Revised Radiology Privilege List

Summary of Changes

New wording in RED below:

36.50 ANGIOGRAPHY/VASCULAR INTERVENTIONAL PROCEDURES

Admission, work up, diagnosis, provision of endovascular and non endovascular care to patients of all adults presenting with illnesses, injuries and disorders who have or will undergo interventional radiologic procedures. Admission pertains only to patients undergoing elective procedures. Performance and interpretation of diagnostic and therapeutic vascular interventional procedures.

<u>PREREQUISITES:</u> Currently Board Admissible, Board Certified, or Re-Certified by the American Board of Radiology in Diagnostic Radiology and currently meets the training requirements for board eligibility by the American Board of Vascular and Interventional Radiology. Alternatively the applicant may be Board Admissible, Board Certified, or Board Re-Certified by the American Board of Neurological Surgery. In addition, the applicant must have training in a neurovascular residency or fellowship that includes endovascular repair, or the applicant has had experience in providing endovascular services at the attending level at an accredited institution.

<u>PROCTORING</u>: Supervision of 3 procedures by a credentialed radiologist in the department. Trainees of the graduates of the UCSF Radiology Training Program hired onto the faculty require supervision of a single procedure.

REAPPOINTMENT: Performance of at least 25 angiography/vascular interventional procedures in the past two (2) years.

36.90 PROCEDURAL SEDATION

<u>PREREQUISITES:</u> The physician must possess the appropriate residency or clinical experience (read Hospital Policy 19.8 SEDATION) and have completed the procedural sedation test as evidenced by a satisfactory score on the examination. Currently Board

Admissible, Board Certified, or Re-Certified by the American Board of Radiology, alternatively the applicant may be Board Admissible, Board Certified, or Board Re-Certified by the American Board of Neurological Surgery, and has completed at least one of the following:

- Currently Board Admissible, Board Certified, or Re-Certified by the American Board of Emergency Medicine or Anesthesia or,
- Management of 10 airways via BVM or ETT per year in the preceding 2 years or,
- Current Basic Life Support (BLS) certification (age appropriate) by the American Heart Association

37.10 CAROTID ARTERY STENTING

Performance and interpretation of therapeutic carotid artery stenting procedures.

<u>PREREQUISITES:</u> Currently Board Admissible, Board Certified, or Re-Certified by the American Board of Radiology in Diagnostic Radiology and Neuroradiology or Interventional Radiology, alternatively the applicant may be Board Admissible, Board Certified, or Board Re-Certified by the American Board of Neurological Surgery. In addition, must have training in a neurovascular residency or fellowship that includes endovascular repair, or the applicant has had experience in providing endovascular services at the attending level at an accredited institution; and performance of 25 carotid stenting procedures.

PROCTORING: Supervision of 1 procedure by a credentialed radiologist in the department.

REAPPOINTMENT: Performance of at least 2 carotid stenting procedures in the past two (2) years.

Privilege	Status	Approved
Rad RADIOLOGY AND NUCLEAR MEDICINE 2022 (02/2022 MEC)		
FOR ALL PRIVILEGES All complication rates, including problem transfusions, deaths, unusual occurrence reports, patient complaints, and sentinel events, as well as Department quality indicators, will be monitored semiannually.		
CORE PRIVILEGES		
36.10 GENERAL DIAGNOSTIC RADIOLOGY		
36.10A PLAIN FILM INTERPRETATION		
<u>PREREQUISITES</u> : Currently Board Admissible, Board Certified, or Re-Certified by the American Board of Radiology.		
PROCTORING: Double reading of 3 studies by a credentialed radiologist in the		
department. Trainees of the graduates of the UCSF Radiology Training Program hired onto the faculty require supervision of a single procedure.		
<u>REAPPOINTMENT</u> : Performance of at least 100 general diagnostic procedures in two years.		
36.10B FLUOROSCOPIC PROCEDURES Performance of fluoroscopic procedures, including contrast studies of the GI and GU tract.		
<u>PREREQUISITES</u> : Currently Board Admissible, Board Certified, or Re-Certified by the American Board of Radiology and a current fluoroscopy license.		
<u>PROCTORING:</u> Double reading of 2 studies by a credentialed radiologist in the department. Trainees of the graduates of the UCSF Radiology Training Program hired onto the faculty require supervision of a single procedure.		
REAPPOINTMENT: Performance of at least 4 general fluoroscopy procedures in two years.		
SPECIAL PRIVILEGES		
36.20 COMPUTED TOMOGRAPHY Interpretation of computed tomographic procedures of any or all organ systems.		
<u>PREREQUISITES</u> : Currently Board Admissible, Board Certified, or Re-Certified by the American Board of Radiology.		
<u>PROCTORING</u> : Double reading of 3 studies by a credentialed radiologist in the department. Trainees of the graduates of the UCSF Radiology Training Program hired onto the faculty require supervision of a single procedure.		
<u>REAPPOINTMENT</u> : Performance of at least 100 computed tomography procedures in the past two (2) years		
36.30 MAGNETIC RESONANCE IMAGING Interpretation of magnetic resonance imaging procedures of any or all organ systems.		

