<p>Purpose: The requested action is to re-request approval of contract amendment with Chinese Hospital with revised budget. The second change to the original submission was to correct a calculation error in the proposed funding level as the original didn't fully cover current spending. The original Health commission resolution approved on November 7,2023 was an increase of \$8,896,000 for total amount of \$18,851,840 over the same period of 12/1/2023-11/30/24. Due to recalculation to address identified and potential underfunding, we are providing an amendment to the original resolution. The proposed not to exceed amount is now \$20,638,800, which is an increase of \$1,786,960 from our original request (The changes are also reflected in the BLA report recommendation). This contract has returned to the Health Commission to reconcile the total contract amount with the new amount as it has evolved. This contract requires approval by the San Francisco Board of Supervisors.</p> <p>Reason for Funding Change: The difference of \$427,560 represents the additional fund included on this amendment for November 2023 shortfall. Further, the primary change on funding calculation includes an increase to the contingency value. Instead of using a flat percentage to calculate the contingency, we increased the contingency value to be able to cover any potential funding gap if there is a delay in the SNF Subacute licensure which would delay the use of the lower rate. This change would allow DPH to continue to fund all contracted beds at the higher rate through the full requested one-year term. This Contractor is only reimbursed for filled/utilized beds.</p>

<p>Purpose: The requested action is the approval of a contract renewal with RevSpring Inc. for a new contract amount of \$3,766,697 and a term of 8/26/2023 to 8/25/2025 (5 years). RevSpring Inc. provides services and software to print, store and mail Patient Statement Mailers, Insurance letters for the patients of ZSFG. Of the proposed annual funding in the amount of \$672,624, base services amount to ~\$508,923 (inclusive of paper and postage,) and optional services for items such as additional pages, returned mails, and file management amount to ~\$163,702. The proposed new agreement exercises the authority under RFP SFGOV 0000008069, as Revspring Inc was the highest-ranking proposer in response to the solicitation. The Commission had reviewed and approved the contract under Apex Print Technologies on March 6, 2018. On December 31, 2019, Apex Print Technologies was merged into and became a part of RevSpring Inc. The current RevSpring Inc contract is a result of a new solicitation under SFGOV 0000008069 for continuation of the same services, by the same provider, previously approved by the Health Commission. The contract is retroactive due to reorganization within the contractor’s legal department. DPH provided contractor the City’s boilerplate for review, and contractor was unable to turnaround documents in a timely manner. After almost 2 months of review, a handful of contract negotiation meetings were conducted, and both parties finally reached an agreement at the end of December. Given the contractor’s existing relationship with SFDPH, they continued to provided services based on good faith to avoid a break in service for the hospital.</p> <p>Reason for Funding Change: The Department is requesting the approval of the Total Contract Amount with Contingency of \$3,766,697, inclusive of an increase of \$403,575 due to (1) inflated postage fees from USPS \$.50 to \$.63. (2) inflated cost of paper and printing materials, an increased cost of doing business.</p>											
Target Population:	RevSpring Inc provides services to all ethnicities and populations in the City and County of San Francisco that use SFDPH health services, requiring itemized statements, patient statement mailers, insurance letters, and patient letters. RevSpring will format, print and mail these letters and statements to the appropriate patients or insurance companies.										
Service Description:	Revspring Inc, will receive a portable document file (PDF) from the converted Epic Electronic Health Records, to format into a City approved template, print, and mail itemized statements, patient statement mailers, insurance letters, and patient letters to the appropriate patients or insurance companies.

The Total Contract Amount with Contingency requested is \$1,093,393 with a term from 07/01/2023 through 06/30/2025 for a total of two years.
