Artist Biography (Please provide a short biography about yourself and your craft):

My name is Nuri Leon Keli, I am originally from Turkey and moved to USA 13 years ago for my MFA-Illustration, at Savannah College of Art and Design. I make illustrations, work in animation and also make cartoons. Since I was 16 I always made caricatures and had fun doing it. It is a great reaction to see when people are suprised and happy after they are drawn exaggerated and fun way. I like doing all kinds of vidual creations but caricature is one of my happy places. I have been travelling over the last 5 years around the USA and landed to SF recently and looking forward to create art and make people happy here.

1. Describe your work in detail. How do you make it?

When I make caricatures, I either make them traditional or digital. When I make them traditionally, I set up a chair and an easel and a seat for myself and for my clients. I have them sit there for 5-10 minutes. I use markers to do the black and white inking. after that I use pan pastels or wax pastels to color the artwork. When I draw them i ask their hobbies and favourite colors so I include something personal to each drawing I make. after I finish it I show it to them and if they are happy with it they buy it. When I make it digitally, I usually carry an ipad and paint on the software called Procreate and when I am done with it I email them the artwork or print it.

2. Where did you learn your craft?

I went to artschool for highschool, and went graphic design for my bachelor in Turkey and I did illustration MFA in Georgia. But I have been doing art since I was 7 years old. Most of the skills I have I self thought to myself.

3 Did you take a class or learn on your own?

I went to art schools to learn art but I also self teach myself a lot of new creative skills.

4 Tell us why you make this work?

I love art and I was born to make art. I am developing my business of caricature so when people interact with me and my art, i am hoping to make their day better.

5 What makes your work different from other artists and craftspeople making similar items?

For me, I always try new challenges, pushing the borders so I am getting better and making more interesting art. When it comes to caricature, every artist is unique and they have their own style. But within my style range, I can also do many different approach. Over the many years I worked in animation field so I know how to make dynamic images, great story telling and eye for a good composition.
