Reporting Agencies for Biennial Food Security and Equity Report

Departments in green have additional role in Food Security and Equity Report

DATA COLLECTION – REPORTING AGENCIES

OTHER DATA COLLECTION

- Data not reported by City agencies (example: free meal programs)
- Results of standardized food security screenings in City and community programs
- Qualitative data from residents experiencing food insecurity including how well city programs meet their needs, what is needed to improve food security
- Analysis of system infrastructure to support food security, including:
 - Information and referral systems
 - Community food infrastructure (Ex: kitchens in housing units, food storage, transportation, and workforce)
 - Urban agriculture

FOOD SECURITY TASK FORCE ROLE

The Food Security Task Force shall consult with DPH to **review the Food Security Data Sets received from the Reporting Departments** and **develop recommendations** for inclusion in the Biennial Report, and shall **assist DPH in preparation and presentation** of the Biennial Report to the Board of Supervisors and the Mayor, as specified in subsection (h). The Food Security Task Force may **assist DPH in collecting data from non-City entities** for inclusion in the Biennial Report.

RECOMMENDATIONS

Recommendations for policies, programs, and budget from DPH, the Reporting Departments, and the Food Security Task Force to address the following:

- Food insecurity
- Gaps in resources
- System infrastructure to address health, racial, geographic, age, and other inequities.

NEXT STEPS

- Project team will develop project plan and timeline
- Monthly updates to the FSTF on progress
- Special meetings to review data and develop recommendations
