			assessment of the site and the develop of overall retrofit strategies across the facility. It will then advance through the pre-design phase for selected priority retrofit projects to set a baseline scope, budget, and schedule for each. Final design and engineering, construction, and construction management will be completed by others.			
<u>41901 - 22/23</u>	PUBLIC HEALTH	\$15,000,000.00	The contractor(s) will provide the Department of Public Health (DPH), a Picture Archiving and Communication System (PACS). The services shall include equipment, delivery, equipment configuration, equipment maintenance, implementing and maintaining the software, hosting (as applicable), and maintenance services to be provided by the Contractor(s). The PACS application will be integrated with the Epic Electronic Health Records System (EHR) and other clinical applications currently in use by the Department. The system is used to provide medical imaging storage across all hospital and clinics in the network. Any images including, but not limited to, X-Rays, computed tomography scans (CT), magnetic resonance imaging (MRI), dental images, and ultrasounds processed and stored through PACS. The professional services piece of this contract will be the start up implementation services, training, testing and maintenance portion, that are required to use PACS. The owner of the proprietary software is the only organization able to provide support and staff to implement, train, test and maintain the system with the hospital's existing Electronic Health Records System, Epic, and other clinical applications. In addition, during the term of this PSC approval the	October 1, 2023	September 30, 2028	REGULAR
