State Bills List from CALBO (as of March 15, 2024)

Note: Includes selected state bills that CALBO (California Building Officials) is tracking.

Selected Bills on CALBO's Watch List:

[AB 1114](#) (Haney D) Planning and zoning: housing development projects: postentitlement phase permits.

Introduced: 2/15/2023

Last Amended: 4/13/2023

Status: 10/11/2023-Signed by the Governor

Location: 10/11/2023-A. CHAPTERED

Summary:

Current law relating to housing development approval requires a local agency to compile a list of information needed to approve or deny a postentitlement phase permit, to post an example of a complete, approved application and an example of a complete set of postentitlement phase permits for at least 5 types of housing development projects in the jurisdiction, as specified, and to make those items available to all applicants for these permits no later than January 1, 2024. Current law defines "postentitlement phase permit" to include all nondiscretionary permits and reviews filed after the entitlement process has been completed that are required or issued by the local agency to begin construction of a development that is intended to be at least 2/3 residential, excluding discretionary and ministerial planning permits, entitlements, and certain other permits and reviews. These permits include, but are not limited to, building permits and all interdepartmental review required for the issuance of a building permit, permits for minor or standard off-site improvements, permits for demolition, and permits for minor or standard excavation and grading. This bill would modify the definition of "postentitlement phase permit" to also include all building permits and other permits issued under the California Building Standards Code or any applicable local building code for the construction, demolition, or alteration of buildings, whether discretionary or nondiscretionary.

[AB 548](#) ([Boerner D](#)) State Housing Law: inspection.

Introduced: 2/8/2023

Last Amended: 9/1/2023

Status: 10/11/2023-Signed by the Governor

Location: 10/11/2023-A. CHAPTERED

Summary:

Current law deems a building, portion of a building, or premises on which a building is located to be a substandard building if any one of specified conditions exists to the extent that it endangers the life, limb, health, property, safety, or welfare of the public or its occupants. Current law deems a building, portion of a building, or premises on which a building is located to be in violation of the State Housing Law if it contains lead hazards, as specified, that are likely to endanger the health of the public or the occupants. This bill would require local enforcement agencies, by January 1, 2025, to develop policies and procedures for inspecting a building with multiple units if an inspector or code enforcement officer has determined that a unit is substandard or is in violation of the State Housing Law, and the inspector or code enforcement officer determines that the defects or violations have the potential to affect other units of the building, as specified. If the local enforcement agency determines the substandard condition could reasonably affect other units, the bill would require notice be given to the property owner, as specified, and the units reinspected to verify correction of the violations.
