/early Dec 2022)
- Present for feedback (Dec FSTF Meeting)
- Final Graphic design (December 2022) & Disseminate (December & January)
- Meetings with City Departments (schedule in Dec meet January)
 - Prepare slides
- Meetings with Major's office, BOS (schedule meetings in early Dec for January)
 - Prepare slides

2023
Recommendations
- Overview

- Bringing forward similar recommendations to 2022
- Nutrition Security and Equity Framing
- Current Issues such as food & fuel costs, high costs of living (less COVID focus)
- Organize under themes (instead of listing items)
- Simplify (eliminate barriers for example)
- My have an Actionable Recommendations Table as a supplement but not included in the document

December 2022 FSTF - Draft for Input

Introduction

- Expanded Framework: Nutrition equity/food justice and health equity
- Equity, pathways to food sovereignty
- Community led/community input
- Broader perspective of food security (housing, guaranteed income, health care, child care, etc.)

THE CURRENT LANDSCAPE

THE FOOD SECURITY TASK FORCE (FSTF) was established by the San Francisco Board of Supervisors and charged with making recommendations to the City to improve food security. The FSTF consists of representatives from community-based organizations, collaborative partnerships, city departments and, SFUSD. The FSTF meets monthly and includes many members of the public joining to collaboratively address the food needs of San Francisco. The 2022 Recommendations were based on issues and priorities identified in FSTF meetings (presentations, public comment, reports) and through a survey of FSTF members and community stakeholders requesting input on food security services/resources, barriers, opportunities, and what can be done to promote equity and address systemic racism in regards to food insecurity in San

PRIOR TO COVID-19, one in four San Franciscans were at risk for hunger due to low income. With COVID-19, lack of food hit crisis levels, with many organizations and individuals becoming involved in food work. This has shifted the community food landscape in San Francisco to include new organizations that started during the pandemic, as well as community organizations that began new food programs in response to community needs. As the pandemic continues, our communities are still experiencing COVID-19 related challenges including reduced incomes, high food costs, and reduced transportation options.

The FSTF heard many presentations in 2021 from community-based organizations regarding the food needs of their clients which continue to remain very high for all groups, especially for families with children. In California, Hispanic households. multiethnic households, and Black/African American households experience the highest rates of food insecurity. In addition to these groups, in San Francisco many Asian households are also experiencing food insecurity. The financial cliff faced by many lower-income families with the expiration of the Child Tax Credit is alarming. These payments have lowered childhood hunger across the country, but unfortunately, with the program having expired in December 2020, we anticipate childhood hunger to once again rise.

In a survey conducted by the San Francisco-Marin Food Bank in 2021 of their participants, they found that 80% of the respondents were experiencing food insecurity. Households with children, and especially single-parent households, had the highest rates of food insecurity (87%). Half (50%) of respondents had not used food programs prior to the pandemic, 61% said someone in their household had lost their job or earned less money because of COVID-19, and 81% reported that their household had not recovered from this financial loss. In addition, a separate food security assessment conducted by Conard House (a permanent supportive housing provider) found that among their residents, 66% report they do not have enough money to buy food each month.

Current Landscape

Some items included:

- Challenging climate (high inflation, food costs, anticipated state deficit)
 - Inflation graphs, quotes
- Stats/Data
 - RAPID survey (DCYF & Stanford)
 - Food Bank, SNAP, WIC, SFUSD (20% increase)
 - People of color disporportionately impacted
 - Middle class & food insecurity
 - Food insufficiency rates among families with children
- Threats (inflation, housing costs, food costs)
- Reduction in corporate and philanthropic support

• These will be incorporated into 5-7 themes and next steps

IDENTIFIED NEEDS

- · Maintain adequate community resources to include new programming/innovations
- · Increased multi-year city investment, grants, and funding for food supports
- Adequate (and equitable) funding for food supports (nonprofit, private sector, new contracts, existing contracts, among others)
- · Healthy, culturally relevant, and quality food
- Continued flexibility and loosening of requirements that made it easier for individuals to utilize services and organizations to provide services (e.g., Child and Adult Care Food Program (CACFP) food sent home with family)
- Neighborhood food hubs (such as in the Mission) and grocery services, especially those that focus on culturally relevant food items
- . Support for smaller and local organizations that can respond to the unique needs of their community
- Meal and grocery delivery
- . Takeaway/ready-made meals -- especially continuing this flexibility for congregate meal programs
- Meals prepared by restaurants, especially small businesses
- Investments in food programs linked directly to housing, such as Single Room Occupany (SRO) and Shelter-In-Place (SIP) hotels
- · Connections between healthcare and food security
- · Food vouchers, gift cards
- · Pop-up food pantries

