# **Citywide Affordable Housing Loan Committee**

San Francisco Mayor's Office of Housing and Community Development Department of Homelessness and Supportive Housing Office of Community Investment and Infrastructure Controller's Office of Public Finance

#### MEMORANDUM

**DATE:** MARCH 3, 2023

TO: CITYWIDE AFFORDABLE HOUSING LOAN COMMITTEE

FROM: SARA AMARAL, DIRECTOR OF HOUSING DEVELOPMENT

# **RE:** 555 LARKIN – ADDITIONAL GAP COMMITMENT FOR PG&E DELAYS

2015 GO BONDS	\$13,904,731 (Previously Committed)
HOME	\$3,600,000 (Previously Committed)
AHF INCLUSIONARY	\$2,074,269 (Previously Committed)
HOUSING TRUST FUNDS	\$4,226,311
TOTAL	\$23,805,311

TOTAL COMMITMENT REQUESTED: \$4,226,311

4840 MISSION – ADDITIONAL	GAP COMMITMENT FOR PG&E DELAYS
2019 GO BONDS	\$21,91,653 (Previously Committed)
AHF INCLUSIONARY	\$2,359,797 (Previously Committed)
CPMC	\$2,000,000 (Previously Committed)
2019 GO BONDS	\$2,185,950
HOUSING TRUST FUNDS	\$6,791,3 <u>57</u>
TOTAL	\$34,728,757
TOTAL COMMITMENT REQUE	STED: \$8,979,307

#### 1. SUMMARY OF REQUEST

Until 2015, all MOHCD projects received power directly from PG&E. Per Ordinance 247-14 amending Section 99.1 of the City Administrative Code, effective as of January 16, 2015, projects built on City-owned land are now required to study the feasibility of using San Francisco Public Utilities Commission (SFPUC) as the permanent power source. Affordable housing projects funded by the Mayor's Office of Housing and Community Development (MOHCD) are experiencing higher than anticipated construction costs and extensive schedule delays due to the design and delivery of permanent electrical power. Delays and cost increases are affecting nearly every project in the MOHCD pipeline, including recently completed projects, projects under construction, and

#### 555 LARKIN – ADDITIONAL GAP COMMITMENT FOR PG&E DELAYS 4840 MISSION – ADDITIONAL GAP COMMITMENT FOR PG&E DELAYS LOAN COMMITTEE: MARCH 3, 2023

projects in predevelopment. MOHCD staff analysis shows at least nine projects are experiencing delays and overruns of approximately \$41M combined. The two projects below represent the first MOHCD pipeline projects implicated by delays and costs overruns, that need City support to deliver the housing units. MOHCD has a fiscal and operational obligation to deliver housing units presently. Mayor Breed's Housing For All Mayoral Directive 23-01, dated February 7, 2023, calls out the requirement for better interagency coordination and cost reduction.

This Additional Gap Loan request is for two new construction projects that have additional costs related to the PG&E power delays and cost increases:

- 555 Larkin (formerly known as 500 Turk) is a 108-unit affordable housing development that started construction in February of 2020, and was expected to be completed by December 2021. The Project is seeking \$4,226,311 of additional financing to offset costs associated with PG&E infrastructure that was required after construction start, as well as costs related to the approximately 10 month delay in obtaining permanent power to the Project, resulting in delays to tenant lease up and permanent financing conversion.
- 4840 Mission Street (aka Islais Place) is a 137-unit affordable housing development that started construction in June 2021. The Project is expecting a 6-month delay to completion and lease up, with the new completion date estimated to be December 2023. The Project is seeking \$8,977,307 of additional financing to offset costs associated with PG&E infrastructure required after construction start and costs related to delays of completion.
  - While not required for Loan Committee recommendation, the4840 Mission will also be seeking Board of Supervisors (BOS) approval for two utility easements that are now required on the property. The form of easements has been approved by the City Attorney and returned to PG&E. Staff is still awaiting PGE to finalize the processing of the map in order to complete the final design of the utilities. This work is generally completed during the predevelopment process, which was between 2016 and 2021. Since this was not completed due to coordination issues with PG&E and SFPUC during that time, the construction of the utility improvements is further delayed until these easements are recorded.

#### 2. BACKGROUND ON PG&E ISSUES

Until 2015, all MOHCD projects received power directly from PG&E. Per Ordinance 247-14 amending Section 99.1 of the City Administrative Code, effective as of January 16, 2015, projects built on City-owned land are now required to study the feasibility of using San Francisco Public Utilities Commission (SFPUC) as the permanent power source. While the study of using SFPUC as the power provider allows for cost to be considered before committing to SFPUC, in actual practice the cost difference between using SFPUC versus directly contracting with PG&E is not known until further along in the design process, when potentially switching providers becomes infeasible due to construction timing constraints on affordable housing developments.

SFPUC-powered projects rely on PG&E's distribution infrastructure to bring power to the project sites, and PG&E classifies these projects as "Wholesale Distribution Tariff" (WDT) customers instead of "Retail" customers. A Retail customer project would rely on PG&E crews to bring power to the project site from the closest available tie-in point. PG&E would also complete any off-site improvements needed to increase the available capacity at the tie-in point. PG&E would charge the project for this work but would partially reimburse the customer, should subsequent developments also utilize these improvements. As a WDT customer, an affordable project is responsible for any trenching work to connect to the tie-in point, while PG&E completes the

#### 555 LARKIN – ADDITIONAL GAP COMMITMENT FOR PG&E DELAYS 4840 MISSION – ADDITIONAL GAP COMMITMENT FOR PG&E DELAYS LOAN COMMITTEE: MARCH 3, 2023

actual wire work. This adds significant cost and logistical difficulties that would not be the case for a Retail project. Unlike a Retail project, a WDT project has no opportunity for reimbursement for PG&E-owned infrastructure improvements that subsequently benefit other new developments. Without increased transparency on PG&E's part, it is impossible to know whether MOHCD WDT projects are burdened with larger scopes of work to connect to vaults that are further afield from the jobsite than would be for a Retail project.

After an initial WDT agreement was reached for a more costly and burdensome Primary Service with Low Side Metering arrangement for the first round of affordable WDT projects that were under design review in 2016-2019, PG&E and SFPUC engaged in a prolonged negotiation process for subsequent WDT projects, which resulted in a Secondary Service design approach. While Secondary Service should prove to be cheaper and simpler than the earlier Low Side Metering approach in the long run, all WDT application processing was stalled during the lengthy negotiations, resulting in several projects starting construction without knowing a permanent power design. When PG&E finally issued the "Draft Supply Agreement" for these projects, the designs required much larger hard costs than the projects had budgeted. Moreover, the time taken to progress from "Draft" to "Final" Supply Agreement was longer than normal, often over 6 months, resulting in delays to project completion on several projects, further adding to cost increases. On at least three projects (555 Larkin, 2340 San Jose, and 4840 Mission), these cost overruns will be requested as additional loans from MOHCD, which will require Board of Supervisors approval. Other projects will follow suit, pending the issuance of the final design.

Compounding these issues is a recent moratorium on work notice from PG&E, sent to both Retail and WDT projects, noting PG&E is receiving more field work requests than has staffing capacity, leading to cancelations and additional delays to scheduled work. It is unclear to MOHCD if PG&E's staffing challenges have been resolved, or if PG&E might continue and cause ongoing delays on future projects.

# 3. BACKGROUND AND SUMMARY OF ISSUES - 555 Larkin

Tenderloin Neighborhood Development Corporation ("TNDC") is the nonprofit affordable housing developer of 555 Larkin. In 2019, the project team for 555 Larkin submitted a permanent power design to PG&E, prepared by a joint-trench consultant, Urban Design Consulting Engineers, through SFPUC. The design intent was based on physical testing and scanning of the site, as well as available PG&E infrastructure maps, which included vaults on both Larkin and Turk Streets. The project received final permanent power approval on the design from PG&E in October 2020 and executed the associated contract the same month.

When 555 Larkin's general contractor (GC) began the trenching for permanent power in October 2021, unmarked PG&E utilities and infrastructure were discovered along Larkin St. This infrastructure conflicted with the vault locations PG&E had approved in the approved permanent power drawings and made the plan unworkable as designed.

SFPUC (in coordination with the GC and joint-trench consultant) proposed a new path of travel/vault locations and asked PG&E to accept as an "in-the-field" design change. Despite months of advocacy from December 2021 through January 2022 by MOHCD, and SFPUC, and outreach by Judson True, Director of Housing Delivery, PG&E refused to accept the revised design as an in-field change, instead mandating that project return to the design stage, and refused to expedite the normal 3-4 month turnaround for design approval.

SFPUC submitted revised permanent power drawings to PG&E in January 2022, a month after construction was originally supposed to be completed. PG&E did not approve the redesigned vault layout until April 2022. Power work was able to begin in May 2022 and the building was energized in September 2022, a full nine months after originally scheduled completion date.

Due to these delays, TNDC could not begin leasing units until the end of 2022, six months later than expected. The delay pushed out the conversion schedule to the point TNDC will have to renegotiate its permanent loan in a much higher interest rate environment. These factors are all resulting in a financing gap for this Project.

### A. Update on Project Financing – 555 Larkin

The Citywide Loan Committee approved a Gap Commitment of up to \$32,400,000 on October 18, 2019 (See Exhibit A for 555 Larkin Loan Committee Approval) for 555 Larkin, which included \$12,250,000 for site acquisition, resulting in a Gap loan amount of \$20,150,000. This amount also included a \$1.25M bridge loan for financing from the Federal Home Loan Bank (FHLB) Affordable Housing Program (AHP). The October 2019 loan evaluation assumed a December 2021 construction completion date and a permanent conversion of construction financing by December 2022. At construction close, the MOHCD Gap loan amount was lowered to \$19,579,000, also including the \$1.25M from AHP. TNDC is requesting up to changes to the repayment terms of the AHP funds as the project was not successful in obtaining the award, as well as \$4.2M in additional gap financing for these cost overruns and delays to 555 Larkin for the following reasons:

- 1. PG&E delays caused 555 Larkin to extend its construction loan term and thus lose its permanent loan rate lock of 3.67%. 555 Larkin has had to renegotiate a permanent loan in a much higher interest rate environment.
  - a. At construction closing in February 2020, 555 Larkin assumed \$10.9M permanent loan at a locked 3.67% rate for a 35 year amortization. The Project is now estimating a rate of 5.73% with a 25 year amortization, due in full. This increase in rates will only allow the Project to support a \$8.6M permanent loan, a decrease of \$2.3 million and this loss is covered by the additional City loan requested in this memo. 555 Larkin was unable to take on a longer term of 35 years due to tax credit feasibility in year 16 of the project, when the tax credit investor vacates the transaction.
  - b. The delays have also led to downward equity adjusters and a loss of tax credit equity due to missed lease-up targets. At construction close \$30,803,465 in equity was anticipated to be contributed to the project. Because of lease up delays, the equity contribution was reduced by \$1,074,629 to \$29,728,836, a loss which is covered by the additional City loan requested in this memo.
  - c. PG&E has delayed permanent loan conversion and caused the Project to carry an additional 10 months of construction loan interest, at a high interest rate of about 6%. If 555 Larkin were not delayed, the construction loan interest would have been around 2.5%, but due to current market conditions, the construction rates have increased considerably. This totals \$2.8M in additional construction loan interest at an average of \$225,000 per month.
- The PG&E delays have also created direct, hard costs impacts to the Project. These include extended general conditions for the GC (\$750K/\$75K a month), additional generator usage for site power (\$120K/\$12K per month), change orders for the new permanent power design (\$200K), and additional consultant billing for the architect, owner's construction manager, security, etc. (\$350K/\$35k per month).

This request assumes all lottery units will be leased by February 28, 2023, and HOPE SF unit lease-up extended to May 31, 2023. If lease up occurs more quickly, the Project will avoid the full lease-up adjuster of approximately \$1M, pay less construction loan interest, and effectively be able to convert sooner than December 2023. Any costs savings will be returned to MOHCD.

This request is also intentionally modeled using conservative assumptions related to construction loan interest carry and rates, based on information about planned Federal Reserve rate increases and input directly from the TNDC's financial consultant. If the market stabilizes, the amount funds needed for permanent conversion later in 2023 will decrease.

555 Larkin Sources & Uses – Additional Gap				
	Gap Approval	This Request		
	Oct-19	Mar-23		
Source	Original Amount	New Amount	Delta	% Change
Original MOHCD	\$18,329,000	\$23,805,311	\$5,476,311	30%
AHP	\$1,250,000	\$0	-\$1,250,000	-100%
LP Equity	\$30,803,465	\$29,787,566	-\$1,015,899	-3%
Perm Debt	\$10,953,000	\$8,652,000	-\$2,301,000	-21%

Reserves	\$2,287,186	\$1,067,557	-\$1,219,629	-53%
Developer Fee	\$9,578,937	\$9,578,937	\$0	0%
Total	\$82,414,302	\$83,323,715	\$909,413	1%

<u>AHP:</u> At construction close, 555 Larkin had assumed \$1.25M in AHP award. However, 555 Larkin was not competitive. The project applied for AHP in 2020 but ultimately was below the threshold and not competitive for an award. The project did not reapply in 2021 or 2022 because scoring analysis (which was shared and discussed with MOHCD) showed the project was still not competitive. Per the Amended

was shared and discussed with MOHCD) showed the project was still not competitive.\_Per the Amended and Restated Loan Agreement in the amount of \$19,579,000 dated January 17<sup>th</sup>, 2020, the MOHCD loan bridged an AHP award of up to \$1.25M, with the condition that the bridge loan be repaid during construction upon award from AHP, or any part thereof. However, due to not being competitive for the award, the Sponsor is requesting a change to the repayment terms, from the full \$1.25M to be repaid through residual receipts under the 55 year loan term consistent with the remainder of the MOHCD permanent loan.

<u>Reserves</u>: The Sponsor has asked HCD to reduce the reserve requirements for 555 Larkin, based on the new changes to the program recently approved by the state. This would save the project over \$1.2M in reserves, further helping to reduce the increase from MOHCD. Staff is awaiting to hear back from HCD and expects HCD to make this change to align with the updated guidelines.

# C. Operating Budget Updates – 555 Larkin – Exhibit C

The Project Sponsor is projecting reasonable increases in project operating costs of approximately \$200K. These increases also reduced the amount the Sponsor could take in permanent debt.

<u>Staffing</u>: Staffing levels did not increase, but wages did increase by \$20K, which is on par with other projects currently in development.

#### 555 LARKIN – ADDITIONAL GAP COMMITMENT FOR PG&E DELAYS 4840 MISSION – ADDITIONAL GAP COMMITMENT FOR PG&E DELAYS LOAN COMMITTEE: MARCH 3, 2023

<u>Utilities</u>: Overall, this was the largest increase for the project, at an increase of \$120K annually, for trash services and water.

Insurance: Cost of insurance increased by approximately \$88K, to \$133K per year, which is also on par with other projects currently in development.

# 4. BACKGROUND AND SUMMARY OF ISSUES - 4840 MISSION

BRIDGE Housing Corp (BRIDGE) is the nonprofit affordable housing developer of 4840 Mission Street (4840 Mission), recently renamed Islais Place. In May of 2020, the project team submitted an application to SFPUC and PG&E for permanent power. The application was prepared by a joint-trench consultant, Urban Design Consulting Engineers, through SFPUC. The design intent was based on civil survey and PG&E record maps and included two subsurface transformers on-site. PG&E, through SFPUC, asked the team to resubmit the application under the terms of the new SFPUC and PG&E agreement, but would not accept the resubmittal until the agreement was final. Due to SFPUC and PG&E negotiations, the application submittal was delayed for over a year and was ultimately allowed to be submitted by SFPUC in September 2021, three months after construction on the housing started. Eighteen months later, the Project is still awaiting approval of the application for permanent power. The team has been advised that the approval could be received in May of 2023, which would make for a total PG&E application review period of 3 years and a total project schedule delay of seven months.

In May of 2022, PG&E assigned 4840 Mission a tie-in location 1,800 linear feet from the site. The design and construction budget, which PG&E received in September 2021, contemplated the closest logical tie-in based on PG&E record maps, which was approximately 30 feet from the site, as is customary for new multifamily construction. PG&E frequently revises proposed tie in locations based on their proprietary capacity data, but a revised tie-in location so far from the site is highly unusual. As mentioned above, since 4840 Mission is not a PG&E Retail project, the Project must bear the full cost of bringing power from the tie-in to the site. The additional trenching and conduit necessary to access the assigned tie-in location adds approximately \$5.04M in unanticipated costs. The trenching scope of work will take approximately two months, and the team cannot begin the work until PG&E provides the final design for permanent power. PG&E has stated that it will provide the final design as a part of the permanent power application approval, anticipated in May of 2023. While reviewing the permanent power application, PG&E determined it needed two easements on the site, which has a City ground lease. Since the easements were not requested or disclosed during predevelopment (2016 to 2021), an easement request was not part of the survey for which the ground lease was based. Had the PG&E and SFPUC relationship been more collaborative, a meeting to request and resolve easements related to City-owned land would have taken place after BRIDGE submitted the PG&E application, allowing the easement to part of the land survey upon which the ground lease was based. Returning to BOS for approval of the easement, increases staff time and cost for the City, as well as delays to the construction of the improvements until the easements are recorded.

The delayed issuance of PG&E's final design for permanent power is impacting the construction schedule. The existing construction schedule delay is four months and continue to increase. With the exception of connection to power, 4840 Mission is otherwise on schedule and the 4840 Mission General Contractor will deliver the building substantially complete on June 27, 2023. Assuming PG&E approves 4840 Mission's permanent power application by May 2023, as stated, the building will sit vacant and nonoperational, without connection to power, and therefore without a Certificate of Occupancy, for approximately seven months.

Recent increases in interest rates have resulted in a projected construction loan interest rate of 8.21% (blended rate) compared to underwritten interest of 3.25% at construction closing in June 2021, for the Bank of America construction loan of \$66.6M. The budgeted construction interest reserve is insufficient to cover additional

construction interest costs through completion, particularly the additional seven months of interest incurred by the delay.

#### A. Update on Project Financing – 4840 Mission

The Citywide Loan Committee approved a Gap Loan of \$28,751,450 on February 19, 2021 (See Exhibit D for 4840 Loan Committee Approval). This amount was reduced to \$25,751,450 at construction close, which included a bridge loan for \$1.25M in financing from the Federal Home Loan Bank (FHLB). The Board of Supervisors approved the loan on May 4, 2021. The approved loan was based on a June 2023 construction completion date. BRIDGE is requesting \$8.98M in additional gap financing for these cost overruns and delays to 4840 Mission for the following reasons:

- i. The PG&E-assigned tie-in location necessitates a \$5.04M underground trenching scope for the project to lay conduit to reach the tie-in point. This was not originally contemplated in the budget which in June 2021 included an anticipated \$300,000 in hard costs to reach the presumed tie-in point.
  - a. Included in the \$5.04M figure are all hard cost impacts created by the PG&E delays. These include PG&E's Installation Charge and Tax (\$1.02M), the cost of the trenching scope (\$1.7M), extended general conditions for the GC (\$240K a month), change orders for the new permanent power design (\$260K), and additional consultant billing for the architect, owner's construction manager, security, etc. (\$150K/\$21K per month).
  - b. With a 7-month delay, 4840 Mission will miss its lease up targets.
  - c. The PG&E delays have also caused 4840 Mission to carry 7 months of additional construction loan interest. Due to the interest rate environment, this rate is 4.96% higher than the rate secured at the time of 4840 Mission's construction financial closing, which was 3.25%. The increase interest rate on the \$66.6M construction loan results in \$5.9M in additional construction loan interest.

