Working Group Recommendation and Department Response

SFPD explanation	Open/Closed
Standardizing of CIRT call outs is not neccessary. The variety of different CIRT callouts may require members to deviate from these listed procedures. CIRT is member support and we may need a CIRT response that would not be from this recommended procedure.	
When CIRT is personally contacted to support members, they are encouraged to contact the OIC or the BSU if they need additional resources. They do not need to report their response if they wish protect the confidentiality of the member.
