### **Purpose of Contract:**

California Health & Safety Code section 11165(d) requires drug dispensing pharmacies, clinics, or other drug dispensers to report prescription dispensation data to the Department of Justice (DOJ). Currently, all data is required to be submitted through the Controlled Substance Utilization Review System (CURES), DOJ has awarded Bamboo Health as the contractor for prescription data collection services for CURES. Bamboo Health will provide their PMP Clearinghouse solution gateway (PMP Gateway) and analytical reporting service (Narxcare).

The purpose of Bamboo's Health PMP Gateway and Narxcare is to allow integration of DOJ's CURES system with our hospital's Electronic Health Records System, to provide real time Prescription Drug Monitoring Program (PDMP) Data at the Point-of-Care, automate PDMP searches, one location queries for individual patients, multi-state PDMP data, and full transparency into prescription transactions. As the DOJ awarded contractor, Bamboo Health supports these processes effectively through its solution, and helps our Department comply with the California Health & Safety Code section 11165(d).

#### **Performance Monitoring:**

The contractor's performance will be monitored and evaluated by staff at DPH and DPH Information Technology.

#### **Health Equity and Inclusion Compliance:**

The Contractor will provide any requested information to comply with the Department's Office of Health Equity (OHE) requirements and will align with the citywide efforts on contract equity as overseen by the Office of Racial Equity (ORE) in the Human Rights Commission.