This request is modeled based on all lottery units being leased by October 1, 2024, including the 35 HOPE SF units. It makes conservative assumptions related to construction loan interest carry and rates, based on information about planned Federal Reserve rate increases and input directly from the BRIDGE financial consultant. If the market stabilizes, decreases in the rates would help decrease the needed gap for permanent conversion in 2025.

On a positive note, 4840 Mission's increased construction loan interest is expected to generate an upward equity adjuster of \$779,238. The Project is now projecting total tax credit equity of \$50,416,986, up from \$49,637,748 at closing. This increase in equity, plus the use of construction contingencies reduces the total request to \$8.98M, which includes \$5.04M in PG&E direct costs and another \$3.94M in additional financing costs.

#### B. Updated Sources and Uses Summary – 4840 Mission – Exhibit E

# 4840 Mission Sources & Uses – Additional Gap

	Gap Approval	This Request		
	Jun-21	Mar-23		
Permanent Sources	Original Amount	New Amount	Delta	% Change
MOHCD	\$24,501,450	\$34,728,757	\$10,227,307	42%
AHP	\$1,250,000	\$0	-\$1,250,000	-100%

#### 555 LARKIN – ADDITIONAL GAP COMMITMENT FOR PG&E DELAYS 4840 MISSION – ADDITIONAL GAP COMMITMENT FOR PG&E DELAYS LOAN COMMITTEE: MARCH 3, 2023

Perm Debt	\$24,550,000	\$24,550,000	\$0	0%
MNHC	\$3,000,000	\$3,000,000	\$0	0%
LIHTC	\$50,416,989	\$50,416,989	\$0	0%
Gp Equity	\$100	\$100	\$0	0%
Deferred Dev Fee	\$2,118,779	\$2,118,779	\$0	0%
Total	\$105,837,318	\$114,814,625	\$8,977,307	8%

Permanent Uses	Original Amount	New Amount	Delta	% Change
Acquisition	\$825,000	\$825,000	\$0	0%
Hard Costs	\$85,366,484	\$89,404,211	\$4,037,727	5%
Soft Costs	\$13,821,096	\$18,760,676	\$4,939,580	36%
Reserves	\$835,859	\$835,859	\$0	0%
Developer Fee	\$4,988,879	\$4,988,879	\$0	0%
Total	\$105,837,318	\$114,814,625	\$8,977,307	8%

This request is for an increase of \$8,977,307 in \$4,037,272 in hard costs and \$4,939,580 in soft costs related to the PG& E delays. At the time of Gap closing, the 4840 Mission team was required to apply to the Federal Home Loan Bank (FHLB) of San Francisco's Affordable Housing Program (AHP) to offset MOHCD Gap, with MOHCD carrying an AHP Bridge loan of \$1,250,000, for a total MOHCD Gap of \$25,751,450. To date, the project team has not believed 4840 Mission to be competitive for this funding and has not applied.

For the 2023 AHP round, the Project team has assessed a self-score of 63 points, or 2.5 points less than last year's award minimum of 65.5 points. Due to the nature of this increase, the Project team will be required to apply to AHP to reduce the MOHCD gap. In the event that the team is not successful in the 2023 Round, the project team will be required to apply in subsequent rounds, or until 4840 Mission has completed construction. In addition, the project team should look to other FHLBs to see if other financing options are available to offset MOHCD Gap. If 4840 Mission is unable to receive an award from AHP, then the Project team will return to Loan Committee to request a change to the term of their MOHCD loan, at permanent conversion of the project.

# C. Operating Budget Updates – 4840 Mission

BRIDGE is not requesting any update to the operating budget and believes the numbers provided at Gap approval remain correct. Please see Exhibit D for the Operating Budget provided at construction close.

# 4. STAFF RECOMMENDATION

MOHCD recommends approval of these loans and the conditions below.

# 5. LOAN CONDITIONS

# **Conditions for 555 Larkin**

• MOHCD will monitor the rate of lease up and interest rates to determine if any savings can come back to the Department. Any savings from the total amount requested here - from faster than expected lease up, lower interest rates or any other factor - will be used to reduce the additional MOHCD loan.

• Project Sponsor will provide updated OPEX within 3 months of permanent conversion and will hold costs constant or look to reduce costs where available.

#### **Conditions for 4840 Mission**

- MOHCD will only disburse funds to pay off 4840 Mission general contractor to prevent construction lien releases and cover PG&E and SFPUC required costs, estimated to total \$5.04M. The remaining funds, if needed will be disbursed as part of the permanent loan conversion.
- Sixty (60) days prior to permanent conversion, MOHCD will re-evaluate the operating expenses to determine that that the permanent loan supports the Project and leverages MOHCD final contribution through escrow. If the permanent loan is increased, MOHCD's contribution at permanent loan conversion will be decreased. If the permanent loan value remains the same, MOHCD will only put in enough funds to close the permanent loan. Any unexpended funds will be disencumbered.
- 4840 Mission project team will work with the Housing Authority of San Francisco (SFHA) to execute the project based voucher contract at construction completion. Once executed with the SFHA approved rents, all 35 project based voucher units will be increased rents to the 2023 rents and the entire first-year operating budget and 20-year cash flow will be updated and finalized in the MOHCD format. The entire first-year operating budget and 20-year cash flow will be re-evaluated by MOHCD, and the commercial permanent loan will be resized. Any increases to the permanent loan will reduce the City loan by the equivalent amount. Unreimbursed amounts will be disencumbered by the City. If the loan has been fully disbursed, the Sponsor will return any savings to the City at the conversion.
- Once 95% occupancy is achieved, Sponsors are required to provide the stabilized occupancy calculation to MOHCD.
- Sponsors must allow MOHCD to verify all costs to permanent loan conversion. All Project costs including insurance must be finalized with the MOHCD loan amount finalized with all cost and sources verified before payment At Risk Developer Fee of \$1,470,000.00, as defined in the Developer Fee Agreement between MOHCD and Sponsors dated June 1, 2021.
- Project team will be required to apply to AHP to reduce the MOHCD gap. In the event that the team is not successful in the 2023 Round, the project team will be required to apply in subsequent rounds, or until 4840 Mission has completed construction. In addition, the project team should look to other FHLBs to see if other financing options are available to offset MOHCD Gap. If 4840 Mission is unable to receive an award from AHP, then the Project team will return to Loan Committee at permanent conversion to request a change in the MOHCD repayment terms.

# GAP COMMITMENT FOR PG&E DELAYS FOR 555 LARKIN AND 4840 MISSION ST

Menjivar, Salvador (HOM) <salvador.menjivar1@sfgov.org>

Fri 3/3/2023 12:59 PM

To: Shaw, Eric (MYR) <eric.shaw@sfgov.org>

Cc: Ely, Lydia (MYR) <lydia.ely@sfgov.org>;Amaya, Vanessa (MYR) <Vanessa.Amaya@sfgov.org>

I approve TNDC request for \$4,226,311 of additional financing to offset costs associated with PG&E infrastructure that was required after construction started at 555 Larkin (formerly known as 500 Turk).

I also approve Bridget Housing Co. request for up to \$8,977,307 of additional financing to offset costs associated with PG&E infrastructure required after construction started and costs related to delays of completion at 4840 Mission Street (aka Islais Place).

Best,

salvador

# **Citywide Affordable Housing Loan Committee**

San Francisco Mayor's Office of Housing and Community Development Department of Homelessness and Supportive Housing Office of Community Investment and Infrastructure

# 500 Turk Street \$10,675,269 Permanent Loan and \$1,250,000 Bridge Loan Total Request: Up to \$32,400,000

Evaluation of Request for: Loan Committee Date:	Gap Funding and Bridge Loan October 18, 2019
Prepared By:	Joyce Slen
Source of Funds Recommended:	<ul><li>\$1,250,000 – AHF Inclusionary (for Bridge Loan)</li><li>\$4,995,269 - AHF Inclusionary</li><li>\$5,680,000 - 2015 GO Bonds</li></ul>
NOFA/PROGRAM/RFP:	Prop A NOFA 2016
Total Previous City Funds Committed:	\$20,474,731 - 2015 GO Bonds
Applicant/Sponsor Name:	Turk 500 Associates, L.P. (Tenderloin Neighborhood Development Corporation (TNDC))
Total Funding (up to):	\$32,400,000

#### **EXECUTIVE SUMMARY**

#### **Sponsor Information:**

Project Name:	500 Turk Street	Sponsor(s):	TNDC
Project Address (w/ cross St):	500 Turk Street, SF 94102	Ultimate Borrower Entity:	Turk 500 Associates, L.P.

#### **Project Summary:**

500 Turk, also known as 555 Larkin/500-520 Turk Street ("the Site") is a proposed 108-unit housing development (including retail space) for low-income families earning between 30%-80% Area Median Income, ("MOHCD AMI"), averaging to no more than 60% MOHCD AMI. The project was selected for development funding under MOHCD's Proposition A Notice of Funding Availability ("NOFA") issued in April 2016.

Tenderloin Community Development Corporation ("TNDC") acquired 500 Turk Street in December 2016 using a Loan Committee-approved private mortgage from Enterprise Community Loan Fund, Inc. In an effort to reduce interest payments and overall project expenses, the City paid off the Enterprise loan, provided additional predevelopment funds, and made a preliminary gap commitment, which was a requirement under the state Affordable Housing and Sustainable Communities Program ("AHSC") in December 2018. TNDC is requesting gap funding in the amount up to \$11,925,269, for a total MOHCD gap loan amount of up to \$32,400,000, \$12,250,000 of which was for site acquisition and is not included as a source to the project because the City will own the land.

The 108-unit building consists of 23 studios, 21 one-bedroom units, 50 two-bedroom units and 14 three-bedroom units, with one of the one-bedroom units serving as an unrestricted manager's unit. The ground floor will house 2,380 square feet ("SF") of commercial space that will be community-serving retail. The project will also include 27 project-based voucher ("PBV") units reserved for families wishing to relocate from HOPE SF public housing sites to the project.

<u>I I Oject Description.</u>			
Construction Type:	Type IA	Project Type:	New construction
Number of Stories:	8	Lot Size (acres and sf):	.434 acres / 18,906 SF
Number of Units:	108	Architect:	David Baker Architects (DBA)
Total Residential Area:	82,805 SF	General Contractor:	James E. Roberts-Obayashi Corporation (JERO)
Total Commercial Area:	2,380 SF	Property Manager:	TNDC
Total Building Area:	109,391 SF	Supervisor and District:	Matt Haney (D6)
Land Owner:	TNDC		
Total Development Cost (TDC):	\$85,957,406	Total Acquisition Cost:	\$1,853,895*
TDC/unit:	\$795,902	TDC less land cost/unit:	\$777,736
Loan Amount Requested:	\$11,925,269	Request Amount / unit	\$300,000 (including AHP Bridge Loan)
HOME Funds?	No	Parking?	None

**Project Description:** 

\* The purchase price of \$12,250,000 is not included in L.P. budget. Acquisition cost in the budget includes cost for closing, broker and title fees, and lease buyout expenses.

#### PRINCIPAL DEVELOPMENT ISSUES

- 1. **High Costs -** Total development cost per unit are just under \$800,000 per unit, which is comparable to other sites in development. This per unit amount is achieved after reducing the unit count from 122 to 108, at MOHCD's request, in order to reduce the number of studios and increase the number of multi-bedroom units. The per unit acquisition cost based solely on the purchase price of \$12,250,000 amounts to \$113,426 per unit which is approximately 8% higher than the average of predevelopment projects in the pipeline that paid market purchase prices. With very few opportunities to develop buildings with a high number of multiple bedrooms in the Tenderloin, the acquisition price and reconfiguration was justified. See Section 6.4 Proposed Permanent Financing for a breakdown of all permanent uses that contribute to the total development costs.
- 2. AHP TNDC proposes to compete for the Federal Home Loan Bank of San Francisco (FHLB-SF) Affordable Housing Program (AHP) funds as an additional capital resource to the project in 2020. As part of this request, TNDC is requesting MOHCD bridge the AHP loan. TNDC's self-score will be competitive for a \$1.25MM or \$11,574/unit AHP request based off the scores from the latest round. MOHCD and TNDC will continue to identify strategies to maximize points for a competitive application to secure AHP funds. See Section 6.4.1(2) MOHCD AHP Bridge Loan for more information and Section 9.2 Recommended disbursement conditions/schedule.
- 3. **Commercial Space(s)** TNDC has not yet identified commercial tenant(s) for the one or two commercial spaces and has not provided MOHCD staff with a commercial space plan prior to this gap request. A condition to the commercial developer fee disbursement are MOHCD approval of a commercial space plan (which includes research of alternate funding sources for tenant improvements), a commercial space budget, executed Letter of Interests (LOIs), and executed lease agreement(s). See Section 4.4 Commercial Space for more information and Section 9.2 Recommended disbursement conditions/schedule.
- 4. Guaranteed Investment Account (GIC) Earning The project is pursuing a cash-collateralized public sale bond structure. This approach is an effort to maximize the City's bond issuer fee, which helps support overall MOHCD programs. Bond proceeds are placed in an interest bearing Guaranteed Investment Account (GIC), estimated to earn \$2.2MM as a source to the project. However, recent legal counsel interpretation precludes some of the investment earning assumptions to be retained as part of the deal, consequently exposing the project to a financial gap. TNDC and MOHCD staff will continue to work closely with CHPC and the City's Financial Advisor to identify further strategies to pursue the public sale bond structure prior to closing. See Section 6.4.1(5) Guaranteed Investment Certificate (GIC) Earning for more information and Section 9.2 Recommended disbursement conditions/schedule.
- 5. **Neighbor Relations** The Phoenix Hotel is the adjacent neighbor to the north of the Site and recently appealed the project's demolition permit approved in August 2019. TNDC expects the appeal to be dismissed prior to construction closing and will continue to negotiate in good faith with the neighbor to enter into a tower crane air rights agreement. See Section 3.2 Community Support for more information.

# SOURCES AND USES SUMMARY

\* The purchase price of \$12,250,000 is not included in L.P. budget. Acquisition cost in the budget includes cost for closing, broker and title fees, and lease buyout expenses.

#### 1. BACKGROUND

1.1. Project History Leading to This Request.

TNDC submitted the proposed project in response to the April 2016 Prop A NOFA issued by MOHCD. The project aims to promote the development of permanent affordable housing for low-income families that is consistent with the 2015 voter-approved General Obligation Housing Bond Proposition A, as well as the City's Consolidated Plan and Master Plan Housing Element.

In December 2016, Loan Committee approved TNDC's purchase of the Site and a \$3MM predevelopment loan to Turk 500 Associates, L.P. Since closing on the acquisition, TNDC has met the following milestones:

- March 2018 CEQA environmental approval secured.
- April 2018 San Francisco Housing Authority awarded 27 PBVs to the project.
- June September 2018 MOHCD approved Design Development Plans and cost estimate.
- September 2018 San Francisco Planning Department approved demolition of current structure and design of building.
- December 2018 Final NEPA environmental approval.
- June 2019 TNDC received \$20MM in AHSC funds, \$13.7MM of which will fund the housing development and \$6.3MM to transit-related improvements.
- August 2019 TNDC submitted a Tax Credit Allocation Committee ("TCAC") and California Debt Limit Allocation Committee ("CDLAC") joint application for the October 16, 2019 Allocation meeting.
- August 2019 TNDC selected Wells Fargo as their construction lender, permanent lender, and tax equity investor.
- **1.2.** <u>Borrower/Grantee Profile.</u> (See Attachment B for Borrower Org Chart; See Attachment C for Developer Resume and Attachment D for Asset Management Analysis)

Turk 500 Associates, L.P. is the borrowing limited partnership entity. The LP's general partner is Turk 500 GP LLC, a California limited liability company with TNDC as the sole member and manager.

TNDC was founded in 1981 with the acquisition of a single property and a commitment to creating permanently affordable homes for low-income San Franciscans. Over its 37-year history, TNDC has developed, owned, and managed 3,674 units, with another 263 under construction and 1,129 in predevelopment, totaling 5,066 units in total.

TNDC's in-house Property Management, Tenant Services, Asset Management, Accounting, and Community Organizing teams will ensure the Project's transition from development and construction into leasing and stabilized operations.

The following staff members assigned to 500 Turk are:

- 1) Aditya Potluri (Senior Project Manager) 30% of his workload.
- 2) Jacob Goldstein (Assistant Project Manager) 40% of his workload.
- 3) Sarah White (Associate Director of Housing Development) 5% of her workload.

# 2. SITE (See Attachment E for Site map with amenities)

Site Description	
Zoning:	RC-4 – Residential-Commercial High Density, within the
C C	Subarea 1 of the North of Market Special Use District
	(NOMRSUD)
	Lot: 002/Block0741 – Case #-2016-010340PRJ
Maximum units allowed by current	The NOMRSUD allows 1 dwelling unit per 125 sf of the
zoning:	18,906 sf lot area for a total of 151 units.
Soil type:	A Revised Phase II Environmental Site Assessment dated
	November 28, 2016 indicates the Site is underlain by
	approximately 2 feet of fill soil and up to 20 feet of sand
	underlying the soil. The soil sample results suggest 2 to 5
	feet of soil across $\frac{1}{2}$ of the Site (2,053 tons) would be
	disposed of as Class I non-federal hazardous waste. A
	smaller area (307 tons) as Class I RCRA hazardous waste,
	and the remaining portion (2,776 tons) of the excavated soil
	could likely be managed as a Class II non-hazardous waste.
	The Class I Non-Fed classification is a California
	requirement. Off haul for Class I – Non Fed is cheaper (less
	hazardous) than Class I Fed as there are more locally
	available soil off haul facilities.
Environmental Review:	Langan Treadwell Rollo completed a Phase I Environmental
	Site Assessment dated June 14, 2016, and Phase II
	Environmental Site Assessment dated November 28, 2016.
	See section 2.4 Environmental Issues for more information.
Adjacent uses (North):	The Phoenix Hotel is adjacent to the north of the Site.
Adjacent uses (South):	The Philip Burton Federal building, an 18-story courthouse
	with administrative offices, is across Turk and south of the
	Site.
Adjacent uses (East):	A 6-story multifamily residential structure with ground floor
	retail is across Larkin and east of the Site.
Adjacent uses (West):	Enterprise Rental Car operates a parking lot and 2-story
	structure directly adjacent and west of the Site.
Neighborhood Amenities within 0.5	Restaurants, pharmacies, bus stops are located on the Van
miles:	Ness Corridor which is 2 blocks from the site. SF Public
	Library, Farmer's Market at UN Plaza and Market Street are
	within 4 blocks of the Site.
Public Transportation within 0.5	Muni bus line #31 is within 1 block of Site. BART and
miles:	MUNI lines J,K,L,M,N at Civic Center/UN Plaza is within
	0.4 miles of the Site.
Article 34:	A revised Article 34 was authorized on January 28, 2019.
Article 38:	Article 38 – Requires enhanced ventilation for those sites
	located in areas called Air Pollutant Exposure Zones (APEZ)
	- where residents could be impacted by higher than normal
	particulate matter.
	The project is not exempt and requirements will be met as
	The project is not exempt and requirements will be met as part of design features. The project employs a mechanical
	ventilation system with high-efficiency MERV 13 filtration
	ventuation system with high-efficiency wiek v 15 mitation

	in all units. In the ground floor spaces, air is recirculated through a fan-coil HVAC system, which further filters and cleans the air.
Accessibility:	<ul> <li>The Site will have:</li> <li>10% mobility units: three studios, two 1-bedroom five 2- bedroom, and one 3-bedroom units, totaling 11 units;</li> <li>5% hearing and visually impaired units: one studio, one 1-bedroom, two 2-bedroom, and one 3-bedroom units, totaling 5 units; and</li> <li>All remaining units will be adaptable.</li> </ul>
Green Building:	TNDC anticipates a GreenPoint Gold Rating (minimum score of 125 points), which meets the City's requirements for new mid-rise buildings.
Recycled Water:	The project is exempt because the Site is not in the qualifying district.
Storm Water Management:	Storm water plan has been prepared and submitted to SFPUC in October 2018.

