

City and County of San Francisco
Department on the Status of Women

London N. Breed
Mayor

DIRECTOR'S REPORT

February 7, 2024

Working at the intersection of health, safety, socioeconomics, politics and gender, the Department on the Status of Women has an expanded portfolio that prioritizes improving the whole lives of women, girls and nonbinary people through three core service areas: Health and Safety, Economic Security and Civic Engagement and Political Empowerment.

With a focus on its three core service areas, the Department seeks to rebuild itself as the City's Watch Dog and Accountability Partner on all issues related to gender parity; Chief Advocate for equity in service delivery, employment opportunities, leadership development and budget allocation; and Community Convener – bringing people together inside and outside the City to collaborate on ideas, strategy and impactful action to help San Francisco transform into a fully gender equitable City.

Reorganized and reimagined to meet this post-Roe moment, today's Department on the Status of Women is one that is human-centered, informed by data and infused with confidence, conviction and clarity of purpose.

The items below reflect the Department's work towards building a more diverse and efficient San Francisco City and County government through gender-responsive and racially equitable policies and programs.

II. **ADMINISTRATION & OPERATIONS**

• **Fiscal**

The Department has been working on the design of our FY 2024-25 and FY 2025-26 budgets. The Department's goals are to advance the progress that we have made and maintain the momentum that we have built in the last four budget cycles. The Department strives to fulfill the needs of the organization and the communities that we serve while meeting the required ten percent or \$1,350,000 General Fund reductions requested by the Mayor's Budget Office for each fiscal year. The Department has also been working to identify the additional 5 percent contingency totaling \$675,000. The Commission will be voting on the Department's proposed FY 2024-26 budgets at today's meeting.

It is important to note that even with the challenges posed by the current economic conditions, the Department expects that the baseline budgets for our multi-year grant contracts will be unaffected.

- **Grants Administration**

The Department provided staff with training on grants management accountability. By holding organizations accountable to the grant plans that they have developed, the Department ensures that clients and program participants are appropriately benefiting from City-funded initiatives.

The Department updated the questions in the grantee quarterly narrative report as a means to provide more opportunity for grantees to share important progress updates beyond the standard statistical and demographic data collected. Questions now focus on project progress, challenges faced, community changes that impact project work, important upcoming dates/events for grantees/projects, lessons learned, support needs and sustainability.

The Department continues to develop a refined grants management policies, procedures and preferences document, which will improve narrative and financial reporting processes, including invoice processing. The aim is expedite review and payment while reducing the time and effort required of both grantees and DOSW program staff. Other benefits include clarified grants management processes for Department staff.

V. **PROGRAMS, POLICY & REPORTING**

- **Policy & Programs**

The Department continues to build out its policy portfolio for the next two years and will focus on one policy at each governance level: local, state and federal. At the local level, the Department is researching getting free period products in all CCSF bathrooms. At the state level, the Department is looking into a possible role to help with enforcement of SB 1162, the Pay Transparency Law. And at the federal level, the Department is researching ways to support student loan forgiveness and/or national paid family leave.

- **Health & Safety**

The Department has a special focus on supporting grantees through the quarterly report and Envisio data submission process this month. DOSW continues to work on the upcoming Mental Health Pop-Up series and is looking toward May for the National Day of Awareness for Missing and Murdered Indigenous Women.

The Department of Homelessness and Supportive Housing (HSH) issued a report on the housing needs of gender-based violence survivors. DOSW has been an active member of a working group and 3 subcommittees to work

through the report and recommendations. Several recommendations pertain to DOSW; the subcommittees are compiling joint implementation plans.

- **Economic Security**

The Department is continuing its work with Indigenous Justice and Center on Juvenile & Criminal Justice's Cameo House to implement a Guaranteed Income Pilot and Micro Grant program to support survivors of violence and justice-impacted women. DOSW anticipates an official launch for these pilots in early 2024.