OPPORTUNITIES

- · Basic Guaranteed Income/Grants to Individuals
- Create and institutionalize an Office of Food Policy with a mandate beyond just ending hunger (using a whole food system approach)
- · Housing and food connections
- Solutions that meet specific community needs, including multiple interventions and interventions that cover the whole family
- · CalFresh outreach strategies, especially to students, non-English speakers, and seniors
- Healthy retail/corner stores
- Better coordinated food support and eliminate silos (also break down the barriers between "traditional" providers and "new" providers)
- Urban food production
- Good food procurement policies
- Food justice involves relationships among farmers, retailers, restaurants, food providers, and the community

Local Recommendations

Estations a certificative tool pointy office in City government that eliminates silos, is community-led/informed, and addresses root causes of food insecurity in San Francisco. Invest in neighborhood-level community-led food policy to support connectivity and collaboration

among residents and community-based organizations (CBOs), and ensure community members are adequately compensated for their participation.

Work with the community and the FSTF to create a new comprehensive and holistic food policy body led by communities most impacted that includes representatives from neighborhood-level food

- Ensure DPH fully staffs all necessary roles and responsibilities to complete the Biennial Food Security and Equity Report and coordinates with city departments, community organizations, and the FSTF to collect and aggregate food program data, identify gaps, and create a city-wide implementation plan on food.
- DPH and SF Environment must ensure San Francisco's implementation of SB. 1383 does not
- Cert aid at a constitution that estate an irrahusable simplementation of a Loss does into result in communities receiving expired food, food that is not cuturally relevant, or food that is not appropriately labeled (i.e., ingredients and allengens). Utilize special revenue funding (i.e., Prop C Indili care infrastructure, Prop C homeless services) to address the food and nutrition needs for these groups.

 Connect local healthcare to God socurity. Encourage the SP Health Plan to adopt the full spectrum of medically supportive food interventions available under California Advancing and Innovating Medical (CAIM).

FUNDING/RESOURCES

- Fund direct cash benefits, universal basic income, and other initiatives to provide households with
- Ensure adequate, equitable, and ongoing funding for food supports (nonprofit, private sector, new
- contracts, existing contracts). Increase city investments and commitment to long-term, institutionalized funding for food supports
- . Create a multi-year funding infrastructure that ensures transformational food solutions that promote the prosperity of historially neglected communities and that are grounded in and led by com wisdom that already exists.
- Develop strategies and structures for Requests For Proposals (RFP) that support greater coordination
- between large and small-scale programs.

 Encourage city agencies to collaborate and coordinate around funding to streamline processes for

- Eliminate transportation barriers to food access and invest in food/grocery delivery, investigate
- discounts on taxis and rideshares, and expand paratransit programs.

 Require and fund culturally relevant and quality food and service provision, including high-quality

- Require and fund culturally relevant and quality bood and service provision, including high-qui food, language capacity, dignified services, and choice. Southern successful food interventions that arose in response to COVID-19 such as food hubs, restaurant meals, pour-parinties, grocery vouchers, clelleney, take-out, among others). Provide funding for food programs that provide food for the entire household. To achieve equalitable food security for residents in Supportive Housing and SROs, increase fur
- To achieve equitable food security for residents in Supportive Housing and SROs, increase funding for HSH and DPH for on-site and off-site food program including investments in 1/2 4 hour access to prepared meals and groceries, 2) food vouchers, 3) heading/cooking and storage infrastructure in units and community moran and 9 electrical capacity and streamlined sensitive provision for city agencies/and community organizations to provide services (e.g., takeaway options at congregate sites, CACPF food sort home with family, San Francisco Unified School District (SFUSD) area eligibility waivers, remote legibility, expanded support to feed the whole household, Department of Dassibility and Aging Services IMSA soll byt no more funds where needed, delivered food with CalFresh funds, etc).