**2.1.** <u>Zoning</u>.

See above.

- **2.2.** <u>Probable Maximum Loss</u>. N/A, new construction.
- **2.3.** <u>Local/Federal Environmental Review.</u> CEQA (Case #-2016-010340PRJ) and NEPA are complete and the Project is now fully entitled.

# 2.4. Environmental Issues.

2.4.1. Potential/Known Hazards.

- The Site was previously used as both a laundry and an auto repair shop. The Phase I revealed a number of site conditions:
  - Soil fill material which commonly contains elevated levels of heavy metals and petroleum hydrocarbons from 1906 fire and debris;
  - o 6 underground hydraulic hoists;
  - Three above ground storage tanks used for new and used motor oil and a number of smaller drums containing oil, lubricants, cleaners and gasoline; and
  - A hydraulic freight elevator with visible staining at base of shaft, and a small number of stored used car batteries.
- The Phase I indicates an 1886 Sanborn map showing a "Chinese Wash" located on the Site. In 1899, the "Wash" was replaced with a multi-story mixed-use building. The 1913 Sanborn map shows the Site as mostly vacant and probably destroyed by the 1906 earthquake and fire. The 1948 Sanborn map shows the currently configured building labeled as "gas & oil". The Site looks as it does presently in the Sanborn maps from 1948 present.
- The Phase II indicates the Site is contaminated with degrees of hazardous waste. The project is carrying \$417,000 for remediation of all environmental conditions identified in the Phase I and Phase II reports and this appears to be adequate.

- All hazards will be addressed in a Site Mitigation Plan (SMP) approved by the City's Department of Public Health (DPH) in May 2019. Langan Treadwell Rollo developed the Site's SMP to appropriately address soil management and potential health and safety issues. Based on the location of the Site and historical review, the Site is underlain by fill material that contains elevated levels of heavy metals and petroleum hydrocarbons. The Site's use as a tire shop and repair facility has also resulted in oil and chemical staining. To mitigate these factors, the upper 2- to 5-feet of soil across approximately one-half mile of the Site will be off-hauled and properly disposed.
- 2.5. Adjacent uses and neighborhood amenities.

The immediate neighborhood is comprised of mixed-use buildings with upper floor residential units and ground floor commercial uses. A number of small businesses including restaurants, delicatessens, a dental office, camera shop and print/copy shop are nearby.

2.6. <u>Green Building.</u>

See above.

#### 3. OTHER ENTITLEMENTS ISSUES

#### 3.1. Community Support.

TNDC submitted a community outreach plan, completing the loan condition prior to this gap request. The plan states TNDC held a series of community meetings with neighborhood partners and area residents throughout the predevelopment phase. The project was primarily well received. During the CEQA review process, community members also demonstrated their support for the project through statements and letters of support to the San Francisco Planning Department.

From two-large scale community meetings, TNDC began a dialogue with area residents on the overall vision for the affordable housing development, including the building's unit mix, amenities, and design in. Community members were able to give feedback on the building's design through an interactive voting activity. These meetings were advertised through social media, multilingual flyers mailed to all residents and property owners near the Site, and in articles published on popular development websites to ensure full community participation.

TNDC has and will continue to provide regular project updates during construction to community partners like the Alliance for Better District 6. TNDC's Housing Development and Community Organizing will share the construction schedule and progress at their regular public meetings to ensure community concerns are heard and mitigated.

The Phoenix Hotel is the adjacent neighbor to the north of the Site. Most recently, the Phoenix Hotel appealed the project's demolition permit approved in August 2019. TNDC currently has not received any basis for objection of the demolition permit from the neighbor and is confident that it is within its right as a landowner to pursue the demolition of the existing building within its property. Both TNDC and the Phoenix Hotel are negotiating in good faith because of their long-standing relationship and hope to resolve the matter before the appeals board hearing date on November 20, 2019. TNDC expects the Board of Appeals will dismiss the demolition permit appeal if it has not been withdrawn by that date. To maintain a clear line of communication during construction, TNDC shared the contact information of the general contractor with the Phoenix Hotel. TNDC will continue to negotiate a neighbor agreement and plans to proceed with construction without a neighbor agreement in place.

Chapter 79 of the City's Administrative Code requires public noticing (Prop I) for any new construction City Project. The sponsor completed the 30- day noticing process on 1/29/17.

#### 4. DEVELOPMENT PLAN

#### 4.1. Site Control.

Turk 500 Associates, L.P. acquired the Site in December 2016 for \$12,250,000 using an Enterprise Community Partners Ioan. In December 2018, Loan Committee approved TNDC to use a portion of the funds to pay off the existing Enterprise mortgage. At construction closing, scheduled for January 2020, MOHCD will acquire back the land and transfer the property from Turk 500 Associates, L.P. through a 75-year initial term ground lease agreement (with an option to extend up to 99-years).

#### 4.1.1. Proposed Property Ownership Structure.

Turk 500 Associates, L.P. currently owns the site. At construction closing, MOHCD will acquire back the land and transfer the property through a 75-year initial term ground lease agreement (with an option to extend up to 99-years) to the Turk 500 Associates, L.P. The City's execution of a long-term ground lease for the MOHCD Parcel is subject to approval by the City's Board of Supervisors.

- Annual rent shall be set at 10% of the fair market appraised value, re-determined on the 15th anniversary date of ground lease and every 15 years thereafter.
- Payment shall consist of an annual Base Rent of \$15,000, collected annually regardless of cash flow and considered a project expense.
- Residual Rent of 10% of the appraised restricted value of the Site. Residual Rent will only be collected to the extent that cash flow is available and does not accrue.

#### 4.2. Proposed Design.

555 Larkin/500-520 Turk Street is located at the corner of Turk Street and Larkin Street in the Tenderloin neighborhood. The Site is a regularly shaped, gently sloping, 18,900 SF lot, zoned RC-5 (High-Density Residential Commercial) and currently occupied by a 7,315 SF concrete automobile tire shop.

The proposed new structure is an 8-story, 108 unit building. The 109,391 SF building will feature 82,805 SF of affordable residential uses, 4,634 SF of common and residential amenity space, 1,960 SF for onsite management offices, and 3,067 SF of resident services space. The project will also feature 2,380 SF of ground floor community service commercial space. Due to the Site's proximity to BART and many other high-quality transit options, the development will not include any automobile parking.

	23 studios @ 460 SF
Avg Unit SF by type	21 one-bedrooms @ 540 SF
	50 two-bedrooms @ 848 SF
	14 three-bedrooms @ 1133 SF
Residential	82,805 SF
Circulation/Maintenance	14,545 SF
Parking Garage	N/A
Common Area	4,634 SF
Service Space	3,067 SF
Site Staff Office Space	1,960 SF
Commercial (2 Spaces)	2,380 SF

#### Building Total SF: 109,391 SF

On-site amenities include:

- Lobby with a reception desk and mailbox area;
- Large community room with a full kitchen;
- o 4,800 SF landscaped courtyard;
- o Laundry room;
- Secured indoor bicycle parking spaces;
- Common areas for resident use;
- o On-site offices for supportive services and building management; and
- o Roof features including an 800 SF landscaped deck and a 1,300 SF urban farm.

Cost efficiencies integrated into each of the design process include lessons learned by David Baker Architects (DBA) who designed TNDC's newly built Eddy & Taylor Family Housing on 222 Taylor Street. Since both projects are similar in size and population, DBA for example created a highly efficient design with stacked units and only 3 kitchen types, 4 bathroom types, and 6 window types. The development team also performed an extensive value engineering process at each major design milestone (schematic, design development, and construction drawings). Major cost savings were achieved through tightly coordinating the mechanical, electrical, and plumbing systems (MEPs) in the residential and commercial spaces, opting for simple, but high-impact landscaping.

#### 4.3. Construction Supervisor's Evaluation.

MOHCD's Construction Representative performed an analysis of the Bid Set drawings dated 07/12/2019 and estimated preliminary construction cost breakdowns from James E. Roberts-Obayashi Corporation (JERO).

The building façade design features a concrete structure with an undulating exterior metal stud wall with varying sizes of vinyl and storefront windows to create visual interest. MOHCD was concerned that the design elements may contribute to cost overruns. TNDC confirmed however that the varying sized windows do not contribute to additional costs. The exterior also consists of vertical board formed concrete, fiber cement panels and low firebrick tile cladding in mixed colors. Additionally, low-side metering was recently verbally accepted by PG&E and SFPUC, which simplifies the electrical service design and avoids further redesign and possible reduction of the commercial space. TNDC will continue to monitor this development until the permanent power design is approved by SFPUC and PG&E.

The current cost assumptions are within an acceptable range given the current stage of the Bid Set dated 7/12/19. The per square foot construction cost at \$496 / SF within an appropriate range for comparable projects completed, in construction and in predevelopment which is currently \$505 / SF. The estimated per unit construction cost comes in at \$502,671 which is lower than the average of other comparable projects at \$551,371. The values for 500 Turk Street however reflect cost estimates and not a final bid contract value. In terms of contingencies, TNDC's development budget includes a General Contractor contingency of 2.0% during construction. Owner held contingencies include a 1.0% contingency for plan check comments, and a 5.0% construction contingency, which is a standard MOHCD underwriting guideline. The project received bids in September 2019 and a full Gross Maximum Price (GMP) contract value is being further refined by the project team. TNDC is to provide the qualifications, exclusions and subcontractor bids by mid-October 2019. The final GMP and vetting are expected by mid-November 2019.

Value engineering (VE) items the project team should include, but not be limited to 1) unit ceiling skim coat, 2) residential casework, 3) tub material change, 4) corridor flooring material and 5) finishes.

JERO's preliminary cost breakdown does not appear to include an allowance for the recently resolved design for permanent power service to low-side metering.

Addenda #1 (structural) and was approved in May 2019 by the Department of Building Inspections (DBI) and is ready to be pulled. Addenda #2 (architectural, mechanical, electrical, plumbing and accessibility) comments were received by DBI, the Mayor's Office of Disability (MOD), and the San Francisco Fire Department (SFFD). DBA will be submitting a revised set of drawings for approval in mid-October. Addenda #1 is only required to start construction and give a Notice to Proceed. DBI approved the project's demolition permit in August 2019, however, was appealed by the Phoenix Hotel, the adjacent neighbor to the Site. TNDC will continue to negotiate a neighbor agreement with the Phoenix Hotel and plans to proceed with construction without a neighbor agreement in place.

TNDC will provide the full breakdown of the GMP after qualifying, reviewing, and selecting subcontractor bids by mid-October. Staff recommends TNDC continue working with the MOHCD construction representative to consider the above value engineering items and allowance not included, resolve outstanding design elements, allowances, exclusions, cost breakdown back up, and financing assumptions to establish the final GMP.

#### 4.4. Commercial Space.

At 500 Turk, TNDC is developing 2,380 SF of ground floor commercial space that is intended to be community serving as defined in MOHCD's Commercial Underwriting Guidelines ("UG"). TNDC will determine if the commercial space is best suited as one or two commercial spaces through a comprehensive outreach process during construction. TNDC will release a Request for Proposals (RFP) for community serving commercial space in April 2020, while concurrently marketing the space to neighborhood serving retail vendors and community partners through September 2020. Based on the response received through the RFP and marketing process, TNDC will make the final determination of the 2,380 SF commercial space to be one or two commercial space(s) by late 2020/early 2021.

TNDC is proposing a master lease structure that will comply with MOHCD's Commercial UG. Currently, estimates are that tenants will pay a base rent of \$2/SF and prorated Common Area Maintenance (CAM) expenses for a total of approximately \$3.03/SF/month. The base rent assumption is based off TNDC's recent commercial lease up experience for neighborhood-serving retail at Eddy and Taylor Family Housing. The housing project is not dependent on the commercial income.

The cold and warm shell of the 2,380 SF community-serving commercial space(s) are included as part of the GMP contract. Per MOHCD Commercial UG, both cold and warm shell improvement costs are eligible uses of MOHCD funds for community-serving commercial uses. Approximately \$460,448 is budgeted for the cold shell, \$181,066 for the warm shell and \$178,785 or \$75/SF for the tenant improvement ("TI") allowance, totaling \$820,389.

The TI allowance will only be funded by MOHCD once TNDC:

- 1) Selects and identifies the commercial tenant through the RFP and market outreach process;
- 2) Completes the full review of the scope of work proposed by the commercial space tenant(s); and

3) Fully executed and entered into a lease agreement with the commercial space tenant(s).

TNDC has not yet identified or outreached to potential commercial space tenants. However, MOHCD has confidence in the project team, given TNDC's track record in managing and operating approximately 200,000 SF of retail space, a majority of which is in the Tenderloin neighborhood with an occupancy rate of 99%. The project team is also making a diligent effort to determine the commercial space tenants by closely collaborating with community and commercial space experts:

- Tenderloin Equitable Development Project (TEDP), a non-profit organization who is now incubating the Tenderloin Merchants Association, a platform for Tenderloin businesses to advocate for their neighborhood and grow future community leaders; and
- Ventura Partners, a commercial real estate development and managing company aiming to build community and currently helping TNDC with the management of their retail portfolio.
   Both organizations are known to have an excellent understanding of the Tenderloin market and will continue to work closely with TNDC through the selection of the commercial tenant(s) and build out of the commercial space(s).

MOHCD staff will continue to work closely with TNDC through the lease up and development of the commercial space(s) at the Site, and recommends conditioning the commercial developer fee disbursement to MOHCD approval of the commercial space plan and budget, executed Letter of Interests (LOIs), and executed lease agreement(s). Should TNDC not meet these disbursement conditions prior to permanent conversion, MOHCD will reduce the MOHCD gap loan amount by the amount of the warm shell and total tenant improvement allowance spent to date.

#### 4.5. Resident Service Space.

3,067 SF of service space and 1,960 SF of site staff space are proposed at 500 Turk and appears to be adequate for the services proposed at the Site. Resident service space include two services offices, a meeting room, and a 1,500 SF community room on the ground floor.

#### 4.6. Target Population.

The Site will serve 107 households earning an average of no more than 60% MOHCD AMI, with a range between 30%-80% MOHCD AMI and provide one unrestricted manager's unit. The income average affordability for the overall project is 49.44% MOHCD AMI and 54.75% MOHCD AMI for the 83 unsubsidized (lottery) units. The Site will also include 27 units or 25% that will receive a PBV from the San Francisco Housing Authority ("SFHA"), with a preference for Potrero and Sunnydale HOPE SF residents that voluntarily apply to 500 Turk, which will include a mix of 3 unit types (1-3 bedrooms).

In an effort to be competitive under the AHSC program, TNDC restricted 22 of the 27 PBV units to 30% MOHCD AMI. This means for a family of four at 30% MOHCD AMI 4-person household would require a maximum income of \$36,950. This approach was vetted with SFHA staff and appears a reasonable assumption to make, in particular because additional PBV units at higher AMI levels will be available at other properties.

#### 4.7. Marketing & Occupancy Preferences.

TNDC's property supervisor will be the team leader for marketing and outreach at 500 Turk. The property supervisor will be responsible for planning and organizing informational and application workshops and will assume the role of liaison with MOHCD and SFHA (for HOPE SF family referrals). TNDC will be responsible for implementing all required occupancy preferences at lease up and thereafter. To ensure affirmatively marketing housing opportunities

at 500 Turk, TNDC will utilize media outlets (i.e. local newspapers, community-oriented radio, and the internet), a hotline, website, local schools, churches, community-based organizations, low-income housing advocacy organizations serving low-income individuals, disabled adults, and other likely eligible for housing units. Announcements will be posted at TNDC's Property Management office located at 215 Taylor Street and at other buildings managed by TNDC.

Applicants for PBV units will be referred to TNDC by SFHA. Units not subsidized by PBVs, will be marketed to the general public and offered to qualified households through a lottery process. The lottery units will be marketed to families earning between 40% and 80% MOHCD AMI and will be subject to the following preferences:

- 1) Certificate of Preference holders;
- 2) Displaced Tenant Preference Certificate holders;
- 3) Neighborhood Resident Preference Program; and
- 4) Those who live or work in San Francisco.
- 4.8. <u>Relocation.</u>

Kahn & Keville (Kahn), an employee-owned tire and automotive services store, is the current tenant and is under a 3-year lease-back with TNDC. When the lease was negotiated in 2016, TNDC's goal was to encourage Kahn to remain on the Site during the predevelopment period as a way to address complications related to uninsurable vacant buildings and vandalism. Under the terms of the negotiated lease, Kahn was paid \$100,000 at the 2016 close of escrow and \$100,000 at the end of each of the 3 years with a bonus payment of \$50,000 as final compensation by January 1, 2020. At the end of the 3-year period and just prior to the start of construction, Kahn will relocate its business to another location they own. Kahn agreed this payment plan constituted full satisfaction of TNDC's obligations under the Uniform Relocation Act and California Relocation and Real Property Acquisition statutes. Kahn's lease will expire on December 31, 2019 and the Site will be vacant starting January 1, 2020. Between the time Kahn vacates the Site and the start of construction later in January 2020, TNDC will fence off the Site and engage a roving patrol to ensure security of the Site.

#### 5. DEVELOPMENT TEAM

5.1. <u>Outstanding Procurement Issues.</u> None.

- 6. FINANCING PLAN (See Attachment F for Cost Comparison of City Investment in Other Housing Developments; See Attachment G and H for Sources and Uses)
  - 6.1. Prior MOHCD/OCII Funding (this project and historical for the project),

\$3MM approved by Loan Committee in December 2016 and an additional \$17,474,731 approved by Loan Committee in December 2018, for a total of \$20,474,731 of committed MOHCD funding, \$12,250,000 of which was for site acquisition. Project costs reimbursable under this loan will be allowed as of the date TNDC submitted the proposed project in response to the 2016 Prop A NOFA on April 18, 2016.

Loan Type/ Program	Loan Date	Loan Amount	Interest Rate	Maturity Date	Repayment Terms	Outstanding Principal Balance	Accrued Interest to Date
MOHCD Pre-							
development							
loan	3/10/2017	\$3,000,000	0%	5/1/2072	Deferred	\$3,000,000	\$0

#### 6.2. Disbursement Status.

As of Draw #23 (approved August 2019), \$17,349,284.35 has been drawn with \$3,125,446.65 remaining. TNDC anticipates spending approximately \$1.9MM of the remaining \$3.12MM to pay for an estimate of \$768,000 in permit and impact fees, \$468,000 in architecture fees, \$150,000 in the lease buy-back with Kahn, and \$175,000 in utility fees.