The Department is also working with San Francisco's Human Services Agency (SFHSA) to request a waiver from California Department of Social Services (CDSS) to protect the public benefits of individuals participating in the guaranteed income pilot program. The Department, together with SFHSA, has successfully completed the CDSS waiver application process and submitted the application materials to CDSS for review and approval.

- **Civic Engagement & Political Empowerment**

N/A

- **Strategic Initiatives**

On January 31, 2024, the Department marked the one-year anniversary of the creation of the San Francisco Bay Area Reproductive Access Coalition (BAARC.) BAARC stakeholders shared information about the innovative work of the coalition in its first year, as well as the coalition's goals as it moves forward.

The Department's annual SHIFT Happens policy Summit is scheduled for April 18th, 2024, at Moscone Center. This year we are working with IGNITE on a program that will focus on civic engagement and political empowerment, particularly for young women and women of color, in advance of the November 2024 election.

- **SF Bay Area SOL Collaborative**

The SF Bay Area SOL (Safety, Opportunity, and Lifelong Relationships) Collaborative continues to develop a continuum of care for youth involved in or at risk of commercial sexual exploitation.

The Collaborative continues to focus the first quarter of year two on the opening of the emergency placement component of the project, the Youth Stabilization Pathway. The Department has identified partners and caregivers to help support the work in launching the youth stabilization pathway.

- Department of Justice, Office on Violence Against Women Grant**
 The Department is collecting data from all program partners to prepare, coordinate and submit a semi-annual report covering all program activities from July 2023 through December 2023 to the Department of Justice. The Department continues to support Black Women Revolt Against Domestic Violence, La Casa de Las Madres and the District Attorney's Office in their efforts to expand support services and coordinate data collection on the City-wide expansion of the High Lethality Assessment Program. The department is developing a revised MOU in partnership with the District Attorney's Office to resume work on the Domestic Violence Death Review Team.
- Blue Shield Foundation Grant**
 In addition to the [HEALing Roots Podcast](#) series, the HEALing Roots Collaborative is working to host a convening of domestic violence service providers and City leaders with the goal of forging lasting partnerships between these stakeholders. This convening will allow domestic violence service providers, with the assistance of the Department, to pose the question to City departments as to how they are considering domestic violence in their everyday operations and how they can better serve survivors in all areas of public service.

VI. **RESEARCH & DATA/ PROJECTS, STRATEGIC LEARNING & CAPACITY BUILDING**

- Research & Data**
 The Department has collected the second quarter of data in the new Envisio data collection system. Envisio helps the Department administer the quarterly reports it receives from grantees and improve our ability to use the data in these reports. DOSW will continue to build out the new data platform in order to improve the experience for our grantees. As part of this, the Department has released a revised set of narrative questions. These new questions provide greater clarity and improve the data the department will receive. DOSW will continue to provide support to its data partners in the Envisio system to ensure data is reported seamlessly.

The Department will provide a preliminary analysis of the Family Violence Council Report to the Family Violence Council. This preliminary analysis will cover the major data points identified in the previous Family Violence Council Report. The Family Violence Council report investigate the prevalence of Child Abuse, Elder Abuse, and Domestic Violence in CCSF, as well as the actions taken to combat these issues. The Family Violence Council report serves as an important resource to track trends in the data over time, both in how prevalent these issues are, and in how we respond to them. DOSW has collected data from 20 organizations, including both law enforcement and service providers.

The Department is currently in the process of preparing the Gender Analysis of San Francisco Commissions and Boards Report. This report is generated by the Department once every two years and examines representation across several

groups in the City's advisory and policy bodies. The demographic categories include women, people of color, LGBTQIA+ individuals, people with disabilities, veterans (or people who have immediate family members that have served) and people of various religious affiliations. The Department remains committed to producing reports using the best data possible. This year, DOSW was committed to increasing the response rate for our survey, as our 2021 report was limited by low participation driven primarily by complications arising from the COVID-19 pandemic. DOSW took several steps that successfully increased the response rate of our survey dramatically.
