Artist Biography (Please provide a short biography about yourself and your craft):

My name is Jaden Love; I am a 25 year old transgender artist who has been living in the Bay Area for almost 10 years. I love expression through art and jewelry and think people of all genders can enjoy handmade jewelry to express themselves. I believe nothing is more beautiful than a handmade gift, especially something you can wear and show off to the world. Whether it's pride-related jewelry or something elegant for all occasions, I love it and every bit of it.

1. Describe your work in detail. How do you make it?

I purchase beads and jewelry findings and then carefully design and assemble earrings, necklaces, and bracelets. Additionally, I'll make some beads by hand using polymer clay and assemble them into beautiful pieces that can be worn.

2 Where did you learn your craft?

I'm self taught and have used Youtube as a resource to learn specific skills all here in San Francisco.

3 Did you take a class or learn on your own?

I learned how to make it on my own.

Please provide up to five (5) images of the work, both in process and finalized

4 Tell us why you make this work?

I believe everyone should have access to beautifully handmade jewelry to express themselves without having to resort to commercially made pieces. Additionally, I find that working with my hands is very healing and comforting and I hope to bring that comfort and healing to my customers who purchase them.

5. What makes your work different from other artists and craftspeople making similar items?

The pieces I make come from a place of healing. Additionally, I have pieces that are handmade beads which I think is unique in itself.

Please upload your image of display

No answer given

8 Are you using logos or material commonly used in commercial products?

No

9 How are you ensuring customers can tell a difference between your work and commercial or mass-produced items?

Handmade beads are a big one. Additionally, I plan on hand making pieces as I sell them too, so customers can see the process first hand. I also add a flare to the packaging with a hand drawn signature on each piece that holds the jewelry.

10. What steps have you taken to ensure that you are not violating any copyright or other laws that might apply to the logo or other material commonly used in commercial products?

The logo is drawn by myself, with all of my own ideas, and all designs are thought of by myself and not any other person.

11. Does your artwork comply with all federal, state, and local laws and ordinance, including, if necessary, lawful authority to use logos or other images protected by copyright or trademark laws?

Yes

12. Are there any health and safety restrictions on your products?

No

13. Please upload recent receipts for any tools and materials. Must be the same tools and materials used to create the items in the work samples

14 What, if any, safety precautions do you employ in your work?

I sometimes wear eye protection when cutting wires to prevent it from getting in my face, I also bake polymer clay in a well ventilated room.