6.2.1. HOME Funds Status.

No HOME funds have been disbursed and none are anticipated.

#### 6.3. Fulfillment of Loan Conditions.

**Note:** All previous conditions that are reported as still in process will be rolled over as conditions of this loan request.

1) Sponsor to submit for MOHCD review at least 30 days prior to submitting for final gap, a community outreach plan for the period from 12/2018 through the completion of construction.

#### • Status: Completed.

- 2) Sponsor to re-submit to MOHCD for approval at least 90 days prior to submitting for final gap, an operating plan and budget in conformance with MOHCD policy.
  - o Status: Completed.
- 3) Sponsor to analyze impact of higher income averaging that complies with state, TCAC and MOHCD requirements.
  - Status: Completed.
- 4) Sponsor must work with MOHCD construction team to review proposed design and manage impact of potential design changes and rising costs to project. If design features are changed in response to rising costs, Sponsor must secure all city approvals for changes prior to submitting for final gap in 2019.
  - Status: Completed.

5) Sponsor to submit for MOHCD approval at least 90 days prior to submitting for final gap, confirmation that HCD approves the proposed developer fee.

```
• Status: Completed.
```

- 6) Sponsor to re-submit for MOHCD approval at least 90 days prior to submitting for final gap, a services plan and budget in conformance with the policies of the HOPE SF/MOHCD Offsite Working Group.
  - <u>Status:</u> **In Process.** Sponsor unable to meet this deadline and requests an extension. Sponsor to devise a services plan and budget that is more appropriate for the residents and approval of the staffing plan and budget. This condition is revised to be required prior to permanent loan conversion. See Section 9.2 Recommended disbursement conditions/schedule.
- 7) Sponsor to submit for MOHCD approval at least 90 days prior to submitting for final gap approval, a detailed commercial space plan that includes a general description of the structure of the commercial space as well as assumptions related to space use, rent charged, and term of potential tenants. TNDC should research alternate funding sources for funding tenant improvements for the commercial spaces.
  - <u>Status:</u> **In Process.** Sponsor unable to meet this deadline and request an extension. This condition is revised to be required prior to commercial developer fee disbursement. See Section 9.2 Recommended disbursement conditions/schedule.
- 8) Sponsor to submit for MOHCD approval the LOIs for commercial spaces 30 days prior to submitting for final gap.
  - <u>Status</u>: In Process. Sponsor unable to meet this deadline and request an extension. This condition is revised to be required prior to commercial developer fee disbursement. See Section 9.2 Recommended disbursement conditions/schedule.
- 9) Staff recommends TNDC research alternate funding sources for funding tenant improvements on the commercial spaces.
  - <u>Status</u>: In Process. Sponsor has not provided research of alternate funding sources for funding tenant improvements. Sponsor requests an extension for this condition. Research will be incorporated as part of the Sponsor's commercial space plan. This condition is revised to be required prior to commercial developer fee disbursement. See Section 9.2 Recommended disbursement conditions/schedule.

#### 6.4. Proposed Permanent Financing

#### 6.4.1. Permanent Sources Evaluation Narrative.

TNDC proposes to use a combination of the following permanent sources:

- 1) **Private Mortgage (\$10,591,000)** A private long-term permanent mortgage is included in the financing plan. TNDC is assuming a 35 year fully amortized mortgage at 4.385%, which includes a 35 basis points spread or 3.5% cushion. This loan meets HCD requirements.
- 2) Affordable Housing and Sustainable Communities Loan (AHSC) Housing (\$13,700,000) AHSC is a competitive state program created to provide grants and loans to projects that implement housing, land-use and transportation practices that help reduce greenhouse gases.

With the City as a co-applicant, TNDC worked with MOHCD, San Francisco Municipal Transportation Agency (SFMTA), and Bay Area Rapid Transit (BART) to develop their proposal for the project at 500 Turk Street. Once complete, 500 Turk will transform the auto-oriented corner of Turk and Larkin—four blocks from the Civic Center/UN Plaza BART station—into a pedestrian-oriented, community-facing affordable housing development.

A competitive application was submitted in February 2019 and awarded in June 2019 for \$20MM in AHSC funds, with \$13.7MM, or \$126,852/unit to fund the housing development, including resident transit passes for three years. Additionally, \$6.3MM will go to transit-related improvements, which include bike and pedestrian streetscape improvements on nearby 5th and 6th Streets, a canopy for the Civic Center BART station entrance at Market and Hyde, and the Geary Bus Rapid Transit Project.

The State requires a transition reserve in the amount of \$1,387,025 to cover 2 years of operating expenses in the event the Section 8 subsidy is no longer available. This amount is shown in the proposed permanent sources and uses proforma included with this request.

3) **MOHCD/City Loan** (\$32,400,000) – TNDC anticipates a need for a total City financing of \$32.4MM, inclusive of this request, or \$300,000/unit. This amount is within the range of commitment the City has provided on other Type I, new construction projects with a HCD loan. Moreover, the MOHCD gap loan includes carrying the bridge of the AHP award of \$1.25MM.

Below is the total MOHCD funding (up to) breakdown:

\$12,250,000 – Land Purchase Price (not included in LP budget)

- +\$ 8,224,731 Predevelopment Funds
- \$20,474,731 Total Previous City Funds Committed

\$20,474,731 – Total Previous City Funds Committed

\$10,675,269 – Permanent Loan (this request)

+\$ 1,250,000 – MOHCD AHP Bridge Loan (this request)

**\$32,400,000** – Total MOHCD Funding (up to)

**MOHCD AHP Bridge Loan (\$1,250,000)** – AHP funds will be requested in March 2020 at an assumed at \$11,574/unit. In the interim, the MOHCD Gap loan will bridge the amount of the potential AHP award. If awarded AHP, TNDC will draw the funds during construction and those funds will then be used to repay the bridged amount in the MOHCD Gap loan.

AHP could provide approximately \$1.25MM if the project. The lowest approved score from the latest AHP round is 70.08, deeming the project's current self-score of 71.37 competitive for the \$1.25MM request. MOHCD and TNDC will continue to identify strategies to maximize points for a competitive application to secure AHP funds. If the project is not awarded AHP in 2020, TNDC will need to apply again during construction in 2021.

- 4) **Interim Income (\$281,901)** Total monthly rent payments from the current tenant on Site– Kahn and Keville tire shop will be a source to the project.
- 5) **Guaranteed Investment Certificate (GIC) Earning (\$2,201,659)** The project is pursuing a cash-collateralized public sale bond structure. This approach is an effort to

maximize the City's bond issuer fee, which helps support overall MOHCD programs. Bond proceeds are placed in an interest bearing Guaranteed Investment Account (GIC), estimated to earn \$2,201,659 or \$20,386/unit as a source to the project.

At bond issuance, bonds are sold publically for a short (construction loan) and long term (permanent loan). All bond proceeds are placed with a Trustuee and invested in eligible investments (GIC), with the bond proceeds serving as the cash collateral for the outstanding bonds. Investment earnings from the GIC will offset the bond interest expense from the tax-exempt construction loan and transaction costs.

However, recent legal counsel interpretation precludes the blending of yields, which allow the positive earnings from the short-term bond to offset the negative earnings from long-term bond, creating a negative arbitrage and potential funding gap to the project. TNDC and MOHCD staff will continue to work closely with CHPC and the City's Financial Advisor to identify further strategies to pursue the public sale bond structure prior to closing.

- 6) **Certificate of Insurance (COI) Rebate (\$79,433)** Through Wells Fargo, Fannie Mae will provide the permanent loan through a Fannie Mae credit enhancement facility called a mortgage-backed security (MBS). The COI rebate is part of the cash collateralized loan product. It is an incentive to reduce the cost of bond underwriting. Fannie Mae will provide a 75 basis points, or 7.5% rebate for underwriting expenses at permanent conversion.
- 7) **General Partner Equity Contribution (\$500,000)** The General Partner contribution is consistent with MOHCD Developer Fee Policy of a minimum of \$500,000.
- 8) Deferred Developer Fee (\$6,863,961) TNDC is requesting a waiver to MOHCD's Developer Fee policy in order to realize \$6,863,961 in additional fee that will stay in the project as Deferred Developer Fee and generate approximately \$2,880,000 in tax credit equity. \$960,193 of deferred developer fee is generated through the 20-year cash flow. Wells Fargo, the project's tax credit investor, will write off the remaining \$5,861,952 in deferred developer fee not generated through cash flow at the end of the partnership term.

Because the project will also have state AHSC funds, this request for additional fee must also be approved by the HCD as a part of the AHSC application review and approval process. CHPC confirmed the additional fee given the extra fee is allowed under HCD regulations, and the developer fee calculator tool HCD developed to help sponsors calculate fee, supports an even higher additional fee. CHPC staff reviewed the developer fee assumptions and deemed them accurate. As a condition prior to gap request, MOHCD staff approved confirmation that HCD approves the proposed developer fee.

9) **4% Tax Credit Equity (\$31,589,452)** - TNDC based off Wells Fargo's equity pricing in their Letter of Interest (date) of \$1.015 per credit.

# 6.4.2 Permanent Uses Evaluation:

Development Budget				
Underwriting Standard	Meets Standard? (Y/N)	Notes		
Hard Cost per unit are within standards	Y	\$502,671 per unit with 1.0% contingency for plan check comments included.		
Construction Hard Cost Contingency is at least 5% (new construction) or 15% (rehab)	Y	Hard Cost Contingency shows 5.6%. However, \$2,576,648 is 5.0% of the \$51,215,394 total hard costs.		
Architecture and Engineering Fees are within standards	N	A/E total fee is \$3,186,825. Cost are warranted due to MOHCD's request to redesign to reduce the number of studios and increase the number of multi-bedroom units.		
Construction Management Fees are within standards	Y	Owner's Rep fee is \$200,000 and within Construction Management fee standards.		
Developer Fee is within standards, see also disbursement chart below	N	TNDC is requesting a waiver to increase fee as a way to increase equity to the project. See below.		
Soft Cost Contingency is 10% per standards	N	Soft Cost Contingency is 3%. TNDC estimates a 5% soft contingency in their budget is appropriate.		
Capitalized Operating Reserves are a minimum of 3 months	Y	Capitalized Operating Reserve is equal to 3 months.		
Transition Reserve	Y	\$1,387,025 HCD Subsidy Reserve required by HCD because of the PBV contract.		

Per TCAC regulations, the maximum base developer fee allowed in the project is \$9,852,145. Below is the breakdown of the total resident development fee in the Project:

	<b>Residential Dev</b>	eloper Fee
Amount of Developer Fee allocated as	\$1,100,000	
Project Management Fee available		
during predevelopment and		
construction:		
Amount of Developer Fee allocated as	\$1,180,000	This amount includes +\$10,000 per unit
Project Management Fee available at		over 100 units.
risk (the "At-Risk Fee"):		
Commercial Space Developer Fee	\$250,000	This amount is the maximum under
		MOHCD Commercial Space UG for a
		community-serving commercial use.

Amount of Developer Fee allocated as General Partner Equity:	\$500,000	This amount meets MOHCD minimum general partner equity requirement of \$500K to be recontributed to the Project.
Amount of Developer Fee allocated as Deferred Developer Fee:	\$6,822,145	<ul> <li>\$960,193 of deferred developer fee is shown on the 20-year cash flow. The investor will write off the remaining</li> <li>\$5,861,952 not generated through cash flow at the end of the partnership term.</li> </ul>
<b>Total Residential Developer Fee</b>	\$9,852,145	

The above does not meet MOHCD's proposed Developer Fee Policy. To bring more equity into the deal, TNDC is requesting a waiver to the \$4MM maximum developer fee in MOHCD's developer fee policy. TNDC requests this waiver so it can maximize the amount of deferred developer fee it can include as a source and put back in the project. This waiver request does not result in an increase in cash-out developer fee paid to TNDC or a waiver of that part of the policy. MOHCD staff recommends granting this waiver request.

Developer and Commercial	<b>Developer Fee D</b>	Disbursement Schedule
Payment Milestone	% of	Amount
	Project

1	1	540	Mgr. Unit			
108						

The proposed 108-unit family development will include:

- 23 studios
- 21 one-bedrooms (including a manager's unit)

- 50 two-bedrooms
- 14 three-bedrooms

# 7.3. Annual Operating Expenses Evaluation.

TNDC's operating budget is compliant with MOHCD policies except for the per unit per anum ("PUPA"), which is currently proposed at a higher level than other similar projects.

Operating Proforma						
Underwriting Standard	Meets Standard? (Y/N)	Notes				
Debt Service Coverage Ratio (DSCR) sufficient to insure 1.0:1 in year 17	Y	DSCR is 1.17 in year 1 and stays above 1.0 at 1.25 in year 17.				
Debt Service Coverage Ratio stays above 1.00:1 for entirety of projected 20-year cash flow	Y	DSCR is above 1.0 for entirety of projected 20-year cash flow.				
Vacancy meets TCAC Standards	Y	Vacancy is 5%.				
Annual Income Growth is increased at 2.5% per year	Y	Income escalation factor is 2.5%.				
Annual Operating Expenses are increased at 3.5% per year	Y	Operating expense escalation factor is 3.5%.				
Base year operating expenses per unit are reasonable per comparables	N	Total Operating Expenses including services and commercial expenses are \$12,579 PUPA, which is high for the population served at the building will serve. 24-hour desk clerk coverage is included in the operating budget (\$1,574/unit), in part, driving up costs/unit. See project management staffing level below for more information.				
Property Management Fee is at allowable HUD Maximum	Y	Total Property Management Fee is \$88,128 or \$68 PUPM.				
Property Management staffing level is reasonable per comparables	Y	<ul> <li>Staffing plan includes:</li> <li>1.0 FTE General Manager</li> <li>1.0 FTE Assistant General Manager</li> <li>4.2 FTE Desk Clerk (24/7)</li> <li>2.0 FTE maintenance staff</li> <li>1.5 FTE janitorial staff</li> </ul> The project is located on a block with poor street activation and witness to active drug use and frequent cases of violence. 24/7				

		desk clerk is necessary to maintain safe environment for residents and property. The 24-hour desk clerks on a non- supportive project is unusual; however, because of the location is warranted.
Asset Management and Partnership		Reflects a 2022 operating start
Management Fees meet standards	Y	Annual AM Fee is \$21,160/yr
		Annual PM Fee is \$9,802/yr
		Totaling \$30,962.
		Maximum Total Project Sponsor AM and
		PM fee in 2022 is \$46,910, per MOHCD's
		Operating Fees Policy.
Replacement Reserve Deposits meet or		Replacement Reserves are \$500 PUPA, a
exceed TCAC minimum standards	Y	state funding requirement.
Limited Partnership Asset Management		
Fee meets standards	Y	\$5,000/yr

## 8. SUPPORT SERVICES

## 8.1. Services Plan and Budget.

TNDC will have a 1.0 FTE Social Worker oversee all aspects of service delivery at 500 Turk, directly supervised by an off-site Social Work Site Supervisor, and supported by an off-site Support Services Manager. This is a service-staffing ratio of 1:107, within MOHCD's 1:100 service coordinator guidelines. All service staff salaries and programs will be paid through the project's operating budget of \$118,128 (\$1,093/unit/year), with approximately \$60,000 for salaries, and the remaining costs to cover benefits, payroll taxes, workers compensation, program expenses, recruitment, and training.

TNDC to devise a services plan and budget that is more appropriate for the residents and approval of the staffing plan and budget will be a condition prior to permanent loan conversion.

### 9. STAFF RECOMMENDATIONS

### 9.1. Proposed Loan/Grant Terms

Financial Description of Proposed Loan – Gap Loan Note A – (previous Predev Funds will be<br/>rolled into this loan as an Amended and Restated Loan Agreement)Loan Amount:Up to \$31,150,000Loan Term:Minimum 55 yearsLoan Maturity Date:2074Loan Repayment Type:Residual ReceiptsLoan Interest Rate:0-3%, pending true debt test

AHP Bridge Loan Note B	
Loan Amount:	\$1,250,000
Loan Term:	3 years

Loan Maturity Date:	2022
Loan Repayment Type:	At term
Loan Interest Rate:	0%

#### 9.2. <u>Recommended disbursement conditions/schedule.</u>

Prior to construction closing:

- 1. Sponsor to continue to work closely with MOHCD, the City's Financial Advisor, and CHPC to identify further strategies to pursue the public sale bond structure.
- 2. Sponsor must provide final interest rate after review of true debt analysis.
- 3. Sponsor must provide updated AHP self-score to ensure competitive for a 2020 application. If not awarded this round, Sponsor will apply again during construction in 2021.

Prior to commercial developer fee disbursement:

- 4. Sponsor must submit for MOHCD approval a detailed commercial space plan and budget that includes a general description of the structure of the commercial space as well as assumptions related to space use, rent charged, and term of potential tenants;
- 5. Sponsor must research alternate funding sources for funding tenant improvements for the commercial spaces and incorporate research as part of the commercial space plan;
- 6. Sponsor must submit for MOHCD approval the LOI(s) for commercial spaces; and
- 7. Sponsor must submit executed commercial lease(s) with tenant(s).

Prior to permanent loan conversion:

8. Sponsor must submit revised services plan and budget prior to permanent conversion, to be reviewed and approved by MOHCD Director of Public Housing Initiatives and in conformance with the policies of the HOPE SF/MOHCD Offsite Working Group.

## Attachment C: Developer Resume

## **Sponsor Experience: Tenderloin Neighborhood Development Corporation**

The Tenderloin Neighborhood Development Corporation (TNDC) provides services for more than 4,700 low-income residents in six San Francisco neighborhoods, building community and promoting equitable access to opportunity and resources. Founded in 1981, TNDC now employs 410 people, some who live in TNDC affordable housing buildings. In addition to housing development, TNDC focuses on community organizing, urban food growth and land use, and its after-school program with the idea that everyone should have good quality housing and good quality of life in the city they love.

### Housing Development:

TNDC has developed 41 buildings with eleven more currently in the pipeline. These developments provide over 3,700 affordable homes to the San Francisco community. TNDC's experience includes all the major financing sources used in the production of low-income housing as well as challenging tenant-occupied rehabilitations and new construction on tight, in-fill sites in San Francisco. In its 37 years of providing housing for the poorest of San Francisco's residents, TNDC has developed an acute knowledge of the development, operations and services needs of supportive housing projects. In addition, TNDC considers itself a community development organization as well and is experienced in community-building in the neighborhoods in which it works.

TNDC's Housing Development department creates high-quality, permanently affordable housing for lowincome individuals, families, and seniors. Our team of seventeen development professionals is responsible for managing the acquisition, finance, design development and construction of affordable rental housing projects. TNDC expects to grow its portfolio to more than 5,500 homes in the coming 5 years.

## Project Ownership and Management Structure of the Project after Closing

The project's ownership structure has a limited partner as the owner and TNDC as the manager of the General Partnership. This ownership structure will remain in place after closing. Please refer to the 500 Turk org chart for further information.

After closing, TNDC will provide Property Management and Tenant Services for 500 Turk.

