I support the hiring of 3 Patrol Special Officers to save and expand this much needed community policing program

Message:

Dear Commissioners, Chief Scott, Mayor Breed, and Supervisors,

With most residents feeling unsafe, and identifying public safety as their top priority, it is hardly the time to terminate the SF Patrol Special Police, which has been recognized in the City Charter since 1856.

With a shortage of over 500 SFPD officers and more slated to retire, the City should be looking to employ every available option to put qualified Patrol Officers in our communities and on our streets.

These Patrols are now considered to represent the first community policing efforts, because of their focused attention to honoring the culture and personality of each distinct neighborhood. This is exactly the type of policing this Commission says it wants. Every district in the City should be able to enjoy the benefits of added community patrols and if this Commission blocks more officers from being hired, the Patrol located in the Marina will represent the end of the program. These Patrol Special Officers are an excellent resource and our City

needs them now more than ever.

We are asking the Police Commission to take immediate action to approve the 3 qualified candidates identified by the Marina Patrol and save this program! Failure to do so will jeopardize the program, and would be a clear failure of your responsibility to promote community policing efforts as well as to our general public safety. Recruitment of more officers takes time...time that we do not have as crime increases while SFPD faces challenges filling new recruitment classes and officer retirements.

The Marina Patrol has identified and recruited 3 candidates who have passed all qualifications for the job. We are asking you to uphold your stated belief in community policing and approve the appointment of these 3 qualified candidates. Every San Franciscan in every district in the city deserves the multitude of benefits from this neighborhood-minded program. Please approve these candidates before September 1st, 2023. Do not let this vital program expire!

Sincerely,

From: [Tanya Fa](#)

I support the hiring of 3 Patrol Special Officers to save and expand this much needed community policing program

Message:

Dear Commissioners, Chief Scott, Mayor Breed, and Supervisors,

With most residents feeling unsafe, and identifying public safety as their top priority, it is hardly the time to terminate the SF Patrol Special Police, which has been recognized in the City Charter since 1856.

With a shortage of over 500 SFPD officers and more slated to retire, the City should be looking to employ every available option to put qualified Patrol Officers in our communities and on our streets.

These Patrols are now considered to represent the first community policing efforts, because of their focused attention to honoring the culture and personality of each distinct neighborhood. This is exactly the type of policing this Commission says it wants. Every district in the City should be able to enjoy the benefits of added community patrols and if this Commission blocks more officers from being hired, the Patrol located in the Marina will represent the end of the program. These Patrol Special Officers are an excellent resource and our City

needs them now more than ever.

We are asking the Police Commission to take immediate action to approve the 3 qualified candidates identified by the Marina Patrol and save this program! Failure to do so will jeopardize the program, and would be a clear failure of your responsibility to promote community policing efforts as well as to our general public safety. Recruitment of more officers takes time...time that we do not have as crime increases while SFPD faces challenges filling new recruitment classes and officer retirements.

The Marina Patrol has identified and recruited 3 candidates who have passed all qualifications for the job. We are asking you to uphold your stated belief in community policing and approve the appointment of these 3 qualified candidates. Every San Franciscan in every district in the city deserves the multitude of benefits from this neighborhood-minded program. Please approve these candidates before September 1st, 2023. Do not let this vital program expire!

Sincerely,

From: [Grace Huey](#)

I support the hiring of 3 Patrol Special Officers to save and expand this much needed community policing program

Message:

Dear Commissioners, Chief Scott, Mayor Breed, and Supervisors,

With most residents feeling unsafe, and identifying public safety as their top priority, it is hardly the time to terminate the SF Patrol Special Police, which has been recognized in the City Charter since 1856.

With a shortage of over 500 SFPD officers and more slated to retire, the City should be looking to employ every available option to put qualified Patrol Officers in our communities and on our streets.

These Patrols are now considered to represent the first community policing efforts, because of their focused attention to honoring the culture and personality of each distinct neighborhood. This is exactly the type of policing this Commission says it wants. Every district in the City should be able to enjoy the benefits of added community patrols and if this Commission blocks more officers from being hired, the Patrol located in the Marina will represent the end of the program. These Patrol Special Officers are an excellent resource and our City

needs them now more than ever.

We are asking the Police Commission to take immediate action to approve the 3 qualified candidates identified by the Marina Patrol and save this program! Failure to do so will jeopardize the program, and would be a clear failure of your responsibility to promote community policing efforts as well as to our general public safety. Recruitment of more officers takes time...time that we do not have as crime increases while SFPD faces challenges filling new recruitment classes and officer retirements.

The Marina Patrol has identified and recruited 3 candidates who have passed all qualifications for the job. We are asking you to uphold your stated belief in community policing and approve the appointment of these 3 qualified candidates. Every San Franciscan in every district in the city deserves the multitude of benefits from this neighborhood-minded program. Please approve these candidates before September 1st, 2023. Do not let this vital program expire!

Sincerely,

I support the hiring of 3 Patrol Special Officers to save and expand this much needed community policing program

Message:

Dear Commissioners, Chief Scott, Mayor Breed, and Supervisors,

I am asking the Police Commission to take immediate action to approve the three qualified candidates identified by the Marina Patrol and to save the patrol program.

We desperately need increased police presence. Common sense would dictate that if the Palace of Fine Arts is being targeted for scores of car thefts a day, that this area should be heavily patrolled.

The city parks and Fisherman's Wharf should also have added police presence.

Our beloved city has become a countryside laughingstock, and the city government needs to wake up and take immediate action. With longtime citizens leaving - along with their companies that provide employment opportunities and tax dollars - and too many tourists returning from San Francisco with stories of theft and violence, we cannot afford to

let crime continue to control our city.

I humbly ask you as the elected leaders of our city to
LEAD and provide these urgently needed peace
officers.

Best wishes,
Kaylene Payel

Dear SF Police Commission,

The Marina, Pacific Heights and Cow Hollow neighborhoods will lose their SFPD Patrol Special Police services soon. This is a much needed program for our community and City. It is of paramount value to us all, from the elderly, those living alone, young families, businesses and more. As you know, The SFPSP have been in the City Charter since 1856. Retired SF police officers and Sheriff, and other highly trained and decorated officers have been members of this City organization.

This is a time, that we as residents do not feel safe. This service is extremely important to us. We have had Officer Alan Byard patrol our neighborhoods for many years now. He answers calls extremely promptly, works well with Northern Station, and takes much of the low priority incidents, that do not really need to be addressed by SFPD. His service is much cheaper than private security. Also, those that have not signed up also benefit from his presence in the neighborhood. He helps everyone.

This last patrol represents the end of the program. To expand the program to other districts candidates must be hired by this last patrol first. This program will no longer exist if action is not taken by the Sf Police Commission in approving candidates.

Officer Alan Byard has three candidates that have passed all qualifications for being added to the SFPSP. However, a background check for one candidate took almost 1 year, another candidate took 9 months and another for over 5 months.

Certified background checks do not take this long to complete. These candidates are needed to fill the jobs in this much needed program. Why it is taking so long to finish the process and appoint these three applicants?

If these applications are not finished by September 1st, 2023, this entire program will no longer exist.

We want answers, we want this remedied, and we want to feel safe.

Regards,

The Marina 94123