 Increase outreach to Black/African American, Latinx, Asian Pacific Islander, and American Indian
- Increase oureact to back/artican American, Latinx, Assan Facint issander, and American in communities to ensure they are aware of and can easily access the food support programs.
 Maintain and improve food referrals through an integrated and reliable food programming information and referral database available through 311 and the city website.
 Increase utilization of outdoor public spaces for food programs and urban agriculture.

December 2022 FSTF - Draft for Input

- These often overlapped with opportunities and needs
- Will incorporate into the 5-7 major themes/priorities
- May have an actionable item chart for BOS

1. Support funding structures that promote a holistic approach to food and nutrition security in San Francisco.

- Multi-year funding for community and neighborhood-based organizations to provide food support
- Ensure adequate and equitable funding through the City's procurement (RFP) process and streamline funding processes.
- Commitment to long-term, institutionalized funding (food + coordination)
- Fund smaller neighborhood organizations
- Utilize special revenue funding to address the food and nutrition needs (i.e. Prop C— homeless services).
- Ensure adequate funding levels to continue existing programs

2. Eliminate barriers and invest strategically in neighborhoods where structural racism and disinvestment have led to low access to healthy and culturally relevant food.

- Require and fund programs that are culturally relevant, high quality and dignified
- Delivery and transportation
- Outreach to underserved communities
- Outdoor public spaces for food programs and urban agriculture
- Food referrals through 311 and CCSF website (in multiple languages)

3. Increase coordination of local governments' programs and policies related to food systems.

Establish a Centralized Food Policy Office in City Government

- Community-led/informed
- Eliminate department silos
 - Coordinate food system objectives and programs within and among departments
- Ensure DPH completes biennial Food Security & Equity Report, including coordination with departments, community organizations & FSTF
- Track laws and regulations impact on nutrition programming
 - Ensure San Francisco's implementation of SB.
 1383 does not result in expired food or food that is not culturally relevant or labeled

4. Elevate the community's voice and participation in the development and implementation of food policy.

- Initiatives should be grounded in and led by community wisdom that already exists.
- Establish a Food Coordination/Advisory Body
 - Led by communities most impacted
 - Ensure adequate staffing
 - •Compensate community members for participation
- Support Community Coalitions

5. Engage the Health and Housing Sectors around Food Security

- Ensure the SF Health Plan adopts and implements the full spectrum of medically supportive food interventions available under California Advancing and Innovating Medi-Cal (CalAIM)
- Support Housing + Food Initiatives
 - Fund food programs for supportive and SRO housing
 - Ensure sufficient food storage and meal preparation equipment

6. Other

- Provide direct financial support to households
- Support programs and policies that consider the whole household
- Reduce data collection burden on consumers and organizations.
- Continue flexibilities (remote eligibility, etc.)

State & Federal Recommendations

Demand re-implementation and expansion programs established during COVID-19.

Continue Federal waivers for program flexibilities and the increased reimbursement rate for providers of school meals.

PANDEMIC - EBT (P-EBT)

- Continue to fund this new program.
 Add an option for additional cards to be passed out at the site level for students who are being suspended so that they can get meals during that time.

CHILD AND ADULT CARE FOOD PROGAM (CACFP)

- CHILLIANU ANUL LIVARE FOOD FITCHOMMI (CAUFF)

 Support passes of 5.1270 (Access to Healthy Food for Young Children Act of 2021) to improve
 the reach of the food program through increases to the minibusement for providers.
 Mike permanent the CACFP valves issued throughout the panderine that made it easier for
 Use the Consumer Price Index for Food Away from Home as the cost of-king adjustment for
 family did can home CACFP reinfusement rates.
 Continue funding the United States Department of Agriculture's (USDAs) Team Nutrition CACFP
 nutrition education and program efforts.

SPECIAL SUPPLEMENTAL NUTRITION PROGRAM FOR WOMEN AND CHILDREN (WIC)

- Ensure that Child Nutrition Reauthorization includes changes outlined in marker bills (WIC Act, WIC for Kids Act, and Modern WIC Act;
 Ensure Mic Chic in rower fallering up in age in
 Ensure Mic Chic in rower fallering up in age in
 Ensure Mic Chic in rower fallering bill a 2 years
 Esteed certification, removing the in-person requirement.
 Streamline critification, removing the in-person requirement.
- External certaintain periods
 Streamline certification, removing the in-person requirement
 Extend funding for online shopping pilot and an increase in fruit and vegetable cash-value benefit.