### **Property Management:**

Since its inception, TNDC has been managing affordable housing to the highest standard of quality, care and compliance. TNDC's Property Management Department is comprised of more than 200 employees and manages the 41 buildings housing 4,700 residents as well as 42 commercial spaces totaling over 215,000 square feet. We use our award- winning approach to create safe and secure environments while operating as efficiently as possible. A key element of our management practice is that building management staff work closely with the building's on-site support services staff to ensure residents retain their housing. TNDC knows that collaboration, through regular meetings between management and services, not only keeps people in their homes, but also reduces vacancy rates, increases rent receipts, and decreases property damage. Management and services jointly coordinate activities and events that bring residents and staff together, thus engendering a community atmosphere with the building. TNDC has a Property Supervisor dedicated to managing our retail spaces in coordination with our contracted commercial property management agent Ventura Partners.

### **Tenant Services:**

TNDC's Social Work Unit has extensive experience developing and implementing service plans that meet the needs of diverse family and individual populations. Currently, TNDC has 28 Social Workers, and

85% of tenants participate in support services annually at our properties. Many of our properties house families and three properties, Curran House in the Tenderloin, 8<sup>th</sup> and Howard Family in SOMA, and Mosaica Family in the Mission are designed specifically for families. Family housing is in very short supply in the Tenderloin.

TNDC's support services have a demonstrated record of accomplishment in achieving its goals:

- 85% of TNDC's tenants participate in support services annually
- 95% of TNDC's tenants pay their rent on-time on a regular basis
- 95% of the tenants who were in jeopardy of losing their housing due to non-payment of rent and/or nuisance behavior and/or health and safety hazards remained housed or moved-out prior to an eviction
- 90% of TNDC's tenants remain housed for at least 12-months
- 70% of support service referrals result in linkages annually
- 72% of TNDC's tenants participate in community events and activities
- 93% of the tenants who responded to the annual Satisfaction Survey reported satisfaction with support services

## Attachment D: Asset Management Evaluation of Project Sponsor

TNDC has 42 projects in its portfolio, with an additional 17 projects in the pipeline including recapitalization. The average units per project ranges from 75-120.

There are three full-time employees. The department is headed by the Senior Asset Manager with two Asset Managers reporting to the Senior Asset Manager, who reports to the CFO. Each of the three employees in the Asset Management Department have a set number of projects in the portfolio. Each is responsible for developing asset management plans for each property, as well as managing the needs and requests of the partner and/or lender in each of the properties, examining opportunities related to the rental structure/operating subsidies, and developing, when necessary, partner exit strategies and/or resyndication and refinancing strategies for those projects that are approaching Year 15.

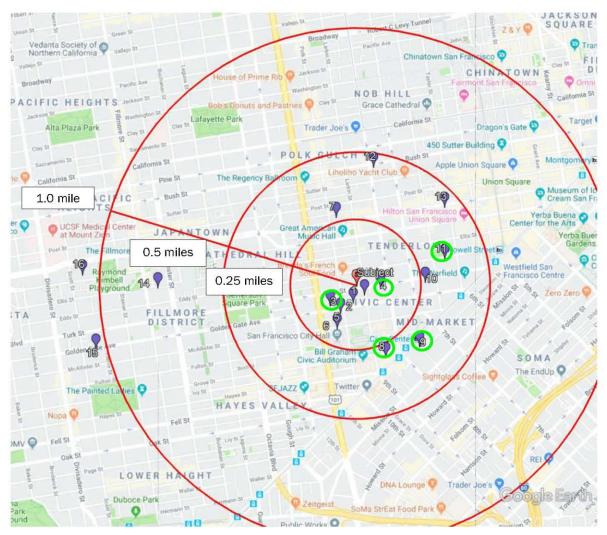

Members of the Asset Management Department work closely with other TNDC departments. Each project in development in the Housing Development Department has a multidisciplinary "interdepartmental team" to help inform rehab or new construction scopes in which one or more members of asset management participates. Additionally, TNDC has a Recapitalization Workgroup, in which all members of the Asset Management Department attend in order to update senior staff members and the Housing Development Department about asset management plans, partner exit strategies and other asset management related activities, challenges and opportunities.

Attachment D - 4840 Mission Gap Loan Evaluations May 7, 2021

### MEMORANDUM

DATE:	May 7, 2021
	111u /, 2021

### **TO:** CITYWIDE AFFORDABLE HOUSING LOAN COMMITTEE

### **FROM:** CINDY HEAVENS, SENIOR PROJECT MANAGER

# RE: 4840 MISSION PREDEVELOPMENT LOAN – PRINCIPAL REDUCTION AND INTEREST FORGIVENESS

<b>THIS REQUEST – Predeve</b>	lopment Loan	Principal Ro	eduction and I	nterest Forgive	ness

Loan	Original Principal Balance	Accrued Interest	Principal Reduction Amount	Interest Forgiveness Amount	Reduced Loan Amount
2015 GO Bond [June 2017]	\$3,000,000	\$389,250	\$3,000,000	\$389,250	\$0
AHF – Inclusionary [Jun-2017 & Oct-2019]	\$15,510,000	\$755,359	\$7,360,000	\$755,359	\$8,150,000
Total	\$18,510,000	\$1,144,609	\$10,360,000	\$1,144,609	\$8,150,000

### **Summary of Request**

4840 Mission Housing Associates LP, a partnership formed by BRIDGE Housing ("BRIDGE" or the "Sponsor"), requests to reduce the principal amount of the predevelopment loan up to \$10,360,000, and the predevelopment interest up to \$1,144,609, to the current value of the land, \$8,150,000. This request includes approval of a land exchange for \$8.15M, leaving a predevelopment loan balance of \$0.

Mayor's Office of Housing and Community Development ("MOHCD") typically credits the predevelopment loan for the value of the land. In previous years when the California Debt Limit Allocation Committee ("CDLAC") bond program was not competitive, land value was included on applications and in calculations of the total loan to a project. Because of the competitive nature of the bonds as of 2020, the land value of 4840 Mission was not included as a project cost on the CDLAC application submitted in September 2020, to show reduced costs. Also, MOHCD intended to acquire the land at the land value that would be determined before the loan request went to the Board of Supervisors, as required by City charter. The Loan Evaluation dated February 19, 2021 for gap financing in the amount of \$28,751,450 including bridge loans ("Evaluation", Exhibit A) assumed a land value of \$16.82MM with the remaining principal amount of the predevelopment loan and predevelopment interest forgiven. Now that the land has been appraised at the much lower, COVID-impacted amount of \$8.15M, MOHCD needs to adjust its calculations for loan forgiveness and loan credit accordingly.

Staff recommends approving reducing the predevelopment loan principal to \$8,150,000 forgiving up to \$10,360,000 in loan principal and \$1,144,609 in loan interest for \$19,654,609, the predevelopment loan

principal and interest total. We also want to swap the remaining \$8.15M loan for the land, leaving a predevelopment balance of \$0.

### <u>Update on Project Status</u>

# 1. BACKGROUND

Mayor's Office of Housing and Community Development ("MOHCD") released a Notice of Funding Availability on April 18, 2016 entitled "Acquisition and Predevelopment Financing for Affordable Multifamily Rental Housing, Supported by the 2015 General Obligation Housing Bond – Proposition A" ("April 18, 2016 NOFA"). The Project was selected from a pool of submittals and received the highest score in a competitive panel-driven selection process.

In June 2017, BRIDGE acquired 4840 Mission for \$12MM with a \$3MM loan from MOHCD and \$9MM loan from San Francisco Housing Accelerator Fund ("SFHAF"). The price was supported by an appraisal dated June 3, 2016. Prior to the City providing its initial acquisition financing, BRIDGE completed another appraisal dated February 22, 2017, which valued the land at \$16.44MM. The last purchase agreement extension extended the agreement to May 13, 2017; if the project did not close by June 9, 2017, BRIDGE would have to acquire the site at the appraised land value of \$16.44MM. BRIDGE with City and SFHAF financing acquired the site on June 7, 2017 for \$12MM, \$4.44MM below the appraised value at that time.

At the time of the February 19, 2021, Evaluation approval, Sponsor had selected Bank of America as the construction bond lender and investor, with JLL Real Estate Capital as the permanent lender. Sponsor and MOHCD staff plan to close on the acquisition and City financing on June 8, 2021, and documents were introduced to the Board of Supervisors for approval on April 13<sup>th</sup>. The construction and bond closing is scheduled to occur on June 15, 2021. In the Evaluation, the Project's land value of \$16,820,000 was based on an appraisal dated February 10, 2021, and the Evaluation assumed that predevelopment expenses, land carrying cost, SFHAF loan interest, and a portion of the MOHCD predevelopment loan interest would total or be less than \$16,820,000. The Evaluation also assumed that MOHCD would acquire the land at closing in a paper transaction for an amount equal to the predevelopment loan with predevelopment interest. However, as required by City charter for any land transferred to the City, an appraisal was completed on March 10, 2021 by a DRE approved appraiser who appraised the unrestricted land value at \$8,150,000, significantly lower than the February 10, 2021 appraisal value and lower than the initial purchase price of \$12MM. DRE staff report that the land was acquired in 2017 at the top of the market; since 2017, land values have fallen by 4% in subsequent years. Land value have since fallen more due to the COVID-19 pandemic.

At the Loan Committee on February 19, 2021, the gap loan included a portion of the predevelopment loan interest that would be forgiven, but the amount was unknown and was based on remaining carrying costs associated with the land until demolition. At that time, site carrying costs from June 2017 to demolition were estimated at approximately \$1.44MM and included security, lighting, fencing, and additional landscaping, maintenance, and/or janitorial costs to keep the site clean.

# 2. ANALYSIS OF THIS REQUEST

It is important to note that land value and other aspects of holding land are not tax credit basis eligible costs. This means that no tax credit equity can be raised on land value. However, the land value if reported on the CDLAC application can be included in the 50% bond test (land cost plus eligible basis). For this Project to have a competitive bond application and because the City would acquire fee simple

title to the land and ground lease it back to the Sponsor, removal of the land from the project budget was a recommended and supported financing strategy by staff. Removal of the land cost allowed the Project to request a smaller bond allocation while still meeting the 50% test, and therefore to be more competitive.

When the Project was awarded bond financing in December 2020, the award was based on a December 2019-bond application that was submitted in order to maintain the difficult to develop area ("DDA") designation and subsequent credit boost. Without the DDA designation, MOHCD's loan would have increased by over \$5MM. If the Sponsor were to include the land costs in the budget at this time, the Project would no longer met the 50% test, and the Sponsor and MOHCD as joint applicants would have had to return the bond allocation.

The City attorney has advised that MOHCD may reduce the MOHCD loan by the amount of the original, higher appraised value in order to finance the development of affordable housing. This credit and forgiveness is achieved via a paper transaction that supports a strategic business decision already approved by Loan Committee in the Evaluation: that MOHCD will reduce our loan amounts to what is financially feasible for the project. MOHCD has done this paper transactions of credit and forgiveness on other deals. While the appraised value for this Project is lower than had been contemplated, MOHCD is still committing to providing both a credit and forgiveness as originally contemplated in the Evaluation.

MOHCD will acquire the land at a value worth less today than on the original acquisition date in June 2017. The reduced value is important to note as a financial risk but has little to no impact since the City never intends to sell the land. Even with the forgiven principal and interest, MOHCD will still have a substantial residual receipts loan in the deal and rights to a percentage of any residual cash flow. Also, every 15 years the Sponsor is required in the ground lease to re-set the annual rent, which may require a new appraisal.

The total amount of predevelopment loan principal and interest loan to be forgiven and credited is \$19,654,609 and includes the following:

- \$12,000,000 purchase price at the time of acquisition in June 2017.
- \$ 6,510,000 of predevelopment and holding costs.
- \$ 689,250 in acquisition loan interest
- \$ 455,359 in MOHCD predevelopment interest

# 3. GAP FINANCING RELATED TO THIS REQUEST

The MOHCD gap loan amount of \$28,751,450 that was approved in February 2021 remains the same with this memo request, the MOHCD gap loan interest rate has changed from 1% presented in the Evaluation to 3%. All other financing assumptions presented in the attached Evaluation are the same.

# 4. STAFF RECOMMENDATIONS

Staff recommends approving reduction of the predevelopment loan principal to \$8,150,000, forgiving up to \$10,360,000 in loan principal and \$1,144,609 in loan interest, and exchanging the land for \$8,150,000 in debt, leaving a predevelopment loan balance of \$0.

Most conditions prior to gap financing closing have been met or are in process. Loan conditions that must be met after loan closing are included in the substantially complete loan agreement submitted to the Board of Supervisors.

# \$28,751,450 Gap Loan

# (Includes \$3,000,000 Construction Bridge Loan for Cold Shell & \$1,250,000 AHP Bridge Loan)

Evaluation of Request for:	Gap Financing
Loan Committee Date:	February 19, 2021
Prepared By:	Cindy Heavens
Total Gap Loan:	Total City Investment: not to exceed \$ 47,048,470
	Total New: \$28,751,450
	AHF Inclusionary (AHP bridge):\$ 1,250,000
	AHF Inclusionary(Cold Shell bridge):\$ 240,000
	2019 GO Bonds (Cold Shell bridge): \$ 2,760,000
	2015 GO Bonds (Gap Loan): \$ 2,000,000
	2019 GO Bonds(Gap Loan): \$22,501,450
NOFA/PROGRAM/RFP:	Prop A NOFA 2016
Total Previous City Funds Committed:	\$18,510,000
	2015 GO Bonds: \$ 3,000,000 AHF Inclusionary: \$15,510,000
Applicant/Sponsor Name:	4840 Mission Housing Associates LP

# **EXECUTIVE SUMMARY**

Sponsor Information:			
Project Name:	4840 Mission Street	Sponsor(s):	BRIDGE Housing Corporation
Project Address (w/ cross St):	4840 Mission Street (between France Ave. and Onondaga Ave.), SF 94112	Ultimate Borrower Entity:	4840 Mission Housing Associates LP

### **Project Summary:**

Located on a 1.47-acre site in the Outer Mission neighborhood, 4840 Mission will be a 137-unit housing development for families. BRIDGE Housing ("Sponsor") originally proposed to develop the site as a 114-unit affordable housing development with 0.69 acres available for 20 for-sale market rate townhouses. After several community meetings and a failed attempt to partner with an adjacent market rate project and include a new Safeway on the ground floor, the site design without the market rate townhouses and Safeway will serve a broad mix of incomes and includes a pedestrian walkway from Mission Street to Alemany Boulevard, as requested by community members. The project includes one to three-bedroom units for extremely-, very low-, low- and moderate-income households, with 25% (35 units) set-aside for families relocating voluntarily from HOPE SF's Potrero development. Ground floor uses include residential property staff offices, 39 residential parking spaces, a health center operated by Mission Neighborhood Health Center (MNHC), and commercial space. MNHC will own its commercial shell and the City will enter into two ground leases. During the construction period, the City will provide a construction bridge loan of \$3MM to support development of the commercial shell and a bridge loan of \$1,250,000, to facilitate an application for funds from the Federal Home Loan Bank Affordable Housing Program to support residential costs. 4840 Mission is consistent with the City's Consolidated Plan and Master Plan Housing Element.

### **Project Description:**

Loan amount requested <sup>1</sup> :	\$ 25,501,450	Requested loan amount per unit:	\$ 178,843
Total Development Cost:	\$108,149,342	TDC/unit <sup>2</sup> :	\$ 789,411
Total acquisition cost including Demolition:	Not to exceed \$ 16,820,000	Acquisition cost including Demolition/unit <sup>3</sup>	Not to exceed \$ 122,774
Construction type:	Type V over podium	Project type:	New Construction
Number of stories:	5	Lot size (acres and sf):	1.48 acres (64,432 sf)
Number of units:	137	Architect:	Van Meter Williams Pollack
Total residential area:	164,917 sf	General Contractor:	Nibbi Brothers General Contractor
Total commercial area:	14,384 sf	Property Manager:	BRIDGE Property Management Company (BPMC)
Total parking area:	16,666 sf	Parking?	40 spaces (1:3.5 ratio)
Total building area:	196,967 sf		
HOME Funds?	No	Supervisor and District:	Supervisor Ahsha Safai, D-11

<sup>&</sup>lt;sup>1</sup> This amount excludes the AHP and commercial shell acquisition bridge loans.

<sup>&</sup>lt;sup>2</sup> This amount does not include acquisition costs from MOHCD and represents the entire MOHCD funding request.

<sup>&</sup>lt;sup>3</sup> This amount is not included in the development budget. MOHCD will purchase the land from 4840

Mission Housing LP approximately two weeks prior to the residential construction loan closing.

## PRINCIPAL DEVELOPMENT ISSUES

- <u>Marketing for Moderate Income Rents</u>: The Project includes units ranging from 30% MOHCD AMI to 108% MOHCD AMI. While the Sponsor has substantial experience marketing low-income units, the Sponsor has more limited experience marketing moderateincome units and will need to engage with experts. Additionally, market conditions during pandemic suggest that it may take more time to lease the moderate-income units than the lowincome units. MOHCD will require the Sponsor to provide a marketing strategy memo and secure marketing consulting services. Please see Section 4.6 for further explanation.
- <u>Tenant Improvement plan for Health Clinic (MNHC)</u>: Due to the financial health of MNHC, MOHCD agreed to allow MNHC to own their commercial shell improvements and provide a separate ground lease to secure the City's covenants. MNHC will raise funds to pay for both the shell and all tenant improvements. If MNHC is unable to complete the acquisition of the commercial shell, the MOHCD bridge loan of \$3MM would stay with the limited partnership and BRIDGE will be responsible to find another use for the clinic space. See Section 4.4.
- <u>Identification of Commercial Tenant for 5,000 sf.</u> BRIDGE Housing Corporation (BRIDGE, or Sponsor) is developing the commercial marketing and lease up plan for this space. While some nonprofits in the area would like this space to be made available as nonprofit office space, the District Supervisor envisions a more active business on Mission Street. BRIDGE plans to hire a broker when the commercial shell is near complete in order to secure a social enterprise food vendor, such as a La Cocina graduate. See Section 4.4.
- <u>Sponsor Staff Capacity</u>. After the closing, BRIDGE anticipates that a new project manager will be assigned to the project. Sarah White will remain as supervisor and her time on the project will decrease. Strong construction management will be necessary to keep the project on track during construction, and strong project management will be necessary to address the commercial space plan and lease-up needs. Staffing for all BRIDGE projects remains a concern of MOHCD, though BRIDGE has provided updates as requested. See Section 1.2.

Total	\$108,149,342	\$789,411	\$552

# **RECOMMENDATION**

Staff recommends approval of this loan request.

### 1. BACKGROUND

1.1. Project History Leading to This Request.

MOHCD released a NOFA on April 18, 2016 entitled, "Acquisition and Predevelopment Financing for Affordable Multifamily Rental Housing, supported by the 2015 General Obligation Housing Bond – Proposition A." The project was selected out of a pool of submittals and received the highest score in a competitive panel-driven selection process. At the time of selection and when the project was originally presented to the Affordable Housing Loan Committee, the Sponsor planned to do modular construction, which was a key factor in selecting the Sponsor because modular allowed for cost savings. However, the project design presented with this request does not include modular due to community and decision maker input which expressed strong support for traditional construction.

