

STREET CRISIS RESPONSE TEAM (SCRT) FEBRUARY 2023 UPDATE

The goal of the San Francisco Street Crisis Response Team is to provide rapid, trauma-informed response to calls for service about people experiencing crisis to reduce law enforcement encounters and unnecessary emergency room use.

The SCRT now has 7 fully operational teams that provide full geographic coverage across San Francisco. These teams operate 7 days per week, 24 hours per day. All teams are supported by the SCRT Office of Coordinated Care staff who continue to provide follow-up and linkage support to clients as soon as possible following the initial crisis encounter.

In June 2022, SCRT entered Phase 2 of implementation with the transition from police dispatch to Emergency Medical Dispatch (EMD). This change allows teams to respond to a wider range of calls for service, including calls to indoor settings, and further separates behavioral health crisis response from law enforcement by going through medical dispatch.

OPERATIONS UPDATE

KEY PERFORMANCE INDICATORS

	Crisis Calls Handled by SCRT	February 515	Cumulative* 15,970
	SCRT-Eligible Calls that Received SCRT Response**	February 72%	Cumulative 77%
	Average Response Time	February 18min	Cumulative 17min

*Cumulative counts are on data since pilot launch (November 30, 2020 – February 28, 2023)

***During the pilot phase, SCRT responded to 800B calls under police dispatch. In Phase 2 (beginning June 22, 2022) SCRT responds to the same type of behavioral health crisis calls that are now coded and dispatched through Emergency Medical Dispatch (EMD). This allows SCRT to respond to calls for service indoors as well as outside, and further separates behavioral health crisis response from law enforcement response. Additionally, if SCRT is unable to respond to a call, they are now backed up by an ambulance instead of police. Cumulative counts for this metric are from beginning of Phase 2 forward.*
