For any item labeled 'In Conformance', the Department has determined that the actions described in your letter are satisfactory and the standard has been met.

Findings labeled 'Not Yet in Conformance' require completion of the City approved corrective action plan within the timeline established in the plan (or reasonable progress toward completion for longer-term action plans) in order to come into conformance with City monitoring standards.

Standards will be reviewed in next year's monitoring cycle. Per the City's corrective action policy, certain findings repeated in two consecutive years may result in your organization being placed on Elevated Concern status. General nonresponsiveness, including failure to implement or to show reasonable progress toward implementation of an approved plan by the established deadline, may also result in being placed on Elevated Concern status.

Nonprofits remain on Elevated Concern status until they have implemented an approved corrective action plan to the satisfaction of funding City department(s). Nonprofits on Elevated Concern status are usually required to participate in City-monitored technical assistance to address outstanding fiscal and compliance findings. Elevated Concern will not result in defunding, though if a nonprofit is continually unresponsive to technical assistance and remains out of compliance with monitoring requirements, the status may be heightened to Red Flag, for which de-funding is an option. Certain findings repeated in three consecutive years may also result in your organization being placed on Red Flag status.

For more information on Elevated Concern status, as well as the standard monitoring and corrective action process, please review the attached Corrective Action Policy.

Please contact me at <u>415-3555218</u> should you have any questions.

Sincerely,

Gabriel Canale

Lead Monitor