The Sponsor submitted the site permit and entitlement application for an SB 35 project in March 2019. In July 2019, City Planning issued SB 35 approval. SB 35 allows administrative, non-discretionary approval for qualifying projects, and thereby, relieves the project of CEQA review. However, the Sponsors incurred approximately \$95,000 in CEQA costs related to two previous design iterations and the CEOA costs are included in the current request. In August 2019, when it was determined with the Supervisor that the Sponsors would not apply for MHP in order to increase the number of units available in the MOHCD lottery for neighborhood preference, MOHCD determined the project would be a HOPE SF offsite development and receive PBV's to offset the potential leveraging of State financing. HOPE SF is a mayoral initiative that seeks to transform four of San Francisco's most distressed public housing sites (Hunters View, Alice Griffith, Sunnydale Velasco, and Potrero and Potrero Annex) into new mixedincome communities. HOPE SF is an anti-displacement housing program that shares unified principles and goals to eradicate intergenerational poverty. The Project, as a HOPE SF offsite development, will have some obligation for smoothly transitioning HOPE SF households that voluntarily apply to live at 4840 Mission to the new neighborhood. Housing stability services available to all residents with an emphasis to assist HOPE SF families will be a focus of the resident services programing at the Project.

In October 2019, the Sponsors repaid a \$9MM acquisition loan with interest to San Francisco Housing Accelerator Fund (HAF). In November 2019, the Sponsors were awarded 40 project-based vouchers (PBV) that included a preference for households voluntarily moving to the Project from Potrero and Potrero Annex, a HOPE SF development. In December 2019, the Sponsors applied for tax-exempt bonds in order to retain the Difficult to Development Area tax credit equity adjustment.

Despite financing challenges throughout 2019, the Sponsor continued to make progress on the project in 2020. In July 2020, after discussions with the

Supervisor, the Sponsors returned five PBV's in order to increase the number of units available in the MOHCD lottery for neighborhood preference. In June 2020, the Sponsor received the site permit. Throughout 2020, they held two public meetings and at least two meetings with neighbors adjacent to the project. In September, the Loan Committee approved a preliminary commitment of \$51,614,447 for a CDLAC application. In December 2020, the project was awarded tax-exempt bonds. Because of the increase of the tax credit rate to 4.00% and some Sponsor aggressive changes to the application to improve competitiveness for tax-exempt bonds, the total City investment including acquisition is reduced by \$7.4MM excluding land.

This request is the final gap loan request required to close construction financing in May 2021.

1.1.1. Site Acquisition

In June 2017, the BRIDGE affiliate, 4840 Mission Housing Associates LP, acquired the site with loans from MOHCD and San Francisco Housing Accelerator Fund ("SFHAF"). An appraisal by Valbridge Property Advisors dated June 2016, indicated a total site value of \$12,420,000 or \$92,657 per unit assuming 134 units. In February 2017, BRIDGE received an updated appraisal that valued the unentitled land at \$13,090,000 and the entitled land at \$16,440,000. BRIDGE purchased the property for \$12,000,000, well below the new revised appraisal for unentitled and entitled land.

The Department of Real Estate (DRE) reviewed the June 2016 appraisal and found that it undervalued the land. However, since the lower value would benefit the affordable housing development, DRE staff did not require an updated appraisal.

Since the Sponsor's initial acquisition date, the project has accrued acquisition interest and carrying costs that are included in the total acquisition costs. From June 2017, the Sponsor's initial acquisition, to October 18, 2019, the HAF loan pay off date, the project paid \$1,229,857 in acquisition interest. The estimated carrying cost of security, fencing, and lighting from July 2017 to October 2019 was approximately \$843,000, the time period also represents the delay created in pursuing two previous design changes. The Sponsor was unable to activate the site during the design changes to mitigate some of the carrying costs, but in September 2019, the Sponsor secured a vendor to activate the site with parking.

In December 2020, BRIDGE had the site re-appraised as a requirement of the DRE that an appraisal must be 6-months current to the purchase of the property by the City. The current appraised value of the land is \$16,820,000. As mentioned 4840 Mission Housing

Associates LP owns the land. At least 2 weeks before the construction closing, the City will acquire the site through a transfer from the 4840 Mission Housing Associates LP for a cost that includes the \$12MM of the predevelopment loan expended on the initial acquisition, some demolition costs and possibly some predevelopment loan interest. The City will purchase the land for flat fee cost currently estimated at \$15,500,000, but the amount could increase to include the predevelopment interest and will be slightly lower that the current appraised value of \$16.8MM. The City will lease the land to the 4840 Mission Housing Associates LP, who will build the improvements.

1.2. <u>Borrower/Grantee Profile.</u> (See Attachment B for Borrower Org Chart; See Attachment C for Developer Resume and Attachment D for Asset Management Analysis)

4840 Mission Housing Associates LP, California limited partnership (LP), is the borrower of record. BRIDGE has formed 4840 Mission Housing LLC, a limited liability company (the LLC), to be the General Partner of the limited partnership. At closing, the tax credit investor, Bank of America, will become the limited partner.

For 31 years, BRIDGE, a San Francisco based nonprofit, has completed 131 projects comprising over 16,000 units of housing, including 14 projects and 1,467 units in San Francisco. BRIDGE developments serve a wide range of residents, from market-rent paying families to fixed-income seniors, to public housing residents, to the formerly chronically homeless. BRIDGE has a pipeline of new projects in construction (10 projects with over 1,000 units), and in predevelopment (an additional 5,200 units, including Potrero, a HOPE SF development, and Jordan Downs, a public housing rehabilitation development in Los Angeles), and is working in partnership with MOHCD on the Rebuild Potrero and RAD Public Housing reinvestment projects.

The following staff members will be assigned to 4840 Mission:

 Sarah White, Housing Development Director has acted as the lead project manager since October 2019. Ms. White currently spends 30% of her time on the Project. A development consultant, Andre White, has been engaged to support the coordination efforts related construction finance closing. Mr. White, unrelated to Ms. White, will act as the project manager lead for the construction closing, with supervision from Ms. White. BRIDGE is also actively engaged in finalizing a project manager hire. BRIDGE anticipates that newly hired project manager will "shadow" Andre and Sarah during the final stages of the closing, and be ready to take on project management duties once the project closes construction financing and begins construction. Post-construction loan closing, Ms. White will reduce her time on the project to 10% with up to 20% or more as needed at various stages of the project. The new project manager will see the project through construction, lease up, and permanent conversion phases under Ms. White's supervision. Since this will be the fifth project manager on the project, staff remain concerned though cautiously optimistic that continuity can be maintained. Also, Ms. White will increase her time as needed to provide adequate coverage during the transition phase. As well, BRIDGE has an in-house construction manager assigned to the project during this phase to insure the owner's contractual interests are met with the construction contract.

2) Ethan Rhee (Project Administrator): 15% of his time will be spent on the Project.

# Sponsor's Organization Review

On May 3, 2019, MOHCD completed a fiscal review of BRIDGE and there were no findings from that monitoring review. On October 7, 2019, MOHCD and OCII sent a letter to BRIDGE outlining some concerns about performance related to staff turnover, managing to the project schedule, and construction cost containment. BRIDGE responded to the letter. As a condition of this loan, BRIDGE must provide quarterly updates to this staffing plan outlined in its letter.

Site Description	
Zoning:	NCD (RH-1), Neighborhood Commercial District (Residential Overlay).
	Height & Bulk District: 40X
Maximum units allowed by current zoning (N/A if rehab):	137 units maximum per current planning code, with State Density Bonus.
Number of units added or removed (rehab only, if applicable):	Not applicable.
Seismic (if applicable):	Site is in a liquefaction zone. As a requirement of the debt and equity lender, a Probable Maximum Loss (PML) will be completed prior to closing and a copy will be provided to MOHCD.
Soil type:	Group Delta Consultants, Inc. completed a Preliminary Geotechnical Report dated September 21, 2015. The report concluded that the primary consideration for site development from a geotechnical perspective is the settlement association with liquefaction. Other geotechnical considerations include relatively shallow groundwater, encountered at 11.5 to 14.5 feet below existing grades, and stability of excavation for construction of a below-grade parking, if required, for mixed units building adjacent to Mission Street.

### 2. SITE (See Attachment E for Site map with amenities)

Environmental Review:	NEPA was completed November 20, 2020.
	Phase I prepared by Group Delta Consultants, Inc. dated September 9, 2015 did not identify any Recognized Environmental Conditions (REC). Phase I recommended an evaluation of the elevator equipment and sumps be inspected for PCBs.
	Group Delta Consultants, Inc. completed a Phase II dated September 17, 2015. Other than Total Petroleum Hydrocarbons (TPH) all detected constituents are below applicable screening levels and present a low risk for redevelopment. The Phase II further states that no source for TPH contamination was identified with the site; therefore, the source is likely one of the multiple off-site leaking UST cases identified within 500 ft of the site. No VOCs associated with TPH were identified and risk to future development associated with these detections is considered low.
	Path Forward completed a subsurface investigation report. This report identified perchloroethylene (PCE) at the site. As such a vapor intrusion management system (VIMS) system has been incorporated into the design.
Adjacent uses (North):	Commercial (Mission de Flores) and 4-story mixed-use residential.
Adjacent uses (South):	Safeway grocery store.
Adjacent uses (East):	Mission St. and across Mission Street 2-story commercial.
Adjacent uses (West):	Alemany Blvd. and across Alemany are single-family residential over parking podium dwellings.
Neighborhood Amenities within 0.5 miles:	Safeway supermarket including pharmacy Balboa High School Park and/or Recreation: Balboa Park, Excelsior Branch Library
Public Transportation within 0.5 miles:	Bus: Near Safeway parking Lot, #14. BART Stops: Balboa BART.
Article 34:	The Project received Article 34 authorization for 114 units in May 2017. The Project received authorization for a 137- unit development in October 2019.
Article 38:	Exempt: Project is not located within Air Pollutant Exposure Zone.
Accessibility:	As the Sponsor applied for bonds in 2019, the 2019 CDLAC and TCAC regulations apply: 5% (7 units) will be accessible; 2% (3 units) will be accessible for households with hearing and/or visual impairments. All units will be adaptable.
Green Building:	125-point minimum anticipated GreenPoint Rated score.
Recycled Water:	Not exempt, as the project will involve more than 40,000 sf of new construction.
Storm Water Management:	Project is subject to storm water management and the design is in the construction bid set.

- 2.1. <u>Zoning</u>. On July 2, 2019, City Planning issued Notice of Final Approval of an SB 35 Project.
- 2.2. Probable Maximum Loss. Not applicable. This is a new construction.
- 2.3. Local/Federal Environmental Review. As an SB 35 development, the Project is not subject to CEQA. However, the Sponsor completed a historic resource evaluation (HRE) for the first design as a Focused EIR because the mortuary building was constructed in the 1950's. An updated HRE was used on the second design, which required a full EIR. The Sponsor with their for-profit partner presented the second design to the City's Historic Preservation Commission. In order to be a good community partner, the Sponsor plans to retain the historic nature of the site through photographs, even though the SB 35 design project presented with this loan request does not require CEQA. All previous costs related to the Focused EIR and EIR related to the previous design are in the development budget.
- 2.4. Environmental Issues.
  - <u>Phase I/II Site Assessment Status and Results.</u> Sponsors completed the Phase I and Phase II. See chart above.
  - <u>Potential/Known Hazards.</u> The existing building was constructed before 1978 and during predevelopment staff and Sponsors suspected the building may contain asbestos-containing materials (ACMs) and lead-based paint. Sponsor completed an Asbestos and Lead-Based Paint Survey (Survey) by Group Delta dated September 15, 2015. The Survey revealed that there are asbestos containing material (ACMs) and asbestos containing construction materials (ACCMs) in the building. Also, building components with coating have lead-based paint. The Sponsors will complete abatement for ACMs, ACCMs, and lead-based paint prior to demolition. Path Forward completed a subsurface investigation report. This report identified perchloroethylene (PCE) at the site. As such a vapor intrusion management system (VIMS) system has been incorporated into the design. The cost for the VIMS is \$232K.
- 2.5. <u>Adjacent uses and neighborhood amenities.</u> The project exists between two major transit arteries, Mission Street and Alemany Boulevard. On Mission Street, the immediate neighborhood is comprised of mixed-use buildings with the upper floor residential units and ground floor commercial. On Mission, there are a rich assortment of business including a supermarket, nail salon, restaurant, and local business shops. On Alemany Boulevard, the immediate neighborhood is single-family dwellings over parking podiums.
- 2.6. Green Building. See chart above.

### 3. OTHER ENTITLEMENTS ISSUES

### 3.1. Community Support.

Chapter 79 of the City's Administrative Code requires public noticing (Prop I) for any City new construction project. BRIDGE completed Prop I notification on May 27, 2017.

The community supported BRIDGE's proposal presented in the NOFA response from the prior District Supervisor whose term ended December 2016. The District Supervisor whose first term began January 2017, requested that BRIDGE explore design modifications that would include a commercial use suitable for households at all income levels in the district. BRIDGE's current SB 35 design, and the design associated with this loan request, includes 135 units of affordable housing, 2 staff units, a commercial space, and community-serving commercial space.

Several nonprofit organizations supported the design presented in BRIDGE's NOFA response including: Mission Neighborhood Health Center, which will occupy a commercial space in the project; TransForm, California's leading transportation advocate and nonprofit organization working in the San Francisco Bay Area and California; and PODER, People Organizing to Demand Environmental and Economic Rights, which works to improve the health and lives of Latino immigrants and low-income families of color in San Francisco's Mission and Excelsior districts and other neighborhoods.

However, these organizations did not support the design modifications requested in January 2017. The January 2017 design required the Sponsor to partner with a market-rate developer in order to put Safeway on the ground floor of the affordable building. This "Safeway" design, as it was called by the community, required a full EIR for CEQA, whereas the NOFA design required a Focused EIR. Both the NOFA and Safeway designs required a significant community involvement process. Due to unforeseen financial obligations of Safeway, the Safeway design did not move forward. In order to make up for time expended going through a CEQA review process, BRIDGE proposed a design that is 100% affordable and approved through SB 35, which allows administrative, non-discretionary approval for qualifying projects and allows the project to maintain the schedule it would have had if the Safeway design had moved forward. However, it should be noted that 29 months passed from July 2017 to October 2019, the date MOHCD funds were used to pay off the HAF acquisition loan.

It should also be noted that the nonprofit organizations mentioned above have provided tentative support to the Project. While the Sponsors met with the nonprofits and held public meetings, support for the project is mixed. The nonprofits want more units available in the lottery at lower incomes and the single-family home owners want the original design that more townhouse style units on Alemany. The return of 5 PBV's in July 2020 addressed the nonprofits request for more units with lower affordability available for the lottery. Since receipt of the SB 35 entitlement, opposition has not been as prevalent as it was in 2017 during the "Safeway" design phase.

- 4. DEVELOPMENT PLAN
  - 4.1. <u>Site Control.</u> A BRIDGE affiliate, 4840 Mission Housing Associates LP acquired the property directly from the seller in May 2017. 4840 Mission Housing Associates LP is the fee simple owner.
    - 4.1.1. Proposed Property Ownership Structure. BRIDGE will complete a parcel split prior to the land acquisition. One parcel will contain the residential housing and auxiliary components and the 4,407-sf commercial space, and the other will contain the 9,977-sf community clinic. At least one week prior to the construction loan closing, 4840 Mission Housing Associates LP will convey the property to the City and execute two ground leases for the subdivided parcels. The City will own both parcels in fee and lease to 4840 Mission Housing Associates LP, who will own the improvements of both parcels during construction. Once the temporary certificate of occupancy (TCO) is received, 4840 Mission Housing Associates LP, will transfer its leasehold interest in the parcel with the 9,977-sf commercial clinic to MNHC for the cold shell acquisition price not to exceed \$3MM. MNHC will then hold the ground lease on the commercial parcel and own the improved commercial shell and their tenant improvements, which includes warm shell improvements as defined in the MOHCD Commercial Underwriting Policy.
  - 4.2. <u>Building Design.</u> The design is represented by two primary architectural design components; a 5-story, wood-framed (4 stories over concrete podium) mixed use multi-family building with ground floor commercial space bordering Mission Street and an exterior design on Alemany Boulevard that appears as 3-story townhomes / row houses with separate entrances that open on to Alemany Boulevard and steps back at the 4 and 5 floors.

The 4840 Mission Street project is located between France and Onondaga Avenues in San Francisco's Excelsior/Outer Mission Neighborhood. The planned 137-unit project spans the entire block width between Mission Street and Alemany Boulevard. The project is planned as 137 units of 1-, 2- and 3-bedroom units, and over 50% of the units are 2- and 3-bedroom units. The building includes approximately 14,384 of ground floor commercial space comprised of a 9,977-sf community clinic for Mission Neighborhood Health Center (MNHC), and 4,407 sf of retail space. The project amenities also include:

- One 8,710-sf public/private pedestrian plaza/paseo and walkway that will serve the south side of the property connecting Mission Street and Alemany Boulevard as well as another 4,403-sf walkway on the northern edge;
- a landscaped 9,299 sf central courtyard;
- common laundry;

- community room;
- 39 automobile parking stalls;
- 136 class 1 bike stalls<sup>4</sup>, and;
- management and services spaces.

Avg Unit SF by type:	1-brdm avg sf: 659
	2-brdm avg sf: 963
	2-brdm townhouse avg sf: 1,193
	3-bdrm avg sf: 1,218
Total Residential SF:	164,917 sf
	Residential SF: 124,157
	Circulation SF: 32,277
	Common Area SF: 8,483
Total Commercial SF*:	14,384 sf
	Health Clinic SF: 9,977
	Commercial Retail SF: 4,407
Total Parking SF*:	16,666 sf – 40 spaces
	Parking Garage SF: 16,666
Building Total SF:	195,967 sf
Exterior Spaces	North Paseo: 4,403 sf
	South Public Paseo: 8,710 sf
	Courtyard: 9,299 sf

4.3 <u>Construction Supervisor/Construction Specialist's evaluation</u>. The following review is based on the 50% construction documents (CD) and accompanying 50% CD cost estimate from Nibbi Brothers General Contractors ("Nibbi") who were competitively selected by BRIDGE Housing in December 2019.

4840 Mission Street will be one of the first major developments in the Excelsior District in 25 years. The 1.4-acre, 4840 Mission Street parcel was previously occupied by Valente Marin, Perata & Co. in what was commonly known as "The Funeral Directors Building" or "the mortuary." The parcel also includes a surface parking lot for the mortuary. It is situated on a relatively flat parcel which is well suited for the proposed mixed-use design, which includes ample open space, housing types, and commercial and common spaces.

The overall design by Van Meter Williams Pollack (VMWP) presents a 5story, "O" shaped building which includes townhomes accessible from the street on the Alemany Boulevard side. In addition to the 8,710-sf public/private pedestrian plaza/paseo and walkway on the south side of the building, the north side of the property includes a 4,403-sf private walkway. Subsurface parking will be provided through an entrance to the basement off of Alemany Boulevard. The residential lobby to the townhome portion of the development is also located on the western Alemany Boulevard side.

<sup>&</sup>lt;sup>4</sup> Class 1 Bicycle Parking Space(s). Spaces in secure, weather-protected facilities intended for use as longterm, overnight, and work-day bicycle storage by dwelling unit residents, nonresidential occupants, and employees. SF Planning Department.

