Hello Director Arntz,

Please see our request below for Commissioner laptop computers. We respectfully ask to include this request in your department budget.

If you have any suggestions or questions, please email or call me.

Thank you for your support and consideration.

Best, Nancy Crowley

DRAFT Request for Elections Commissioner laptop computers

San Francisco Election Commissioners are currently using their personal computers for Commission business. If there is a request for public information, commission members risk having their personal computers reviewed or worse, confiscated because commission information is stored on their personal computers. The Elections Commission is requesting laptop computers for its seven members to conduct City Commission business and use in Commission meetings.
