Sandra Simon, LNHA, MBA

*Jennifer Carton-Wade, MOT, OTR/L
ANHA, Care Experience*

Diltar Sidhu, LHNA, MBA

Greg Chase

Hiring Updates

Active Recruitment for Key Leadership Positions

- We are continuing the recruitment and search processes for the following roles:
 - Director of Nursing Services
 - Medical Director
 - Director of Emergency Management and Disaster Preparedness
- The leadership positions that have been filled, as well as those we are actively recruiting for, will align Laguna Honda with top performing skilled nursing facilities.

Status Update

The Path to CMS Recertification

- In April 2022, the Centers for Medicare and Medicaid Services (CMS), terminated Laguna Honda's participation in the Medicare and Medicaid Provider Participation Programs.
- Laguna Honda is dedicated to successful recertification in Medicare and Medicaid to continue providing care to our residents and bring long-term stability to our community.
- We continue to work hard to meet all regulatory requirements and make rapid improvements to prepare for recertification.
- This includes long-term operational, institutional, and cultural changes needed to achieve recertification and to ensure the long-term success of the hospital.
- Between the Laguna Honda staff and our expert consultants, we are confident we have the team in place for a successful recertification.

Status Update

Settlement Agreement with CDPH and CMS

- On November 10, 2022, the City and County of San Francisco signed the Settlement and Systems Improvement Agreement with CMS and the California Department of Public Health.
- On May 18th we received the good news that CMS agreed to our request to continue the pause of involuntary resident transfers until September 19, 2023.
- CMS also extended payments for the care of our residents through March 19, 2024.

Path to Recertification

90-Day CMS Monitoring Surveys

- As part of the settlement agreement, CMS will conduct monitoring surveys every 90 days.
- **The third CMS 90-Day Monitoring Survey took place between June 5 and June 9 .**
- As part of the settlement agreement, we submitted an Action Plan to CMS for approval on July 12.

Laguna Honda Path to CMS Recertification

Survey Readiness

During 2023, we will host more extensive surveys and we will host surveys more frequently. We will take on new projects to better align our facility with CMS regulations and skilled nursing facility best practices. These projects, which include ongoing Facilities and Capital Projects, will contribute to more successful surveys. Survey readiness includes daily clinical observation rounds and weekly executive staff leadership rounds.

Action Plan

The Action Plan is our blueprint for how we will accomplish recertification and remain successful over the long term. The Action Plan was developed in response to the Root Cause Analysis, prepared by the Quality Improvement Expert. This was required as part of the settlement agreement.

Recertification Process

Once we are successful in completing our Action Plan, and have a strong performance in our third Monitoring Survey, we will be in a position to apply for recertification.