The east elevation's first floor façade, on Mission Street, is dominated by 9,977-sf commercial space, with the residential entry opening at the southern corner which is accessed through a public private walkway. The length of this façade is articulated with differentiation in materials, colors, door types, shades, and bay windows. The massing is broken at approximately the midpoint in the façade, to reduce the overall impact of the building and establish a rhythm in keeping with the architectural vocabulary of the mixed-use design of adjacent buildings along both sides of Mission Street. The community room and common offices open onto a courtyard while the laundry rooms are interspersed through floors 2 through 5. The management, services, bike parking, and utility spaces complete the uses on the ground floor. The development also includes a 9,299-sf central courtyard which transitions from "at grade" to a first-floor concrete podium above a basement level garage at the approximate mid-point of the property.

The Project is anticipated to start construction on June 1, 2021 and will take approximately 24 months to construct. The current total development cost of <u>\$108,149,342</u> includes hard costs provided in the CD estimate provided by Nibbi Bros. The hard costs are currently <u>\$623,113</u> per unit, which is about 4% lower than the average of all developments in the MOHCD portfolio. This is lower than comparable, Type VB or IIIA (both wood framed) construction projects in the MOHCD portfolio, and the estimate of <u>\$436 per sf</u> is about 18% lower than the average for the MOHCD portfolio and speaks to the efficiency of the overall scale for the Project. This is discussed further in the next section. The development budget is holding 2.5% bid contingency, 3% plan check contingency, and 5% hard cost contingency, consistent with MOHCD underwriting guidelines. Bid, and plan check contingencies will be reduced and removed as the Project's design and permitting advance.

VMWP have completed the 50% CD set of drawings. The site permit was issued in June 2020. The demo permit was approved in November 2020 and demolition and abatement is currently underway. Addenda 1, 2 and 3 were submitted in 7/1/2020, 8/15/2020 and 8/31/2020 respectively. Final guaranteed maximum price (GMP) contract negotiations are underway. Results are anticipated by March 1, 2021.

The most significant risk to the project is the ongoing unresolved PGE/PUC energization issue. PGE is not accepting the current approved low side metering design. The potential schedule and budget impact of redesign is profound. MOHCD is working with the project sponsor to resolve and is confident an appropriate solution with be achieved. Because of this unresolved PGE/PUC issue, if there is any project savings from the GMP, depending on the outcome from the issue, Sponsor may hold the saving as an allowance in the event plans may change. However, if the current plans are

the resolution, the saving in the GMP should be returned to MOHCD and used to reduce MOHCD's gap loan amount.

4.4. <u>Commercial Spaces.</u> Along the Mission Street frontage, the Project has 14,384sf total commercial space for two occupants. Mission Neighborhood Health Center (MNHC) will occupy 9,977 sf of the commercial space and a to-bedetermined commercial tenant will occupy the remaining 4,407 sf. Presently the 4,407-sf space is planned to be occupied by one tenant. However, once BRIDGE has secured a broker plans may change. BRIDGE has subdivided the parcel. Parcel A will contain the residential affordable housing and 4,407 sf commercial space and Parcel B will contain the 9,977 sf MNHC clinic.

<u>Commercial Space – 9,977 sf.</u> Due to MNHC's financial health, MOHCD agreed to allow MNHC to have a ground lease for Parcel B with MOHCD and own the cold shell and tenant improvements, including MOHCD defined warm shell. Sale of the cold shell will occur after TCO and will not exceed \$3MM. MOHCD's loan to the Sponsor includes a bridge loan for the construction of the cold shell. 4840 Mission Housing Associates LP will hold the Parcel B ground lease until the cold shell acquisition. MNHC will pay off the MOHCD bridge loan at the acquisition of the cold shell and the MOHCD ground lease will transfer to MNHC. MNHC needs to raise \$8.5MM to finance the cold shell, warm shell, and tenant improvements.

BRIDGE and MNHC are completing the final negotiations of a Joint Development and Transition Agreement (JDTA) whose purpose is to outline the terms and conditions of the development of the cold shell and transfer/purchase terms and conditions between MNHC and BRIDGE. The JDTA includes a condition that the cold shell acquisition by MNHC will occur after TCO for the entire building is received and when MNHC provides evidence to BRIDGE and/or the limited partnership that MNHC has the funds to complete the remaining clinic improvements. This condition means the ground lease will stay with 4840 Mission Housing Associates LP until MNHC has evidence of funds to start its improvements or the limited partnership or BRIDGE will find another nonprofit for the space. The JDTA will be completed and fully executed in March 2021 and will be a required document prior to the residential construction closing.

MNHC contemplated New Markets Tax Credits (NMTC). While NMTC is an option, the project is underwritten assuming no NMTC. MNHC's tenant improvement commercial loan that includes warm shell improvements is estimated at 4.00% interest, 20-year loan with a 20-year amortization. MOHCD and MNHC are still negotiating the residual receipts rent on the ground lease which currently anticipates a base rent of \$5,000 with no residual receipts payments.

<u>Commercial Space -4,407 sf.</u> The cold shell improvement costs of the 4,407-sf commercial space are included in the MOHCD total loan amount.

The warm shell and tenant improvements for this commercial space will be completed by the to-be-determined commercial tenant. The cold shell cost for this space is approximately \$1.3MM. BRIDGE has engaged Lev Weisbach as a consulting architect to develop potential commercial space plans. In order to help BRIDGE attract a variety of potential business tenants to lease the space, Lev Weisbach will work with VMWP staff to properly plan for commercial building infrastructure locations for items, such as trash, bathrooms, and venting. This commercial space could be configured for up to 3 tenants, including up to 2 food service tenants relying on counter service and "to-go" style business plans. For a food vendor that may require a grease duct, the Sponsors and architect have determined that a grease duct can fit below sinks in this space because the slab is depressed. The grease duct below the sink was a better option than having the duct eliminate on Mission Street. Since the grease duct will be below a sink it can be a tenant improvement cost and not a warm shell cost. Sponsors are still discussing the venting for a commercial space.

Once the commercial shell is complete, BRIDGE will begin to work with a broker to locate the optimal businesses for the neighborhood. BRIDGE is not relying on commercial income to make debt service payments; as such these spaces can be targeted to support small businesses that need affordable commercial space. Examples of BRIDGE's vision for the commercial space could include a coffee shop vendor, which is an expressed desire of the neighbors, or a La Cocina program graduate. Sponsors will be required to provide a commercial plan for this space by July 30, 2021 and 25% of the construction closing developer fee will be withheld until plan is provided. Also, in the plan, Sponsors must indicate whether a Type I or II vent is required.

4.5. <u>Service Space</u>. The supportive service office is located near the Alemany Boulevard entrance and near the community room. The property management offices are located near the entrance near Mission Street.

UNIT SIZE		MAXIMUM INCOME LEVEL

2 BR	7	109% MOHCD AMI	80% TCAC AMI
3-BR	0	109% MOHCD AMI	80% TCAC AMI
80% TCAC AMI Sub-Total	7		
STAFF UNITS			
2-BR	2	N/A	N/A
TOTAL	137		
PROJECT AVERAGE		59.72%	57.70%

It should be noted that all units will be restricted, in the MOHCD Declaration of Restrictions, to the MOHCD AMIs stated above, and not the TCAC AMIs. The Declaration will also include an acknowledgement that all units must be occupied by households whose adjusted income does not exceed 110% MOHCD AMI and that in order to retain tax credits at no time will the MOHCD AMI exceed the equivalent amount of 80% tax credit area median income.

In addition, as stated in the September 9, 2019-loan evaluation, the San Francisco Housing Authority (SFHA) will place households in the units with

PBV rental subsidy; there will be a preference for Potrero Terrace and Potrero Annex HOPE SF residents that voluntarily apply to 4840 Mission.

Also, FHLB AHP will require 60% of the units (82 units) to be at or below 50% TCAC AMI. Since the Project has 75% (103 units) at or below 50% TCAC AMI, the AHP affordability restrictions are not shown in the chart above.

4.7. <u>Marketing & Occupancy Preferences</u>. Marketing and occupancy outreach for the Project will be conducted in accordance with all applicable fair housing laws. BRIDGE Property Management Company (BPMC) will conduct outreach to neighborhood-based, non-profit housing corporations, agencies and other low-income housing advocacy organizations that maintain waiting lists. BPMC was formed in 1987 as a financially independent but affiliated nonprofit tax-exempt management company to ensure the quality of BRIDGE's developments will be maintained over time.

All units that are not subsidized by SFHA Project Based Vouchers will be entered in a lottery and subject to San Francisco preferences. Among all eligible applicants, additional preference will be observed in the following order:

MOHCD Preference	Applicant Category			
1	Certificate of Preference (COP) Holders			
2	Displaced Tenants Housing Preference (DTHP) Certificate Holders (20% - 20 units)			
3	Neighborhood Preference (40% - 40 units)			
4	Live or Work in San Francisco Preference			
5	All Others			

Marketing materials will be printed in Chinese, English, Spanish and Tagalog, and published in a variety of publications that represent a broad range of non-English speaking populations.

The Project has been designated a "HOPE SF offsite", which means that 25% of its units will be subsidized with PBVs and provide a preference for HOPE SF residents who voluntarily apply for a unit at the Project. The waitlist and preferences for the PBV units will be maintained by SFHA outlined in the SFHA Administrative Plan, updated annually and posted on the SFHA website.

The Project includes units at 30% MOHCD AMI and up to 108% MOHCD AMI. While BPMC has substantial experience marketing low-income units, the Sponsor has more limited experience marketing moderate-income units and will need to engage with experts. Additionally, market conditions during pandemic suggest that it may take more time to lease the moderate-income units than the low-income units. MOHCD will require the Sponsor to provide a marketing strategy memo and secure marketing consulting services, if necessary. 4.8. <u>Relocation</u>. Relocation does not apply to 4840 Mission.

# 5. DEVELOPMENT TEAM

- 5.1. <u>Outstanding Procurement Issues</u>. On March 27, 2019, the overall SBE participation goal for this Project was set at 20% for professional services and construction services.
- 6. FINANCING PLAN (See Attachment F for Cost Comparison of City Investment in Other Housing Developments; See Attachment G and H for Sources and Uses)
  - 6.1. <u>Prior MOHCD/OCII Funding (this project and historical for the project)</u>: The Predevelopment Loan for \$6MM, executed May 11, 2017, was fully disbursed in October 2019. On October 4, 2019, City and the borrower executed a First Amendment to the Loan Agreement ("Loan Amendment"), providing \$12,510,000 in additional predevelopment and acquisition funds to pay off an acquisition loan with the HAF.

Key	Program		Amount	Rate	Date	Principal	Drawn	Amount	To Date
						Balance			
2268	Predev Original: 2015 General Obligation Bond	5/11/2017	\$3,000,000	3.00%	6/30/2021	\$3,000,000	\$3,000,000	\$0	\$383,000
2267	Predev Original: AHF - Inclusionary (\$3MM)	5/11/2017	\$3,000,000	3.00%	6/30/2021	\$3,000,000	\$3,000,000	\$0	\$383,000
	Predev Amendment: AHF - Inclusionary & (\$12.51MM)	10/4/2019	\$12,510,000	3.00%	10/4/2076	\$12,510,000	\$11,409,073	\$1,100,927	\$340,309
	TOTAL		\$18,510,000			\$18,510,000	\$17,409,073	\$1,100,927	\$1,106,309

- 6.2. <u>Disbursement Status.</u> As of Draw #26 (approved November), \$17,409,073.32 has been drawn of the total loan of \$18,510,000 with \$1,100,926.68 remaining.
- 6.3. <u>Fulfillment of Loan Conditions</u>. The loan conditions below are new, inprocess or incomplete loan conditions from the preliminary loan evaluation in September 2020.

By 10/1/20:

• Sponsor must provide alternative financing and development schedule to MOHCD for review and approval in the event that the project does

not receive CDLAC funding. Revised schedule should include a possible redesign. After MOHCD review and approval, Sponsor must present information to Supervisor with MOHCD present. After meeting with Supervisor, Sponsor must notify community stake holders of the alternative plan.

**Status: Not Applicable.** Project was awarded bonds in December 2020 and an alternative schedule is no longer required.

By Gap Loan request (winter 2021):

• Sponsor must reduce the hard cost budget to be equal to or lower than comparable projects in the MOHCD portfolio and currently in development.

**Status: Completed.** Project costs are equal to comparable projects in MOHCD portfolio.

• Sponsor must submit an acceptable commercial development plan for the clinic, including schedule of release of commercial developer fee, to MOHCD.

**Status: In process.** Sponsor is working on a plan for the 4,407-sf commercial space. Submission of a commercial plan will be required prior to payment of any developer fee during construction. The JDTA between the Sponsor and MNHC is in process and an executed JDTA will be a closing condition.

- Sponsor must use MOHCD's current proforma template. Status: Completed.
- Sponsor must submit lender and investor recommendation to MOHCD for approval.

**Status: Completed.** 

• The Project must meet MOHCD underwriting guidelines related to the DSCR.

**Status: Completed.** In the first full year of operations the Project's DSCR is 1.15:1 and meets the DSCR in the debt lenders Letter of Interest (LOI).

• Sponsor must request reduction in the interest rate to actual interest rate and any savings generated from the lower interest rate must be applied to MOHCD's loan.

**Status: Completed.** Selected debt lender interest rate is 3.45% and the construction lender is the equity provider and has tax credit pricing of \$0.995. The interest rate at the preliminary gap evaluation was 4.00%.

• BRIDGE must provide a solution to a possible tax event due to the MOHCD loan changing from 3% predevelopment interest loan to a proposed 1% interest total gap loan that includes predevelopment financing.

**Status: In process.** At least one week prior to the bond loan closing, the land sale, ground lease, and MOHCD loan closing will occur. The new gap loan will be used to acquire the land including transfer

predevelopment loan interest and some demolition. The land acquisition costs will be a flat fee and will be below \$16,820,000, the updated appraisal price. However, the Department of Real Estate appraisal will be used to determine a sales price below the highest value of the land.

• BRIDGE must provide a true-debt test to show that the Project cannot support a 3% interest total gap loan that includes predevelopment financing.

**Status: Completed.** BRIDGE provided and in order for the capital accounts to remain positive, the Project requires a 1% interest rate.

By Gap Loan request (winter 2021) and carryover loan conditions from September 9, 2019-Loan Evaluation:

• Prior to gap loan request for a state financing program, Sponsor to provide a line item breakout of furnishings budget with financial analysis and provide explanation for any furnishings cost exceeding MOHCD guidelines. At MOHCD's discretion, Sponsor may be required to remove excess furniture expenses from revised and updated budgets.

**Status: Completed.** The \$349,000 in the loan evaluation meets MOHCD underwriting guidelines and includes \$274,000 for common area and \$75,000 for office and office equipment set-up costs.

• The Sponsor must provide documented explanation for the Construction Management costs.

**Status: Completed.** The total requested meets MOHCD guidelines at \$250,000 total (\$5000 for 34-month construction plus two years of predevelopment at \$40K annually).

• For the community-serving commercial space (health clinic), BRIDGE must present a thorough commercial space financing plan that includes information on MNHC's proposed ownership structure; NMTC funding availability for the clinic; ground lease payment potential by MNHC, if the clinic does not own; clinic tenant improvement costs and funding sources; schedule that include financing and tenant improvement start dates; an evaluation of MNHC's fundraising potential and capacity, and; an MOU between Sponsor and MNHC detailing key agreements and responsibilities.

Status: In process. See Section 4.4.

1) BRIDGE will develop cost containment strategies for construction and present them at the various cost estimates (schematic, design development, construction) with narrative analysis of the pricing from the general contractor.

**Status: In process and ongoing.** BRIDGE provided responses to the Construction Specialist. BRIDGE and MOHCD continue to work with its general contractor and architect to reduce costs.

2) BRIDGE to implement cost containment strategies that reduce MOHCD subsidy to \$250K per unit and meet the goal of the total development costs excluding land to be less than \$750K per unit. Status: Completed. BRIDGE's current loan request excluding acquisition is equivalent to \$186,142 per unit. If the site is acquired by MOHCD for the maximum purchase price, the total City investment will be \$343,419 per unit. With the complicated foundation system, other than cost reduction suggestions provided by the MOHCD Construction Representative Manager, the hard costs are lower than those of other developments in the MOHCD portfolio.

Recommended conditions prior to funding Developer Fee and carryover loan conditions from September 9, 2019-Loan Evaluation:

• Prior to funding Project Management Fee paid during construction or at completion of construction, BRIDGE must apply for FHLB AHP. **Status: Pending.** This condition will be included in the loan agreement.

Loan Committee modification from September 18, 2020-preliminary loan evaluation.

Prior to submittal of CDLAC/TCAC commitment letter:

• BRIDGE must provide a written staffing plan for 4840 Mission. **Status: Completed.** BRIDGE provided a written staffing plan.

Condition for <u>all loans to BRIDGE</u> until the requirements have been met. Please note status of these conditions are the jurisdiction of the MOHCD Director and Deputy Director of Housing.

- BRIDGE must develop specific and actionable plans to the satisfaction of MOHCD to address each of the following items identified in the letter dated October 7, 2019:
  - Staff turnover on all MOHCD and OCII projects and provision of adequate level of staffing and project planning. Response should include the running total of staff changes to-date on all MOHCD and OCII funded projects that have not converted to the permanent loan.
  - Managing individual MOHCD and OCII funded project schedules and address delays.
  - Delays in performing essential tasks.
  - Demonstration of modular expertise/capacity.
  - Construction cost estimating, cost control, and construction management.

**Status: In process**. BRIDGE responded to MOHCD and OCII letter dated October 7, 2019. As a condition of this loan, BRIDGE must provide

quarterly updates to the staffing plan outlined in its letter to the MOHCD Director and the Deputy Director of Housing.

- 6.4. Potential/Proposed Permanent Financing.
  - 6.4.1. <u>Permanent Sources Evaluation Narrative.</u> BRIDGE proposes to use a combination of the following:

**MOHCD Loan** (**\$28,751,450**). The loan includes two bridge loans: 1) \$3MM for the MNHC clinic commercial shell and 2) \$1,250,000 for AHP. The total City investment in the Project, including acquisition, is \$47,048,470. A portion of the total City investment amount will be used to acquire the site from 4840 Mission Housing LP for a not to exceed amount of \$16,820,000.

**Private Mortgage (\$25,514,287).** JJL Real Estate Capital is providing the permanent loan. The interest current rate is 3.72% for 15-year term and 40-year amortization commencing at permanent conversion. A portion of the loan, \$11,255,000, is supported by the 35 PBV's.

**4% Tax Credit Equity (\$51,584,616).** Bank of America is the selected equity investor and was the highest bidder at \$0.995 per credit. The tax credit amount is based on the 4.00% credit rate.

**General Partner Equity Contribution (\$0).** In order to have a competitive September 2020-CDLAC TCAC application, the Sponsors reduced the GP Equity amount to \$0. Staff accepted the change in order to have a competitive application, although the amount is not consistent with the MOHCD Developer Fee Policy that sets minimum of \$500,000 for GP Equity contribution. Approval of a waiver to the MOHCD Developer Fee Policy is included with this request.

**Deferred Developer Fee (\$2,298,989)**. The deferred fee is consistent with MOHCD Developer Fee Policy and will be paid out over 14 years.

**Construction Loan (\$68,157,232).** Bank of America (BofA) will provide the construction loan. Since BofA is also providing the tax credit equity there is a related party issue that MOHCD and the Sponsor are currently negotiating. The construction loan will be paid off by the permanent loan and tax credit equity. The tax-exempt portion of the loan is \$51,340,687 and has a rate of 3.45%. The taxable portion of the loan is \$16,816,545 and has a rate of 3.55%. The term of the construction loan is 34-months. The Project as currently underwritten meets its 50% test for the bonds.

