- IV. Master Fee Schedule (Departmental Fee Budget Submissions)

Background

The Controller's Office previously issued two reports regarding the City and County of San Francisco's fees: (1) a "Master Fee Schedule" in April and (2) a "Fees Certification" in June of each year. For FY 2023-24 and FY 2024-25, these two reports are combined into one document and issued in May. Fees are first organized by municipal code section ("Fees Certification"), then by department ("Master Fee Schedule"). The Master Fee Schedule has all fees in Fees Certification plus additional fees.

(1) FEES CERTIFICATION

This report contains certified fee levels and estimated percentages of cost recovery for Fiscal Year 2023-24 as mandated by various San Francisco Municipal Code sections. Only fees which can be changed administratively by the Controller's Office or the departments without further approval by the Board of Supervisors are reviewed by the Controller's Office. Where authorized, fee adjustments reflect changes in the relevant Consumer Price Index (CPI) as determined by the Controller's Office. In addition to inflation adjustments, some fees are also adjusted to recover additional service delivery costs.

(2) MASTER FEE SCHEDULE

This report contains a summary of licenses, permits, fines and service charges as submitted with each department's Fiscal Years 2023-24 and FY 2024-25 budget proposal, organized alphabetically by department. These data are a compilation of other departmental fees included in the budget submissions and represent each department's estimate of fee revenue and related cost recovery. In the top section of each department's fee schedule is a list of fees for which a department or the Controller's Office can adjust without further approval by the Board of Supervisors, through the "Fees Certification."

DEVELOPMENT

Departments submitted their proposed budgets to the Controller's Office on February 21, 2023. These submissions were to include Budget Form 2B, Department Schedule of Licenses, Permits, Fines & Service Charges. The goal was to ensure that the Controller could compile and forward a list of departmental fee submissions to policymakers and other interested stakeholders informing them of fee levels and related levels of cost recovery. The fees outlined in this schedule are not comprehensive; there are fees that are authorized to be collected but not budgeted (and therefore not reflected in Form 2B).

While most departments submitted the budget forms as requested, some departments have no fees and are noted as such. Additionally, some departments have particularly complex fee

schedules that make it more difficult to summarize their data into Budget Form 2B. In these cases, additional attachments are provided.

BACKGROUND ON FEES, CHARGES & RATES FOR CALIFORNIA MUNICIPALITIES

State and local governments impose regulatory fees on businesses and individuals to pay for the cost of public programs or projects necessary to regulate activity of the business or person. Before Proposition 26 passed on November 2, 2010, cities had the general authority to impose fees, sometimes called charges or rates, under the police power as defined by Article XI, Section 7, and under the public works power as defined in Article XI, Section 9 of the California Constitution.

Proposition 26 added a new definition of "tax" into the California Constitution (California Constitution, Article XIII C, Sec. 1 (e) providing that any government-imposed charge, levy or exaction of any kind is a tax that is subject to requirements for voter approval and constitutional limitations unless it falls under one of seven exemptions. Fees adopted prior to November 2, 2010, are not subject to the measure until they are increased or extended, and it is determined that none of the exemptions applies.

The categories of charges exempt from Proposition 26 are:

1. A charge imposed for a specific benefit conferred or privilege granted directly to the payer that is not provided to those not charged, and which does not exceed the reasonable costs to the local government of conferring the benefit or granting the privilege.
2. A charge imposed for a specific government service or product provided directly to the payer that is not provided to those not charged, and which does not exceed the reasonable costs to the local government of providing the service or product.
3. A charge imposed for the reasonable regulatory costs to a local government for issuing licenses and permits, performing investigations, inspections, and audits, enforcing agricultural marketing orders, and the administrative enforcement and adjudication thereof.
4. A charge imposed for entrance to or use of local government property or the purchase rental or lease of local government property.
5. A fine, penalty, or other monetary charge imposed by the judicial branch of government or a local government as a result of a violation of law.
6. A charge imposed as a condition of property development.
7. Assessments and property-related fees imposed in accordance with the provisions of Article XIII D, established by Proposition 218, which defined a subset of user fees called property-

related fees imposed to fund a property-related service. Specific substantive restrictions and procedures in state statutes and in the California Constitution must be followed to impose such fees.

ELIGIBLE COSTS IN SETTING FEES

In cases where fee levels are intended to recover the full cost of service, both direct and indirect expenses should be included. Indirect costs are costs incurred for a common or joint purpose, benefiting more than one program in a department, and are not directly assignable to a particular program without efforts disproportionate to the level of cost allocation achieved. Indirect costs should include both (1) the overhead costs for the unit performing the function related to the fee and (2) the costs of central government services distributed through the cost allocation plan (COWCAP) and not otherwise treated as a direct cost. Examples of costs typically treated as indirect are: utilities, rent, administrative staff, and equipment rental.

Direct costs are for activities or services that benefit specific projects, e.g., salaries for project staff and materials required for a particular project. Bank charges and other costs of processing payments -- including credit card processing fees online and over-the-counter, are considered eligible costs and should be included as costs in setting fee levels. In many cases departments also have the option of assessing a service fee to cover the cost of in-person and on-line card payment transactions.

Re: SFFD Revenue Report FY 2023
Date: May 8, 2023

According to the San Francisco Fire Code, Article 1, Section 113.21, Fee-Setting Procedure, each year the Chief shall report the revenues received from each type of fee collected by the department, the costs, both direct and indirect, incurred in providing the services for which the fee is assessed, the anticipated costs for the ensuing fiscal year and the rates which would be necessary to support such cost for each type of fee. The report shall be filed with the Controller pursuant to the provisions of the San Francisco Administrative Code.

The Fire Department is providing the information required by the Fire Code in the paragraphs below.

Fire Prevention Services	20,336,004	17,364,600	2,971,404	85.4%

Anticipated Costs for Fiscal Year 2024 and Recommended Rates

The Fire Department has analyzed its Emergency Medical and Fire Prevention Fees for Service in light of current service costs, negotiated wage increases for uniform staff members and other personnel costs, and indirect costs. The Fire Department's proposed fees are shown in Attachment 1.

Fees automatically adjusted by the CPI

The Fire Department has two sets of fees that are allowed to be automatically adjusted by the stipulated CPI index, provided that the Department does not calculate and submit a separate request to change the fees. The Fire Department is proposing increases to ambulance fees and Fire Prevention fees per the CPI increase.
