Federal Small Business Inclusion Resources

The Federal government spends \$600B annually on contracts for goods and services, with a goal of 23% to go to small businesses. The Small Business Administration (SBA) has programs providing capital, counseling, and other resources to support small businesses in federal procurement. The Norcal Apex Accelerator provides counseling, custom bid matching, and other free consulting for small businesses.

View the powerpoint presented by the SBA at a recent LBEAC meeting here for more resources.