Development Budget					
Underwriting Standard	Meets Standard? (Y/N)	Notes			
Hard Cost per unit are within standards	Y	\$623,113/unit is \$23.4K below the average construction cost of recent developments in MOHCD portfolio.

8.2. Annual Operating Expenses Evaluation.

Operating Proforma				
Underwriting Standard	Meets Standard? (Y/N)	Notes		
Debt Service Coverage Ratio is between minimum 1.10:1 in year 1 and maximum 1.00:1 in year 17	Y	DSCR is 1.15:1 in year 1.		
Debt Service Coverage Ratio stays above 1.00:1 for entirety of projected 20-year cash flow	Y	DSCR not go below 1.00:1 for the entirety of the projected 20-year cash flow.		
Vacancy meets TCAC Standards	Y	Vacancy is 5%.		
Annual Income Growth is increased at 2.5% per year	Y	Income escalation factor is 2.5%.		
Annual Operating Expenses are increased at 3.5% per year	Y	Expenses escalation factor is 3.5%.		
Base year operating expenses per unit are reasonable per comparables	Y	Total Residential Operating Expenses are \$11,738 PUPA before reserves and ground lease.		
Property Management Fee is at allowable HUD Maximum	Y	Total Property Management Fee is \$98,640 or \$60 PUPM.		
Property Management staffing level is reasonable per comparables	Y	<ul> <li>Staffing includes 5.5 FTE total, including the following:</li> <li>1.0 FTE Property Manager</li> <li>1.5 FTE Janitor</li> <li>1.0 FTE Maintenance Supervisor</li> <li>1.0 FTE Maintenance Technician</li> <li>1.0 FTE Resident Services Coordinator</li> </ul> Also, Sponsors will have a Courtesy Patrol for 8 hours a day / 7 days a week.		

Asset Management and Partnership Management Fees meet standards	Y	The first full year of operations begins in 2024. In the first full year of operations the AM Fee, which is paid before debt service, is \$25,130 and escalates at 3.50% annually. The annual PM Fee, which is a payment after debt service and reserves, is \$18,619 and escalates at 3.50% annually.
		The combined AM and PM Fee in 2024 is estimated to be \$50,249 and the fees as planned are below the total.
Replacement Reserve Deposits meet or exceed TCAC minimum standards	Y	Replacement Reserves are \$500 per unit per year.
Limited Partnership Asset Management (LP AMP) Fee meets standards	Ν	Annual LP AMP is \$11,500 per year with no annual escalation. The amount combined with the AM and PM Fee does not exceed the total of the AM, PM, and LP AMP in 2024, which is \$55,249 and staff accepts the flat LP AMP amount even though the LP AMP fee is higher than the MOHCD Operating Fee Policy. Staff and Sponsor request a waiver to the policy.
Project-Based Vouchers	Y	This development will have 35 units set- aside for households relocating voluntarily from Potrero HOPE SF development.

#### 9. SUPPORT SERVICES

- 9.1. <u>Services Plan.</u> BRIDGE will have a 1.0 FTE Resident Services Coordinator (RSC) and a supervisor over the RSC at 0.5 FTE. BRIDGE's plan submitted to MOHCD and HOPE SF also includes an "Organizer" at 3 hours per week for a full year. MOHCD, HOPE SF Impact Team, and BRIDGE are discussing the Organizer role and BRIDGE's approach to resident services as it relates to the overall services with a focus on the HOPE SF families voluntarily relocating to Potrero and Potrero Annex. BRIDGE's draft plan did not include an identified service partner and did not specify whether the RSC would be a third-party partner or BRIDGE employee. There are loan conditions related to completing negotiations of a resident services plan and delivery of a near final services plan.
- 9.2. <u>Service Budget.</u> The services budget submitted with this funding request included salary and benefits for the 1 FTE Resident Services Coordinator, 1 Organizer, and supervisorial overhead and supplies totaling \$107,400 or approximately \$784 PUPA. This amount is paid out of the property's operating budget.
- 9.3. <u>HOPE SF Assessment of Service Plan and Budget.</u> Sponsor submitted a draft service plan and MOHCD and HOPE SF Impact Team responded to the submission. MOHCD and the HOPE SF Impact Team will continue to

discuss and negotiate the service plan since some of the staff positions and philosophy related to providing services, especially to the families relocating from Potrero and Potrero Annex, are not aligned. Staff will condition several milestones related to the services plan and tied to payments of developer fee in the Developer Fee Agreement.

#### **10. STAFF RECOMMENDATIONS**

#### 10.1. Proposed Loan/Grant Terms

Financial Description of Proposed Loan		
Loan Amount:	\$28,751,450	
Loan Term:	57-year loan at construction closing	
Loan Maturity Date:	2078	
Loan Repayment Type:	Residual Receipts	
Loan Interest Rate:	1%	

- 10.2. <u>Recommended disbursement conditions/schedule.</u>
  - 1) As a condition to the construction closing, Sponsor must submit an executed copy of the JDTA prior to residential closing scheduled for May 21, 2021.
- 10.3. <u>Recommended conditions in the gap loan agreement.</u>
  - 2) If there is any project savings from the GMP, Sponsor may hold the saving as an allowance in the event plans change due to the unresolved PGE/PUC issue. If the low-side metering is accepted, and the construction plans do not have the change, the saving in the GMP should be returned to MOHCD and used to reduce MOHCD's gap loan amount.
  - 3) BRIDGE must provide quarterly updates to the satisfaction of MOHCD to on staffing, specifically:
    - Staff turnover on all MOHCD and OCII projects and provision of adequate level of staffing and project planning. Response should include the running total of staff changes to-date on all MOHCD and OCII funded projects that have not converted to the permanent loan.
- 10.4. <u>Recommended conditions prior to funding Developer Fee</u>
  - 4) Prior to funding Project Management Fee paid during construction or at completion of construction, BRIDGE must apply for FHLB AHP.
  - 5) 25% of the 20% of developer fee due at closing will be withheld and disbursed when Sponsor submits an update of the draft Services Plan in

response to MOHCD's and HOPE SF's comments and a commercial plan for the 4,407-sf commercial space.

- 6) 25% of the 20% of developer fee due at closing will be withheld until a commercial plan for the 4,407-sf commercial space is provided. In the commercial plan, Sponsors must indicate whether a Type I or II vent is required and grease duct and whether those improvements will be completed with the commercial cold shell for the space.
- 7) At least 1 year prior to receipt of temporary certificate of occupancy, Sponsor submit final draft of Services Plan and negotiate final terms of funds paid from operations prior to permanent loan closing.

#### 10.4 <u>Recommended conditions prior to permanent conversions</u>

- 8) Sponsor to provide lease agreement for the 4,407-sf commercial space.
- 9) Sponsor to provide an analysis of rents and debts for the 4,407-sf commercial spaces 9 months prior to TCO.
- 10) Sponsor to provide initial draft marketing plan within 12 months of anticipated TCO, outlining the affirmative steps BPMC will take to market the project to the City's preference program participants, including COP Holders, Displaced Tenants, and Neighborhood Residents, as well as how the marketing is consistent with the Mayor's Racial Equity statement and promotion of positive outcomes for African American San Franciscans.

#### Attachment C: Developer Resume

#### **BRIDGE Housing's Development Experience**

4840 Mission will be developed by BRIDGE Housing Corporation, one of the nation's most experience affordable housing developers. BRIDGE Housing Corporation has an extensive history of delivering high quality successful projects, and also has strong roots in San Francisco. BRIDGE will leverage the talents and resources of our organization to ensure the development of much needed affordable housing in San Francisco's Excelsior District that meets the intended goals of the City and responds to the community's historical, social and architectural context.

#### **BRIDGE Housing Corporation**

BRIDGE has developed over 13,000 units of affordable housing in its 33-year history, including over 1,700 affordable units in San Francisco. For the purposes of fulfilling the minimum developer requirements in the NOFA, BRIDGE provided a description of 474 Natoma, a 60 unit 100% affordable rental housing development that was financed with low-income housing tax credits within the last 5 years; The Coronet, a 150 unit 100% affordable development funded by LIHTCs within the past 10 years and; Armstrong Place Senior Housing, a completed development with a mixed-use component that includes at least 5,000 sq/ft of retail/commercial space completed within the past 10 years. We have also included BRIDGE's experience as an organizer in collaborative community outreach and additional experience developing mixed-use communities.

#### Qualifying Project – Affordable Housing Rental Project of at least 50 Units

#### 474 Natoma

On a site vacant since the 1989 Loma Prieta earthquake, 474 Natoma, located in San Francisco's SOMA Redevelopment Area, was completed in 2013. This high-density residential development provides much needed affordable family housing with a mix of 60 one-, two- and three-bedroom apartments. In an effort to serve low income families, 40% of the units are 2 or more bedrooms whose size averages approximately 1,200 square feet.

Situated on a small property between two alleys, 474 Natoma's front and rear buildings share a common two-level lobby and through-block passageway linked to a central courtyard. At the top floor, a landscaped terrace and a community garden provide additional sunny and secure outdoor areas with city views. Amenities also include laundry facilities and a community room. The nine-story mid-rise building features sustainable building strategies and has achieved GreenPoint Rated certification. As a development located in the C-3 district, the building also incorporates a public artwork installation on the exterior along the length of the elevator shaft.

#### Additional Completed Family or Senior Development of at least 75 units

#### The Coronet, San Francisco

The Coronet was developed in partnership with the Institute on Aging (IOA), a San Francisco based provider of senior services and health care. This innovative development contains 150 units of housing for extremely low-income seniors sitting above the IOA's Senior Campus, which includes a medical clinic, an adult day health center, and IOA's administrative offices. The project includes 25 units for formerly homeless seniors through the City's Direct Access to Housing program.

#### Experience with a Mixed-Use Development with at least 5,000 sf of retail/commercial space Armstrong Place Senior Housing

Completed in 2011, Armstrong Place Senior Housing is located in San Francisco's Bayview District, along the Third Street light rail line, just a block from the light rail stop, and across the street from Bayview Playground and the Martin Luther King swimming pool. The complex provides 116 affordable apartments for seniors, seventy-one of which are HUD subsidized. The property's amenities include 9,000 square feet of commercial space, community services and retail shops. The property surrounds a courtyard rain garden and has several communal spaces. Twenty-three of the apartments are set aside for formerly homeless seniors participating in San Francisco's Direct Access to Housing Program. These residents are eligible for intensive social services which will enable them to transition into independent living.

#### Experience as lead organizer of collaborative community outreach and planning effort Rebuild Potrero, San Francisco

Through our work as the master developer for HOPE SF Potrero, BRIDGE has proven itself a leader in community outreach and participatory planning, and a pioneer in community-building through a "trauma-informed" lens. The extensive master planning effort at Potrero used a variety of techniques, such as community-wide meetings, facilitated focus groups, and casual "get-togethers," to solicit resident input and tap local expertise, ensuring a successful and inclusive master plan. Furthermore, BRIDGE recognizes that housing development is community development, and as such must understand and respond to the everyday and systemic challenges that each community faces, as well as the assets and strengths that each community possesses. Through partnerships with other local CBOs, and trust-building activities with residents, our work at Potrero is indicative of our commitment to strengthen entire neighborhoods by integrating new housing into the social, economic, and physical fabric of the surrounding area.

#### Additional Development Experience

#### North Beach Place, San Francisco

BRIDGE partnered with The John Stewart Company to develop North Beach Place, a 341-unit HOPE VI Development in the North Beach neighborhood of San Francisco. In addition to providing rebuilt public housing units and additional affordable housing, North Beach Place also includes 20,000 square feet of retail space providing space for a variety of tenants. Most prominent among the retail tenants is a full-service Trader Joe's grocery store. Other tenants include Starbucks, Tutu's dance studio, Edible Arrangements, a bike rental shop, and Kai Ming Headstart Center.

#### Comm 22

COMM22 is a master-planned, mixed-use, mixed-income development located on a four-acre, former San Diego Unified School District maintenance facility site that was vacant for over 25 years and a source of blight for the community. This transit-oriented development has brought a fresh energy to San Diego's Logan Heights neighborhood. The development is split into a Family and Senior component with Paseo at COMM22 comprising 130 units of affordable family housing and Victoria at COMM22 providing 70 units of affordable housing for seniors.

Paseo and Victoria at COMM22 are combined with community-serving commercial and retail space, day care facilities, and ultimately office space, market-rate lofts and for-sale townhomes. Paseo has leased 2,350 sf to a local community medical clinic (opened in May 2015) with an additional 10,500 sf being marketed. Victoria has a 4,500-sf ground floor commercial space which is currently under construction for a community child care facility (scheduled to open in June 2016).

COMM22 features enhanced plaza areas for public gatherings and strong pedestrian connectivity throughout the site with convenient access to public transportation. The COMM22 development also incorporates significant pieces of public art, including a 30-foot long mural, a centrally located 16-foot stone and metal sculpture, as well as other public elements. All are great additions to a neighborhood with a history of embracing art.

The COMM22 project represents a 10-year collaboration between the San Diego Unified School District, BRIDGE Housing and MAAC Project and is a perfect example of a public-private partnership that benefits the city of San Diego and the Logan Heights, Sherman Heights, and Barrio Logan communities.

#### **Attachment D: Asset Management Evaluation of Project Sponsor**

<u># of projects and avg.</u> <u># of units/project currently in sponsor's asset management portfolio</u> BRIDGE has...

- 98 projects in portfolio (note: this includes properties that we CO-asset manage)
- 10,498 total units
- Average: 107 units/projects

Sponsor's current asset management staffing – job titles, FTEs, org chart and status of each position (filled/vacant)

BRIDGE See attached org chart

#### Description of scope and range of duties of sponsor's asset management team

BRIDGE: The Asset Management division maintains a high-quality standard of BRIDGE's real estate assets. In 2015, 11 properties (938 units) came under asset management. The Asset Management team's responsibilities include compliance/investor/lender/agency relations, leasing of properties, due diligence of new acquisitions, portfolio management and risk management. BRIDGE supports its mission and commitment to quality and affordability through long-term stewardship of its assets.

Description of sponsor's coordination between asset management and other functional teams, including property management, accounting, compliance, facilities management, etc.

As a long-term owner, BRIDGE is committed to caring for its growing portfolio of properties. BRIDGE's Asset Management team works with other BRIDGE departments to ensure the longterm financial and physical health and regulatory compliance of BRIDGE-owned real estate. Examples of BRIDGE Asset Management's cross-department coordination include:

- providing due diligence services to the Real Estate Development team prior to acquisition of new properties
- coordinating with Property Management to ensure that the physical needs of the portfolio are met, including obtaining physical needs assessments and overseeing small and medium-sized rehabilitation projects
- working with the Finance team to budget, monitor, report on and audit the financial health of BRIDGE's assets at property and portfolio levels
- ensuring that properties comply with the numerous regulatory requirements and other use restrictions that are unique to affordable housing
- directing Portfolio Management in analyzing project and portfolio performance; recommending financial restructuring as appropriate, including new re-syndication opportunities and refinancing debt; implementing investor exits (buyouts)
- providing insurance services for the entire organization to maintain effective risk management

<u># of projects expected to be in sponsor's AM portfolio in 5 years and, if applicable, plans to augment staffing to manage growing portfolio</u>

BRIDGE pipeline: 117 properties.

Asset management staff will be added as needed to ensure all duties are performed and assets are well maintained.

Staff believes model regarding asset management capacity is adequate for this predevelopment request.

# **Attachment K: Developer Fee Calculation and Milestone**

TOAL DEVE	LOPER FEE BREAK	DOWN	
ESIDENTIAL DEVELOPER FEE	Fee Percentage	Amount	Comments
Project Management Fee available during predevelopment and construction:	23%	\$1,100,000	
Project Management Fee available at risk (the "At Risk Fee"):	23%	\$1,100,000	
Additional Project Management Fee that is available at risk (the "At Risk Fee") to large projects over 100	8%	\$370,000	\$10K per unit over 100 units allowed. If taking + \$1.1MM at risk fee for large
units:			projects, Sponsor to provide analysis that additional fee does not increase
			MOHCD loan.
General Partner Equity	0%		Minimum \$500K. +\$500k encouraged.
Deferred Developer Fee	47%	\$2,298,989	Deferred fee allowed when distribution changed to 50% and taking higher fee
			doesn't increase MOHCD's loan (see analysis below.)
TOTAL RESIDENTIAL DEVELOPER FEE	100%	\$4,868,989	
TOTAL COMMERCIAL DEVELOPER FEE		\$300,000	
TOTAL DEVELOPER FEE IN DEVELOPMENT BUDGET			
		\$5.168.989	

Milestones for Disbursement for Residential Developer Fee payable for Project Management and At- Risk Fee	Fee Percentage	Amount Paid at Milestone	Comments
Project Management Fee: Acquisition/Predev	15%	\$165,000	Gray areas show the totals in the MOHCD Developer Fee Policy
Project Management Fee: Predev with no more than 35% of total Project Management Fee to be disbursed prior to construction closing (see breakdown below)	35%		Gray areas show the totals in the MOHCD Developer Fee Policy
Proj Mgt Fee portion 1 of 3: Predevelopment - Close of predevelopment financing	15%	\$165,000	This amount will be part of this predev request and in the Developer Fee Agreement.
Proj Mgt Fee portion 2 of 3:Predevelopment - Submission of HCD funding application	10%	\$110,000	This amount will be part of this predev request and in the Developer Fee Agreement.
Proj Mgt Fee portion 3 of 3: Predevelopment - Submission of joint CDLAC and TCAC application	10%	\$110,000	This amount will be part of this predev request and in the Developer Fee Agreement.
Project Management Fee: At Construction Closing	20%	\$220,000	These amounts are shown for possible disbursement of the overall project developer fee.
Project Management Fee: During Construction (disbursed upon request depending on % of construction completion) or Completion of Construction	20%	\$220,000	Same as above.
Project Management: Project Close-Out - Placed-In-Service application; 100% lease-up; City approval of sponsor's project completion report and documents; and City acceptance of final cost certification.	10%	\$110,000	Same as above.
TOTAL PROJECT MANAGEMENT FEE	100%	\$1,100,000	
At Risk Fee: 95% Leased Up and Draft Cost Certification	20%	\$294,000	
At Risk Fee: Permanent Loan Closing/Conversion (Final Cost Certification)	50%	\$735,000	These amounts are shown for possible disbursement of the overall project.
At Risk Fee: Project Close Out (See Project Management Project Close-Out milestone activities)	30%	\$441,000	
TOTAL AT-RISK FEE	100%	\$1,470,000	
Milestones for Disbursement Payable for Commercial Developer Fee	Fee Percentage	Amount Paid at Milestone	Comments
At completion of condominium subdivision mapping	25%	\$75,000	
Executed LOI with commercial tenant	25%	\$75,000	
Executed lease with commercial tenant	25%	\$75,000	Conditional and will not be paid no earlier than TCO.
Occupancy by commercial tenant provider	25%	\$75,000	
TOTAL COMMERCIAL DEVELOPER FEE	100%	\$300,000	See MOHCD Commercial Underwriting Guidelines for Total Allowed Commercial Developer Fee: http://sfmohcd.org/documents-reports-and-forms
