Subject: Painting Murals on 100 SFMTA Traffic Signal Cabinets citywide

Dear Meredith,

This letter is in response to your request to decorate approximately 100 SFMTA-maintained signal cabinets in the City of San Francisco with painted murals. Prior to submitting a proposal for the San Francisco Arts Commission to review and approve, you must first obtain a letter from the appropriate city agency for permission to paint the cabinets, which in this case is the San Francisco Municipal Transportation Agency (SFMTA). I am writing to confirm that SFMTA is in support of our 100 cabinets being painted (per the list of 100 locations listed on the next 3 pages), and do not foresee any major issues with the painting of our cabinets. Therefore, your Arts Commission review can begin. However, final approval and authorization to proceed with painting our cabinets will be contingent upon working with SFMTA on an agreement/permit that SFMTA and Building 180 must sign. A sample agreement was previously sent to you for review. Because it will take time to obtain the SFMTA permit and for Arts Commission approval, we are providing this letter so that both approval processes can start and proceed concurrently.

It should be noted that some cabinets in the Tenderloin proposed for new murals were wrapped with a vinyl art wrap back in 2017. However, those old wraps are mostly damaged now due to age. Therefore, your new project may install new art on any previously wrapped cabinets that are listed below.

Utility cabinets look similar. Therefore, you took photos showing the cabinets you intended to paint. I have attached your photos to show the SFMTA cabinets that are proposed for painting.

I look forward to working with you on the SFMTA permit. Previous art installations on our cabinets have helped to beautify neighborhoods and make San Francisco a wonderful place to live.

Sincerely,

A handwritten signature in black ink, appearing to read 'Dusson Yeung'.

Letter of Recommendation for Building 180/Paint the Void

To whom it may concern,

I am pleased to support Building 180 (Paint the Void) for their proposed project with Paint the City. This letter indicates our support for the project jointly proposed by The City Joy Fund and the Building 180/Paint the Void team to create a series of 100 utility box murals throughout the City of San Francisco.

Illuminate rallies large groups of people together to create impossible works of public art that, through awe, free humanity's better nature. Founded in 2011 and focused exclusively on San Francisco, we've been working steadily to cultivate and create racially accessible expressions of public art that reflect and celebrate the multifaceted spirit of San Francisco in all its nuance and vibrancy. We have had the opportunity to work with Paint the Void on art installations throughout the city, most recently and specifically The Golden Mile in Golden Gate Park, where we engaged Paint the Void to curate, produce, and install 12 large-scale asphalt murals which were applied directly onto the surface of JFK.

Illuminate has worked closely in collaboration with Paint the Void for nearly two years since the onset of the pandemic. We share a core mission of civic engagement and connection throughout the San Francisco Bay Area.

Building 180 is a full-service public-art production and consulting agency creating and producing unique and complex art installations from conception to completion. Building 180 founded Paint the Void, which has been responsible for placing over 230 public murals across San Francisco since March 2020. Their trusted team of curators, producers, and artists are professional problem-solvers with big ideas who thrive on fast timelines. Like Illuminate, Paint the Void is a nimble, lean, well-organized, and highly effective group that cares about artists, community, and civic pride.

Paint the Void is excellent and fun to work with. They are professional and communicative throughout each engagement. It's clear from their track record of creating over 230 murals—30 being community murals—that they are well-equipped to make the most of this opportunity on behalf of San Francisco.

Sincerely,

Ben Davis

To whom it may concern.

I am writing to express my enthusiastic support for Building 180's initiative, in collaboration with the Civic Space Foundation, to paint 100 murals on utility boxes across San Francisco. Having previously worked with Building 180 on their Paint the Void project I have witnessed firsthand their tireless capacity, intentional approach, and deep ties to the art community.

The impact of Building 180's murals from the Paint the Void project still resonates years later – many of these murals are still visible, helping to provide visual inspiration and beauty where there would otherwise be a boarded-up storefront. Where I live in the Castro neighborhood, for example, these murals have not only beautified the streetscape but have also instilled a sense of community pride and identity among residents.

Building 180 has consistently demonstrated their commitment to fostering artistic expression and engaging local artists. Their public pieces each feel like a careful curation that considers the importance of local and diverse artist representation. By providing an important platform for artists to showcase their talent, they contribute to the cultural vibrancy of our city.

It is without doubt that I offer my whole-hearted support Building 180's latest project. San Francisco is fortunate to have their creative energy dedicated to our 7x7 playground.

Warm regards,
Danny Yadegar

Re: Letter of support for Building 180

To whom it may concern,

We are pleased to offer our recommendation and support for Building 180. EDoT has collaborated with Paint the Void and Building 180 on many projects in Bayview/HP. When the pandemic first hit, I was so excited to see the temporary murals going up on boarded up storefronts. I reached out to the Building 180 organization and got an immediate response. Building 180 came out to the 3rd Street corridor and immediately went to work sourcing locations and artists from the community. We now have several murals that are still there, and they look great. Building 180 has proven their commitment to diversity and equity. As the corridor manager, I witnessed this firsthand.

EDoT enthusiastically supports Building 180.

Sincerely,