Privilege	Status	Approved
PREREQUISITES: Currently Board Admissible, Board Certified, or Re-Certified by the American Board of Radiology.		
<u>PROCTORING</u> : Double reading of 3 studies by a credentialed radiologist in the department. Trainees of the graduates of the UCSF Radiology Training Program hired onto the faculty require supervision of a single procedure.		
<u>REAPPOINTMENT</u> : Performance of at least 50 magnetic resonance imaging procedures in the past two years.		
36.40 GENERAL SONOGRAPHY (EXCLUDES OBSTETRIC AND GYNECOLOGY) Interpretation of non-OB/GYN ultrasound imaging procedures of any or all organ systems.		
<u>PREREQUISITES</u> : Currently Board Admissible, Board Certified, or Re-Certified by the American Board of Radiology.		
<u>PROCTORING</u> : Double reading of 3 studies by a credentialed radiologist in the department. Trainees of the graduates of the UCSF Radiology Training Program hired onto the faculty require supervision of a single procedure.		
<u>REAPPOINTMENT</u> : performance of at least 100 sonography procedures in the past two (2) years.		
36.41 OBSTETRIC AND GYNECOLOGICAL SONOGRAPHY		
36.41A Obstetric And Gynecological Sonography		
 <u>PREREQUISITES:</u> Currently Board Admissible, Board Certified, or Re-Certified by the American Board of Radiology; AND 1) formal obstetrical ultrasound training in Radiology Residency program; OR 2) 3 month's post residency experience to include: a) 1 month: basic physics, technique, performance and interpretation b) 2 months of practical experience with at least 200 examinations 		
<u>PROCTORING</u> : Double reading of 3 studies by a credentialed radiologist in the department. Trainees of the graduates of the UCSF Radiology Training Program hired onto the faculty require supervision of a single procedure.		
<u>REAPPOINTMENT:</u> performance of at least 100 sonography procedures in the past two (2) years.		
36.41B Obstetric And Gynecological Sonography		
 <u>PREREQUISITES</u>: Currently Board Admissible, Board Certified, or Re-Certified by the American Board of Obstetrics and Gynecology. 1) Completion of Maternal Fetal Medicine subspecialty training or Perinatal Genetics subspecialty training with a minimum of 6 months of training in ultrasound. 2) Joint appointment in the Department of Radiology. 		
<u>PROCTORING</u> : Total studies satisfactorily proctored: 500** abnormal studies satisfactorily proctored: 25** (**subspecialty training included.)		
<u>REAPPOINTMENT</u> : performance of at least 100 sonography procedures in the past two (2) years.		

atients of all adults presenting with illnesses, injuries and disorders who have or will undergo interventional radiologic procedures. Admission pertains only to patients undergoing elective rocedures. Performance and interpretation of diagnostic and therapeutic vascular treventional procedures. PREREQUISITES: Currently Board Admissible, Board Certified, or Re-Certified by the American Board of Radiology in Diagnostic Radiology and currently meets the training requirements for board eligibility by the American Board of Vascular and Interventional Radiology. Alternatively the applicant may be Board Admissible, Board Certified, or Board Re-Certified by the American Board of Neurological Surgery. In addition, the applicant must have training in a neurovascular residency or fellowship that includes endovascular residency or fellowship that includes endovascular residency or fellowship that includes endovascular services at the attending level at an accredited institution. PROCTORING: Supervision of 3 procedures by a credentialed radiologist in the department. Trainees of the graduates of the UCSF Radiology Training Program hired onto the faculty require supervision of a single procedure. REAPPOINTMENT: Performance of at least 25 angiography/vascular interventional procedures in the past two (2) years. 6.60 NON-VASCULAR INTERVENTIONAL PROCEDURES erformance and interpretation of diagnostic and therapeutic non-vascular interventional recedures PREREQUISITES: Currently Board Admissible, Board Certified, or Re-Certified by the American Board of Radiology. PRECOUSTINE: Supervision of 3 procedures by a credentialed radiologist in the department. Trainees of the graduates of the UCSF Radiology Training Program hired onto the faculty require supervision of a single procedure. REAPPOINTENT: Performance of at least 20 non-vascular interventional procedures in the past two (2) years. 6.65 MAGE-GUIDED TUMOR ABLATION erformance of radiofrequency, microwave, or cryoablation of solid organ, lung and soft tiss	Drivilogo	Status	Approved
dmission, work up, diagnosis, provision of endovascular and non endovascular care to attents of all adults presenting with illnesses, injuries and disorders who have or will undergo therventional radiologic procedures.
