5. Committee Member Reports (*Information*)

Report	Discussion
Chairman report	<ul style="list-style-type: none">● Not much to say for bike updates.
Committee reports	<ul style="list-style-type: none">● D1: Want to acknowledge the family who was killed by a driver a few days ago in West Portal. Let's have a moment of silence for the family.● D2: refuserefusesf.org: automated speed enforcement camera locations● D3: Vacant.● D4: West Portal is a big connector to my neighborhood. My family uses that bus stop<ul style="list-style-type: none">○ Easter egg hunt for kids● D5: West Portal is a tragedy, and it is frustrating that the deadline for Vision Zero is in 2024 and the needle has barely moved. Also frustrating there's no longer a pedestrian advocacy group. My doctor's office is out there, and crossing the street as a pedestrian is extremely confusing. There needs to be no car traffic out there.<ul style="list-style-type: none">○ No further updates.● D6: Cosign on West Portal sentiments.

- D7: Chairman report.
 - Luke Bornheimer: making a petition to close that area to car traffic.
- D8: Absent.
 - Public comment: Aaron Breetwor: what is the accountability for people who have been killed by cars while on bikes or skateboards? Doesn't seem like there's media reporting or any accountability. Dolores and Cumberland and 21st.
 - D9: reach out to your supervisor and other ways to hold police accountable.
- D9: Not a lot specific to D9 since last meeting. The local and federal gov't responses has not been sufficient to address traffic violence.
- D10: Think it is a good idea to close off Ullola to car traffic. Police enforcement will be necessary to change traffic patterns.
 - SFMTA has approved safer 17th st from potrero ave going east. 16th has become a big corridor to Chase Center. Want to acknowledge the work of Peter Belden there.
 - MTA: did mention there needs to be maintenance, and will follow up with that. Also be sure to report on 311
- D11: Also feel really bad about what happened on West Portal. Very irritated that cars that weigh 4000 lbs are not being held accountable when they mess up. Close down the streets to prevent what happened. It is an extremely confusing intersection. They are too big, too heavy, and if one has a heart attack while driving, that's reckless on the road.
