SFPUC to complete the execution of Contract PRO.0140. Provide specialized and short-term augmentation to existing SFPUC staff for the construction management of the projects to be constructed for the 10-year Regional Water System Capital Improvement Program and the remainder of the Water System Improvement Program (WSIP) in the East Bay. Services will include project construction management, field contract administration, construction inspection, project controls, materials testing, Supplier Quality Surveillance (SQS), project administration and document control, start-up and testing coordination, office engineering, and maintaining a regional field office for consultant and City staff. The 10-year Regional Water System Capital Improvement Program includes a series of projects that are planned to be constructed during the next 7 years, culminating in the Sunol Valley Water Treatment Plant (SVWTP) Ozone and Calaveras Substation project, which is estimated to be over \$100M in construction cost, which would require an extensive and specialized construction management team to be situated in a remote location. This PSC is to provide specialized construction management staffing and also to provide augmentation to existing SFPUC staffing to cover the temporary peak work load anticipated during the PSC duration.
