

DPH Behavioral Health Residential Treatment Expansion

The San Francisco Department of Public Health (DPH) is increasing residential treatment and care services by approximately 400 overnight treatment spaces, or beds. The expansion effort is guided by the 2020 DPH Behavioral Health Bed Optimization Report, Mental Health SF legislation, and with input from stakeholders. The goal is to offer high quality, timely, easily accessible, coordinated, and recovery-oriented care delivered in the least restrictive setting.
