Project Description and Location

San Francisco Municipal Transportation Agency (SFMTA) proposes to implement pedestrian safety improvements at various intersections within the Western Addition neighborhood. The project area is defined as west of Van Ness Avenue from O'Farrell Street to Oak Street, north of Oak Street from Van Ness Avenue to the intersection of Steiner Street and Fulton Street, north of Fulton Street from the intersection of Steiner Street to Baker Street, east of Baker Street from Fulton Street to Turk Street, and east of St. Joseph's Avenue from Turk Street to Geary Boulevard, and south of Geary Boulevard from St. Joseph's Avenue to Gough Street and O'Farrell Street from Gough Street to Van Ness Avenue. SFMTA has identified the following typical pedestrian safety improvements in the SFMTA Quick-Build Toolkit that could be installed at intersections within the project area: continental crosswalks, daylighting, painted safety zones, advanced limit lines, slow turn wedges, hardened centerlines, pedestrian signal retiming, leading pedestrian intervals, and signal lens

upgrade. Intersections in the project area would undergo an evaluation and design process to determine specific treatments that would be applied to specific intersections.

Determination

The City and County of San Francisco decided to carry out or approve the project on August 23, 2023, when the SFMTA Livable Streets Manager signed a directive for the project. The posting of this approval on the Planning Department’s website on August 30, 2023, constitutes the project’s approval action. The project was officially approved on October 2, 2023, when no appeal of the statutory exemption was filed during the 30-day appeal period following posting of the approval action. A copy of the documents may be examined at the Planning Department, 49 South Van Ness Avenue, Suite 1400, San Francisco, CA, 94103 in file no. 2023-006663ENV.
